act have been enforced in a couple of in-stances I have been threatened with a law suit by members of the board of health.
This line of conduct on the part of members of the board has a tendency to weakthe man to collect it.

Coun. Staples said he would like to mow if the Agricultural society has any stroying the germs of disease when disinfecting bedding and wearing apparel be-longing to patients who have had diphtheria, it is absolutely necessary to use superheated steam." In Lindsay we lack some advantages for combatting disease.
An isolation hospital is badly needed, and
it is some years since I tried to impress its necessity upon the public. With an isola-tion hospital we could enforce complete separation of sick from well, something it Is often impossible to do in our present circumstances. We could have a steam chamber attached to the building where my chemical opponent could disinfect beding with steam at 145°. It is stated by ding with steam at 145°. It is stated by issues the instructions for distriction,

The Board of Health.

[To the Editor of THE POST.] Sir, - From sensational newspapar headings reporting the proceedings of the officer is being obstructed in the performance of his duties, and, on this account, he the present serious epidemic. This is entirely incorrect, at any rate as far as any inreferred to an epidemic, during the course he is ex-officio, a member of the board of health, that he may arrest a health officer health, that he tion of the cause of the disease was that | who may visit houses infected with diphtheria, that he is accountable for the board, not to the board; that correspondence between the local board and provincial board of health should pass through his hands, as a consequence a letter from sented at the last meeting of the board, man" letter whother the board did find and although it gave special instructions to counteract the cause or not, which is that board; that he alone has authority to a pity, seeing that the experience is held order up or remove placards. He has reach pity, seeing that the experience is held order up or remove placards. up as a parallel to what is going on in moved whiskey from the excise list and public water supply fit for domestic use; he can break the contract between landlord and tenant ; he assumes to be dictator and not an advisory officer of the board. Every position is unwarranted and untenable. That I may be fair with him and the public I will give some quotations ly incontrovertable, and will perhaps inform the public, as well, as to the respective duties of the medical health officer and health officers proper when ap-
