LINDSAY, FRIDAY, OCT. 23, 1896.

HON. A. G. BLAIR'S VISIT.

The projected visit of Hon. A. G. Blair, minister of railways and canals, to this section, in connection with his inspection of the Trent Valley canal system, was discussed at Monday's meeting of council, and the importance of arranging to have the minister visit Lindsay was generally recognized.

It was decided that the council, or as many of that body as could conveniently spare the time, should combine with the county council representatives and members of parliament and meet Mr. Blair at Bobcaygeon on his way up the lake. Mr. M. M. Boyd, we understand, has generously offered to place the Str. Esturion at the disposal of the minister and party, and Lindsay will probably be visited before going on to Rosedale.

Owing to the probability that many years will elapse ere Lindsay has a railway service to Bobcaygeon, the importance of maintaining an uninterrupted water communication with the lower lakes cannot be too strongly urged, and no doubt the need of a new lock at Bobcaygeon will be brought to Mr. Blair's attention, as well as the necessity for a grant to improve the river channel at Lindsay between th Wellington-st. bridge and the lower wharf. The Ontario government has expended in all considerably over $100,000 on our river in recent years, and a grant of say $5,000 from the Dominion government would give Lindsay the full benefit of this large expenditure by making it possible for steamers to approach the town wharf at the season when tourist traffic is heaviest, instead of having to land near the town boundary.

THE BUSINESS OUTLOOK.

Since the change of govern nent a more healthy feeling has been gradually pervading all classes of business, and while we do not claim for the liberals—as Sir Charles Tupper did for the tories—the power of creating national prosperity at will, no doubt the knowledge that an economical government had gained power, and that the present tariff would be revised so as to give equal chances to all manufacturers, and special favors to none, has had much to do with creating the rapidly growing feeling of hopefulness now observable.

To a great extent the prosperity of the farmers of Canada means the prosperity of the people as a whole, and for this reason the recent unexpected advance in the price of wheat, caused by news of old world shortages, gives cause for the liveliest satisfaction. Canada has been blessed with a bountiful harvest, and her farmers will receive more for their wheat than they have for years, but whether the dollar mark will be reached is problematical. Fall wheat is now listed here at 80c.; Fife, 78c.; spring, 75c.; goose, 73c. North-west farmers are likely to benefit by the strong competition between the Ogilvies and Lake of the Woods Milling Co., and are now receiving 68c. and 70c.; at Neepawa 93c. was paid the other day as a result of the ill-feeling.

Our farmers should not grow over-confident because of the speculative craze that has developed in wheat across the border; there is likely to be a sharp reaction, followed by another advance based on a verified estimate of the wants of continental countries. In the meantime THE POST will give special attention to the market reports, and for some weeks to come the daily reports from Toronto will appear in its columns.

WHEAT STILL BOOMS

Advanced Another Cent in Chicago Yesterday.

MANITOBA FARMERS ARE HAPPY.

Commissioner Miall of the Inland Revenue Department at Ottawa Has Something to Say About Short Crops in Other Countries—Latest About the Markets.

Chicago, Oct. 20.—Wheat closed today at the highest point thus far for the year. Early indications gave no intimation whatever of the boom which was seen in the closing half hour. Some indifference abroad was disclosed by the cables, and especially those from Liverpool. America looks to Europe for direction in the present instance, and when a decline at the place mentioned was reported the enthusiasm underwent modification. Bradstreet's was expected to announce a big increase in the world's stocks, and on that prospect a few of those people who have not yet been convinced of the legitimacy of the advice were tempted to sell a little wheat short. When it was learned that the report would not be made public to-day there was a change of front, no one caring to remain short over night. Then when sales of 300,000 busheis at New York for export to Lisbon were reported, together with heavy gold importations the sentiment rapidly assumed a bullish appearance, and from that time until the close it was only a question of how high prices would go. Berlin, Paris and Antwerp all quoted advances correspondingly with ours of yesterday. December wheat opened at 77 7-8c to 77 1-2c, sold between 78 3-4c and 78 5-8c, closing at 78 3-8c, 1c higher than yesterday.

At Buffalo.

Buffalo, N.Y., Oct. 20.—Spring wheat closed higher. No. 1 hard spot, 84 3-8c; do. new, 83 7-8c; No. 1 hard, spot, 84 3-8c; do. new, 83 7-8c; No. 1 Northern, 83 3-8c; do. new, 82 1-8c; No. 2 Northern, 80 7-8c, spot; No. 1 Northern, c.i.f, 80 1-8c. Winter wheat closed higher. No. 2 red and No. 1 white, 86 7-8c; No. 3 red, 81 3-4c, store; No. 2 red, 88c, track.

FARMERS TO GET GOOD PRICES.

Commissioner Miall Shows How Canadian Farmers are in Luck.

