If there is a drain on the system and strength, the record of it will show in the face. If there is nerve nagging "bearing-down" pains, dragging and pulling at the most sensitive organs in a woman's body, the face will show it. Abused nerves draw lines of care and worry on the face. Nervous prostration writes its warning on the face long before it comes. Sleeplessness, nervousness and debilitating drains make more wrinkles

11To Mr. W. G. Woods: DEAR SIR -I have much pleasure in stating that the Gurney Oxford Hot Water System, which you set up my house in the autumu of 1894, was fully what you represented it to be, and gave entire satisfaction. There was no dust, no smoke or gas, no leakage, and the air seemed pleasant and agreeable to breathe, so that no one had a cough in my house during the entire winter. Notwithstanding the severity of last winter, our house was so comfortable that we had to go outside to find if the day was cold; while the quantity of coal consumed was only a little more than we had burned in former winters in our large coal stove with less rooms to be heated. The furnace was easily managed, and with ordinary care, the temperature of the house could be kept at any degree derived. I can heartly recommend this system of house heating to anyone, who during our Canadian winter desires to enjoy what I can best describe as solid
