Municipal bodies in Ontario will be interested in the arbitration just con-

cluded to determine the amount to be paid for the next five years under the Municipal Act by the city of Ottawa to the County of Carleton on account of jail and court house expenses. For the five years up to 1890, the city paid an annual sum of \$5800. Then in 1890 the city was coaxed into increasing this amount to \$9750 per annum. This year the county wanted \$10,800, which the city refused to pay, but offered the county \$10,000. The county declined to accept the sum, and an arbitration was decided upon. Judge Deacon of Pembroke was the county arbitrator, Tayfor McVeity, the city representative, while Judge Bell of Chatham was appointed third arbitrator by the Lieut.-Governor of Ontario. The city's case was vigorously fought by City Solicitor MacTavish, with the result that the award, on which all the arbitrators are in accord, gives the county a net annual payment of \$8104, or \$1900 less yearly than they were offered. The the county's arbitrators disallowed claim for compensation for common use with the county by the city of the court house and jail. The decisions in County of Kent v. NINE PEOPLE KILLED.

An Accommodation Train Down South Ran Into An Excursion Train With Awful Results.

St. Louis, Oct. 25.-A head-end collision occurred on the St. Louis and San Francisco Railway near Mesamec Highlands at 10 o'clock this morning, by which nine people were killed and a score injured. The scene of the wreck is 13 miles west of this city. The Valley Park accommodation train, going east very fast on a down grade, came into a collision with the second section of a westbound excursion train, going to St. James, Mo., and carrying 240 G. A. R. men and their families. The impact demolished both engines and wrecked or derailed all the cars. Nine bodies were recovered during

the afternoon, and 't is believed that at least two more are beneath the wreck. Of the 2) injured eight are likely to die. Following is a list of the dead: Charles Kohl, engineer accommoda-

ONCE SHE WAS PRETTY. Married Well But Became Addicted to Drink and at last Bled

in a Hovel. Toronto, Oct. 24. Sarah Leslie, a dissolute woman once much respected, and the wife of a prominent East End citizen, died suddenly at about 6 o'clock last night in the ramshackle place old John Richardson calls a

home at 173 Simcoe-street. Deceased had been drinking very heavily of late and yesterday, with Richardson, she consumed a large quantity of whisky. At noon she lay down on the dirty mattress which answers the purpose of a bed in John's scantily furnished apartment, and John lay on the floor with his head on the foot of the mattress. When Richardson awoke soon after 6 o'clock he attempted to arouse his companion, but his efforts were useless, and he rushed out for a doctor. After calling at the homes of half a dozen medical men he got Dr. Macdonald of Simcoe-street to call and see the woman, who had been dead some

time when the doctor arrived.

Dr. Macdonald notified Coroner Johnson, who issued a warrant for an inquest on Monday and the remains were taken to the Morgue in the patrol wagon. Sarah Leslle was a few years ago a pretty milliner and dressmaker. Her maiden name was McGee, and she was looked upon as one of the cleverest women in her profession in Toronto, and was much sought after by the leading stores. Chicago Wheat Pit.

Toronto, Oct. 26.

Liverpool Caused a Panie and the Fact That Money Ran Short Accentuated It - The Latest Reports.

Yesterday was the most exciting day of all for the speculative fraternity. bestowed on the wheat market of late and particularly the past week. The advance in the Chicago market within two months has been 23c. The climax was reached on Monday last, when the December option sold at 79 3-4c. Then the stories of large amounts of money and even fortunes began to be circulated about the fortunate ones who had bought and were holding wheat at the time. But there is an end to all things. Hundreds of people were induced by the higher prices to try their luck in wheat, and the buying by outside operators, including those in Toronto, was on a larger scale a week ago than a month ago, when prices were much

lower. Many thought that wheat should be bought at the beginning of last week on declines of 1c to 2c per bushel, but It has turned out differently. The trading element had become so bullish that many talked a dollar wheat in the near future. They backed their opinions and lost.

The market yesterday declined 4c per bushel, the December option selling down to 69c, and this is a decline of 10 3-4c since Monday last. Margins have been wiped out indiscriminately, and the losses extremely heavy. The losses came quicker than the profits, and in some instances operators who had made money up to Monday last are now behind in their speculations. The British markets yesterday were very flat at a decline of 21-2d per cental. Available supplies are large, and the future market will depend greatly upon the action of Liverpool, -110 450

