HYMENEAL.-The enclosed clipping is from the Toronto Globe, and refers to Miss McKinnen, formerly of this place, daughter of the late Louch in M. Kinnon. Mis Hooper's mother still resides at east Oak wood. The young lady left here three years' ago to reside in Toronto. The many friends here wish the couple much happiness. Following is the item: A very pretty wedding took place last evening in the Beverley-st. Baptist church, the contracting parties being Miss Maggie Mc-Kinnon, of Lindsay, and Mr. George J Hooper, son of the Roy. Dr. Hooper, of this city. Miss Cassie McKinnon, sister of the bride, acted as bridesmald, and Miss Minnie Hawkies accompanied the bride as maid of honor. Mr. Gadway gave the bride away, and Mr. Ralph Hoop r assisted his brother as groomsman. The orremony was performed by the Riv. Dr. Hooper. The bride, bridesmaid and maid of honor were each costumed in cream and looked charming. A sumptuous wedding breakfast was partaken of at the residence of Dr. Hooper. Mr. and Mr. Hooper will reside on Middleton avenue, Parkdale. Mr. Hooper, who is one of Parkdale's young business men, has the hearty congratulations of his large circle of friends.

church in the village was opened for divine church in the village was opened for divine service on Sunday, the 11th inst. Rev. Dr. Carman, general superintendent of the Methodist church in Canada, preached at the morning service and again in the evening. Rev. Amos Campbell preached in the afternoon. At all three services the church was crowded.... On Monday evening a fowl dinner was served in the basement; the crowd at the dinner was extremely te crowd at the dinner was extremely large. Many persons were present from Omemee, Valentia, Bethany, and the surrounding country, while to see the number from Lindsay one might suppose Jauetville to be a suburb of the town. After the dinner an adjournment was made to the church and the meeting was called to order by the chairman, Rev. Mr. Shorey, of the Cambridge-st. M-thodist church. Mr. Shorey, in a short address, congratulated the resident pastor, Rev. Mr. Coone and the trustees, on the success of the opening deremonies, and then called upon Rev. Mr Camp'ell to take charge of the financial port on of the meeting. Mr. Campbell then in a few well chosen remarks asked for subscriptions, which flowed in so freely that at the close of this part of the meeting all the indebtedness in connection with the building operations was provided for. The collections on Sun day amounted to over \$48, the receip's from the sale of tickets for the dinner netted \$157, these amounts, together with the subscriptions, totalled up the amount to over \$800. The total cost of the building is \$2 700. Singing and music enlivened the meeting. Miss Williamson, of Omeme, sang a solc. A Lindsay quartette, comprising Misses Winters and Walters, and Messrs. Robson and Lyons, were much in demand. Miss Fee and Mr. Sam McGill sang a duet. Besides the ministers already mentioned, the following rev. gentlemen were present : Mr. Oswald, Mr. Anderson, Mr. Harrison. Those on whom has fallen the burden of constructing a new church certainly deserve great credit for the success their efforts have made possible. The old church was destroyed by fire, and as it was uninsured the burden of rebuilding seemed at one time almost insurmountable. The formal dedicatory services brought the meeting to a close. Very many of those who had seen the church for the first time expressed their admiration of the new building.

LITTLE BRITAIN. (Correspondence of THE POST.) WEDDING FESTIVITIES .- Expectations ran high in social circles when it was known that cards were issued for a wedding to take place in the Methodist church here at 1.30 p.m. on Wednesday. Oct 14th. The contracting parties were George Wesley Hall, M.D., and Miss Mary J. Davidson. They were attended by Dr. Henderson, of Cannington, and Dr. Mo-Phall, of Manilla, as groomsmen; Miss Lottie Davidson and Miss Hall, as bridesmaids. The church was filled with an expectant crowd when the bridal party entered and were escorted up the aisles by Ray. A. R. Delve and Geo. Henderson, while the strairs of the organ, tresided over by Miss Stratton, pealed forth a wedding march. The church was beautifully decorated with flower . When all was in | Williams' Pink Pills with his remarkable readiness the bride-the centre of attraction-entered, leaving upon the arm of her step father, Mr. Robert Henderson, who led her to the altar and presented her to the groom. She was beautifully attired in brookded oream, trimmed with lace and pearls, bridal veil and orange blossoms, and carried a handsome bouquet of roses. The bridesmaids also wore cream, and looked charming. The ceremony was conducted by Rev. F. B. Stratton, pastor of the church, at the close of which the party were escorted to the coach in waiting to

convey them to Mr. Henderson's. They were followed by forty-three carriages containing about a hundred and forty guests. After congratulations a sumptu ous dinner was served, the menu being sufficient to satisfy the most fastidious epicurean. Toasts were proposed to the bride and groom. by Dr. McPhail; to the the groomsmen by the groom. In a most felicitous manner the good qualities of each party in turn were dwelt upon. Drs. Henderson and Vrooman, and Rev. Stratton, were also called upon, and made some happy hits. The speakers were naturally brief, but all did well. UNABLE TO WORK THOUGH STRONG AND WILLING.

The Sufferings of a Well Known Guelph Citizen-Could & Not | Move CAbout Without the Aid of a Stick-Again Strong and Healthy as Ever.