Ottawa, Oct. 20.—(Special.)—Not unnaturally the advance in the price of wheat has attracted some attention here. Mr. Miall, Commissioner of Inland Revenue, who, in his capacity as Commissioner of Standards, has had occasion to study the wheat problem, says that, according to advices, which have reached the department, there is a falling off this year in the wheat crop in Russia, Argentina, and India. India is actually importing wheat today, while Australia has had to look to California to make up her requisite stock of wheat for home consumption. Canada also has sent some cargoes of wheat to the Antipodes. At the very outside it is not expected that there will be more than 10,000,000 bushels of Manitoba grain available for export. It is acknowledged that the combination of Manitoba hard wheat with the soft wheat of Ontario makes the very finest flour and there will undoubtedly be an increase in price to a certain extent as the outcome of the keen rivalry of the Canadian milling companies to secure the requisite supply of Manitoba wheat for home consumption.

PROSPERITY IN MANITOBA.

The Farmers are Receiving Advanced Prices for Their Wheat.

Winnipeg, Oct. 20.—(Special.)—Wheat prices throughout Manitoba are maintained to a figure away above the export value, through the war between the rival milling concerns. The result is that farmers are profiting largely, and business in all lines is greatly benefited. Manitoba was never in better shape than just now, and there are signs of prosperity on every hand, all due to the unexpected rise in wheat prices.

EDITORIAL NOTES

Wheat is on the rise. Notwithstanding the increase in the visible supply prices are stiffening, and farmers are correspondingly gratified.

A Denver preacher who evidently wants the trappings of religion to be up to date has introduced phonograph music into his church. Next in order will be a phonograph serman. What a convenience it will be in the way of solving the summer holiday problem.

Now Germany is enforcing an inspection system which virtually shuts American canned beef out of the country. The Yankees are doing a great deal of grumbling, arguing that it is protection in disguise. But if so, why should they object to taking their own medicine?

The Mail and Empire affects to regard the settlement of the Manitoba schools difficulty by Manitoba as a most disgraceful transaction and a humiliation to the province. And yet there are those who recall that the tory organ did not regard settlement in that light when the settling was to be done with its friends. It did not even think coercion of the province improper.

Stratford Bescon: Ian MacLaren, author of "Beside the Bonnie Briar Bush," who is on a visit to Canada, astounded the people of Hamilton by asking $500 for a lecture. It is evident that the good old Scottish prayer, "Lord gie us a guid opinion o' oursel's," was a favorite in Drumtochty. And it is evident that it has been answered in the case of the minister of Drumtochty.

The leading editorial note in the latest number of the American Agriculturist is headed "Good Times Coming." and reads as follows: "It looks that way! Crop shortages in Europe, India and the Argentine are creating an extraordinary demand in England and the continent for American produce. Our exports are increasing so rapidly that ocean freight rates have advanced heavily, consequently tramp steamers are all racing to our coasts to get cargoes. This will bring down rates again and insure abundant means for transporting our surplus to the other side. Prices are advancing all along the line. Wheat and oats are higher, so are tobacco and cotton; wool is improving, and with last year's extraordinary corn exports now being doubled, even corn is advancing in the face of the biggest crop on record! Re-actions are propable if prices go up too fast, but even if present values are only maintained it means millions upon millions of extra profit to American farmers." To the above might be added the fact cheese last week advanced to over ten cents a pound, a rise of nearly 50 per cent. since the beginning of the season.

THE GRAIN STANDARDS

Toronto Delegates Reach Winnipeg—If the Government Remains Stubborn the Grain Trade Will be Demoralized.

Winnipeg, Oct. 20.—(Special.)—The board to fix grain standards will meet to-morrow. The eastern representatives, who include J. L. Spink, C. B. Watts and M. McLaughlin of Toronto, have arrived. Every effort will be made to persuade the Dominion Government not to make the changes in classifications now being gazetted.

Dr. Bown of Winnipeg, who for many years was private secretary to the late Sir John Schultz, was badly shattered in health by the shock of Sir John's death. His mind is said to be affected, and his sister, Mrs. Ferrie, of Hamilton, Ont., has petitioned the courts here to declare him insane, and appoint a committee to look after his estate.

The new Grand Opera House of Winnipeg will be opened Monday night with a performance of Il Trovatore, under the direction of Signor D'Auria, late of Toronto, with Madame D'Auria as prima donna.

Charles Turley, a prominent resident of Brandon, and Grand Chancellor of the Knights of Pythias in Manitoba, is dead.

Winnipeg is determined that the improvement of Red River navigation shall no longer be delayed, and the Board of Trade and City Council are waiting for Hon. Mr. Tarte's arrival to impress him with this. They think if he is going so extensively into public works this point should not be neglected.

Our interest in the Ready Made Clothing Business comes of a sincere devotion to your interest. The average clothier neglects style, skimps quality and charges exorbitant prices. Money-making is his sole ambition. We can afford to be more liberal. Tailor-made clothing of every sort is here ready-to-wear, stylish Suits for Men and Boys such as Merchant Tailors would make you. Materials the best, styles the newest, every detail perfect. Men's Hats and Furnishings, the largest stock in Lindsay.

P.S.—Full line of *Wright's Genuine Health Underwear* for Men; every garment stamped. Call and see our stock of *Dr. Denton's Sleeping Garments*, which have the endorsement of the best health authorities and all mothers, and are 50 per cent. cheaper than any other lines in the market.