Demoralization at Chicago. Chicago, Oct. 24.—Wheat is sinking in price so rapidly that even its most devoted friends are beginning to desert its cause. Yesterday's rally from erate return to confidence, but to-day's be coming in. During the interval break not only offset that revival, but carried dismay to some of the most pronounced and constant bulls, Liv-erpool was not content to only disregard our yesterday's improvement, but cast additional gloom over the minds of holders of wheat by declining from 2 1-4d to 2 1-2d. This was the allimportant factor in the market during to-day's session. The cash wheat situation was somewhat relieved, but there was still a very much congested condition to report.. Money with which to carry the grain is badly needed and the stringency is most discouraging. Ordinary news pertaining to the market cut little figure. Receipts at Chicago were 188 cars, and 31,700 bushels were taken from store. The Northwest had 1088 cars against 835 last Saturday, and 116 a year ago. Shipments from both coasts for the week were 3,823,000 bushels, 300,000 less than for last week. Atlantic seaboard clearances for twenty-four hours amounted to 289,666 bushels. Closing continental quotations were higher to correspond with the American advance of yester-

At New York. New York, Oct. 24.-Wheat opened much lower at the Produce Exchange this morning. December closed last night at 80%. opened to-day at 77, and May, which closed yesterday at 83%, opened to-day at the cause of the lower prices.

The Close at New York. New York, Oct. 24 .- In the last half hour prices of wheat again fell and at the close the decline amounted to fully 31-2 per cent. The final figures were the lowest of the day. A lower Liverpool market and trouble in obtaining money accommodations were the chief factors of the weakness. Advices from the West were to the effect that a steady unloading was in progress. The sales in this market during the two hours of business to-day aggregated 5,295,000 bushels. December

Advices From England. London, Oct. 24.-Beerbohm's corn trade though the market is apt to go to extremes, and a decided reaction has occurred, the general conditions surrounding the market are unchanged, and the trade need not lose confidence that the world's visible supply is less than in any year since 1891. The price ought to keep up to a level of at least 35s. Any return to low prices if there is a symptom of decline in will probably be prevented by a rise in any market ours will give way. At the freight rate."

Selling qrders at the best period of the market were more plentiful than was anticipated. Heavier shipments overburdened holders and dealers anxious to liquidate then rushed to sell. Values fell rapidly, closing 21/4d down.

MRS. COOMBS WAS KILLED.

Her Husband and Two Boys Injured in the Accident.

Amesbury, Mass., Oct. 25.-An accident occurred here this afternoon by which one person was instantly killed and three others badly injured. Alfred H. Coombs, his wife, a 10-yearold boy named Percy, who lived with them, and another boy, a son of Alfred Morrill, started from Mr. Coombs' house to drive to church, when the horse took fright and plunged over an embankment, throwing them out. Mrs. Coombs' head struck a tree and she was killed. Mr. Coombs was rendered unconscious, and will probably die. The boy Percy is injured internally and has small chances of living. The Morrill boy was the least injured.

A Ruined City Discovered. St. Louis, Oct. 25 .- A special from the City of Mexico says: An unknown ruined city, covering a space larger than New York City, with two temples and two great pyramids, has just been discovered in the mountains in the State of Guerrero by William Niven, the well-known mineral-cgist of New York. He has just returned from a ten weeks' trip into that country graphs of the ruins.

The Wheat Speculators Coming to Their Senses.

Prices Well Maintained in Manitoba-Millers Find it Would Not Pay Them to Allow a Sag-Opinions of a Leading English Broker on the Situation.

Winnipeg, Oct. 26.-(Special.)-Wheat prices throughout Manitoba have declined slightly, but are still above an export basis fully five cents. Prices in this country will not get any lower, however, because now the rival milling concerns are forced to keep them These milling companies have

now got on their hands a lot of highpriced wheat. If they should let the price drop, it would follow, of course, that the price of flour would drop too-Then, with flour at a cheap price, the milling companies would be grinding their high-price wheat at a big less. So the Manitoba farmer is happy, for he is quite safe in holding his wheat if he desires. He cannot lose by holding, and might gain largely if a big rise in prices should occur.

DON'T KNOW WHERE THEY STAND.

But the Trade Believe That Finally Prices Will be Better. London, Oct. 26.-In an interview

with a representative of the United Associated Presses to-day, Robert Rim, a member of one of the leading houses doing business as brokers in Baltic wheat on the Grain Exchange, said: "The fall of half a crown in California wheat in Liverpool has disorganized the market, and we do not know exactly where we stand. Until we receive some of the arrivals of wheat which are now due from California, thus fixing actual values, the markets must be uncertain. The trade has come to the conclusion that there is going to be a different level from what they are accustomed to and better prices. I do not think we shall ever return to the old level. At present we can take every bit of Callfornia wheat we can possibly get, and I expect an immediate rise of another shilling. It is not likely that the market will be overcrowded for the next six months. Then the new crops will California and River Platte wheats will be chiefly relied upon, as there are discouraging reports concerning the Russian and Australian crops. The River Platte prospects are good, but those dealers are holding prices very stiff. The California holders are not pressing sellers, but it is the resellers that are knocking down the markets."