From the Guelph Mercery. There is perhaps no busines or occupation that any man could follow that more trying to the health-particula ly in the winter-than that of moulding. A workman leaves the shop with his clothes ringing wet from perspiration, and a cold wind chills him to the marrow, making him a ready mark for lumbago, sciatica and kindred troubles. A moul der requires to be a man of more than ordinary strength, and to continue at his work must always be in good health, fo a moulding shop is no place for an in valid. Sciatica is by no means an un common affliction for men of this craft, and once the dread disease has lanced victim he seldom shakes himself free from it again. In fact some people de clare that it is incurable, but that it is not we are able to testify by a persons interview with one once afflicted with the trouble, but who is now in perfect health, thanks to his timely use of the famous remedy. There are few workmen better known in Guelph than Chas. W. Waldren, perhaps better known as "Charley Wa'dren," for he has lived in Guelph almost continuously since he was three years of age, and he has now passed the 38.h mile post. Mr. Waldren is a

moulder, and has worked at the business for 22 years : and besides, being noted as a steady workman, he is a man whose veracity is unquestioned. It is a wellknown fact here that Mr. Waldren had to quit work in January, 1896, on account of a severe attack of sciatics, and for eleven weeks was unable to do a tap. Knowing that he was again at work a Mercury reporter called at his residence one evening to learn the exact facts of the case. Mr. Wildren, when spoken to on the subject, replied quite freely, and had no hesitation in orediting Dr. recovery. "I am not one of those people who are seeking newspaper notoriety said Mr. Waldren, "neither have I been snatched from death's door, but from the day when I quite work, until March 30th, when I started again, I was confined to the house with sciatic . It located in my

hip and would shoot down my leg to my foot and was very painful. I could not move about the house without the aid of cane, and then only with great pain. was totally useless as far as doing my work was concerned, was never free from pain, and it made me feel very much depressed, for beyond that I felt strong and anxious to be about. I am a member of three benefit societies, from which I drew pay, viz : The Three Links, the Iron Moulders' Association, and the Raymond Benefit Society. People came to see me, and of course everybody recommended a sure cure. I didn't ry choir, of which Dr. and Mrs. Hall are hilf of them. It was not possible, but I tried a great many — particular y remedies that I had been in the habit of using for lumbago—but I found no relief.

> again. I kept on until I had finished the eighth box, and I never felt better in my "Have you noticed any recurrence of trouble since?" queried the reporter. have not," he replied, "suffered a single twinge since." Mr. Waldren has worked in all the moulding shops in the city, and was never in his life hid off sick as long as he was from the attack of sciatica He hardly knew what it was to be sick and is of that tough wiry nature that he can stand much greater physical stain and also a promising asbestos mine at than most people would imagine. ous wheat of the world, and her markets during the past month have presented a study of peculiar interest and value. It was known at the opening of the month that the Russian and American crops were short, There was practically nothing available from other exporting countries except a few cargoes of last season's wheat from Argentina, and stocks were low both in Great Britain and on the Continent. The Russians declined to sell except at enhanced prices and their shipments fell far behind the usual average for the time of year. The only source of supply was the United States and it might reasonably have been expected that we should have reaped the benefit of our position by obtaining enhanced prices. Our financial position appears, however, to have precluded our taking the full advantage of the situation, and our new wheat came forward in great quantities at going rates. The month ends with an improvement of 6c to 7c a bushet, but it is the general opinion of the members of the grain trade in London and Liverpool that the advance might have been doubled and brought about earlier had the United States been in a position to hold back. It is practically certain that the end of the current harvest year will see no great surpluses, and it is reasonable te suppose that we shall see no fur-

Geo. F. Wallace of Sackville, N S Cured of Rheumatism.

SACKVILLE, N.S., Aug. 25, '96. S. S. RYCKMAN MEDICINE CO. HAMILTON, ONT.

GENTLEMEN, - For nearly a year I suffer ed severely with Rheumatism and was in such condition that I could not leave my bed for months. I learned of your medicine, Kootenay Cure, from a friend who had successfully used it for Rheumstism, and I concluded to try it. Up to date I have taken five bottles and as a confe quence am up and attending to business. i feel like a new map, and have no hesitancy in recommending the medicine, Ryckman's Kootenay Cure, to anyone suffering from Rheumstism.

I remain most r specifully yours, GEO. F. WALLACE, Proprietor Brunswick House.

Railway Notes.

-A meeting of railway men was held in New York recently, the object of which was to secure the adoption of a plan where by freight cars of uniform dimensions as to width and height are to be used by all

-The Berlin News says that Mr. J. Brow, driver of the Galt engine on the Grand Trunk, has the longest and best record as an engineer in the Grand Trunk service. He has been railroading over 49 years, 33 of which have been spent with the G. T. R. He took the first train over the road from Toronto to Kingston with a load of general managers and superintendents about 30 years ago, and during his long term of service has only killed one action. man, who was struck while driving over

-Now that Sir Charles Rivers-Wilson has explained forty thousand dollars of expenditure on a honeymoon car by a augh, let him smile again to the board of directors and explain that huge botch. he Union station. There is a general im pression that a railroad station ought to be built so that one's friends can be met ard welcomed. But let no one make the mistake that the Union station is a meetlog place. Far from it-it is the best losing place in the city. It is worse than the mazes of the Minotaur, and if you would find a friend you must take out a search warrant.-[Toronto Star.

-At Providence, R. I., the other day Chief Car Inspector Lamb, of the Consolid ated Railroad, testified in a damage suit that the tapping of car wheels with a hammer, as a method of inspection, was only for the purpose of making people believe that an inspection was going on. He did not believe that a cracked steel wheel could be detected by tapping with a hammer. Good eyesight served the inspectors the best, and one would hardly know that anything was wrong unless the defect could be seen. Mr. Lamb has been fifteen years in his present position, and must have done a lot of tapping by way of reassuring innocents in his time.