At Chicago.

Chicago, Oct. 26.-The wheat market kept speculators guessing to-day, and at the close they were apparently as far from a solution as at the start, although prices rested at a gain from Saturday. The cables from Liverpool at the opening were 1-2d higher, that information tending to encourage buyers a little, but the closing advices were lower. Quick changes in price were constantly taking place and the tone veered from strong to weak and vice versa without any apparent inctive. The routine news incident to the session was, generally speaking, of a character to disappoint advocates of higher values, but the burning of an elevator in the northern part of the city, by which 1,200,000 bushels of wheat was destroyed, gave the market an upward inclination at the close. Closing continental cables were all lower. December wheat opened from 69 7-8c to 70 1-4c, sold between 71 1-8c and 69 1-4e, closing at 70 3-4c to 70 7-8c, ic to 1 1-Sc higher than Saturday. Cash wheat was firm and 1c higher.

Cont nental Markets. London, Oct. 26 .- The reports of today's grain markets on the various Continental bourses, received at the

London office of the United Associated Presses, are as follows: Antwerp-The wheat market was inactive. Holders compelled to accept lower bids. Time business has been paralyzed by the violent fluctuations of the American markets. Corn was easy, with very few buyers. Paris-Flour opened weaker, but

better feeling followed. Berlin-The market opened with a On the strength of news from America the market later became firm. Buda Pest-Offers increased at lower

Amsterdam-Market lower. Marseilles-Market steady and without notable changes. Odessa-The Danublan and Russian markets were inactive and nominally very firm. Sellers refuse to make concessions, but the best opinion is that the close there was a disposition to

The Weekly Review.

London, Oct. 26 .- The Mark Lane Express, in its review of the grain market, says: "The rise in the price of wheat is justified by the situation. It is not a speculative advance; on thé contrary, a speculative effort to bear the market is on foot. The English wheat crop did not exceed 7,250, 000 quarters, though it is stated that it reached 9,000,000. Let the farmers wait. The inrush of wheat into the market from California and Argentina is now arriving, but it will not arrive freely until February or March, and it cannot depress prices if English wheats do not encumber the earlier markets. Let all the farmers take courage. The epoch of over-production is on the wane."

London, Oct. 22.-The Bank of England has advanced its rates of discount from 3 per cent. to 4 per cent.

The Globe, in its financial article, says: The rise in the Bank of England's discount rate is not likely to affect trade, though it will hurt imprudent speculators, for a rise in the bank rate can stop the American drain of gold the moment it approaches the danger point. The money market has still a superabundance of loanable capital, which is obtainable at cheap rates upon good security.

SPAIN AND HER COLONIES.

The Prime Minister Explains the Condition of Affairs in Regard to the Wars. London, Oct. 22.-The Daily Stan-

dard's despatch from Madrid says that Queen-Regent Christina presided at full number of sellers at lower prices. | the meeting of the Council of Ministers held yesterday. Senor Canovas del Castillo, the Prime Minister, presented a summary of the events which have occurred in Spain and the colonies within the past three months and a forecast for the near future. The outlook, he said, showed that great distress existed among the people in the southern and eastern parts of the kingdom, which fact would render the collection of taxes during the coming winter slow work. The withdrawals of 20,000 men from the plows and mills within the past 20 months, he said, was severely felt and Spain would, in consequence, be obliged to import large amounts of breadstuffs. The prosecution of the war against the insurgents in Cuba and the troubles in the Philippine Islands had markedly diminished the exports of manufactured and agricultural products to the West Indies and the Philippine Islands, causing great distress and discontent. In the towns and rural districts there was visible a feeling of impatience and anxiety, all classes of the people having been led to hope for quicker and more decisive results from their sacrifices. Everybody, the Premier said, recognizes the fact that the drain cannot long continue at the present pace. Patriotism and national pride alone can check the criticisms of the Government's course. The Liberals, Democrats, Carlists and even the Republicans, have a sort of instinctive presentiment that impels them to cohesion with a view of averting international complications and the dreaded intervention of the United States. The gloomiest feature of the situation, the Prime Minister declared, is the difficulty which the Government finds in obtaining a loan of 1,000,000,000 pesetas to defray the expenses of the war in Cuba and the Philippine Islands, and to strengthen the finances of the The Spanish press is almost unanimous in approving the idea advanced by the Premier of appealing to the
