Boys Brigade The first annual meeting of the First

Lindsay Company of the Boys' Brigade was held on Monday evening, the 19th inst. The boys were out in their uniforms and in full force. Judging from the number of townspeople present, the proceedings were of a very interesting character. The silver medal presented by Lord Aberdeen to the company was won by Segt. Wm. G. Robinson. The medal is very handsome, and was awarded for conduct and efficiency in drill during the meetings of last season. Colonel Deacon reviewed the company in the skating rink last spring, and after careful inspection selected the popular sergeant as the one entitled to the medal-but there was no doubt as to the keenness of the competition. The successful Will went to camp at Kingston afterward with the 45th Batt., and found his knowledge of drill was a great advantage to him while there.

The Victoria Loan and Savings Co. We publish in another column the auditor's report of the Victoria Loan and Savings Co. The substantial progress that the company has made during its first year is very creditable indeed, and promises a large development in the future. The assets are over \$50,000, two dividends at the rate of six per cent, have been paid, and a balance carried to profit. The total expense chargeable to income appears to be only \$219.00. In order to secure the immediate success of the company the directors have given their services free. We venture to say that of all the numerous companies organized in Toronto none have advanced to a similar position under an expense of \$5,000. The dea of the company is entirely local, the stockholders, depositors and borrowers being all local men. A minimum of expense and a maximum of security is their motto. THE POST compliments the management and predicts a prosperous future for the company. Lindsay ought to be both the commercial and financial centre of the Midland district.

-We are pleased to learn that Mr. John Levey, whose recently patented cheese turning rack was briefly noticed in these columns, is likely to realize well from his invention. Mr. J. McAdams, travelling agent, reports that the right of sale for Haliburton county has been disposed of to Mr. Geo. K. Martin, of the Victoria flour mills, and a number of the racks have been placed in this county, Maple Leaf factory taking one holding 30 cheese, and Little Britain and Star factories, racks holding 45 cheese.

-A most curious club has just been formed in a sumptuous hotel in the Domhof-Platz at Berlin. Its title is a poem, "Der Antihandenindiehosenhaschenhallenverein." It is a club whose mission is to correct those people who have the habit of putting their hands in their trousers' pockets.....It is not at all likely that a branch of the above poesy club will be established in Lindsay—the habit alluded to is very popular here. What troubles most of us is that we find nothing in our pockets when we do put our hards in.

-In Brockville pressure is being brought to bear on the school board to have the teeth of the children inspected quarterly or semi-annually by a competent dentist. And wby not—the children might be spared much suffering in after years were this practice to become general, and the cost would be trifling. The Lindsay board should take the matter into consideration, having already shown their progressive ideas by having the children's eyes examined by an oculist, whose report, by the bye, has not yet been given to the public.

How Manitoulin is Progressing. We take the following extract from the letter of a correspondent of the Weekly Sun, of Toronto, under date of Oct. 21st Dr. Herriman practices his profession in Lindsay, and farms up on the Manitoulin by way of recreation. The doctor told me, a few days ago, a little of his experiences in the latter direction. Some ten years since, he appropriated a location at West When he first went into that section there was nothing but a blazed road to guide him, and bush at the end of it. Now there is that produced this year 3,000 bushels of grain, where he maintained a flock of sheep, the product of which yielded him between three and four hundred dollars, besides a lot of hogs out of which he had forty for sale, and, to cap all, the estate so quickly created has just been rented for

A Progressive Farmer.

T the market on Saturday our reporter overhes à several well known farmers discussing improved methods and progressive ideas as applied to husbandry, and one of them asserted that Mr. G. H. Payne, of lot 14, con. 2,

West Ops, was one of the few really upto-date farmers in this district. Not hav-Bay, on the north shore of the island, ing the pleasure of Mr. Payne's acquaint ance, our scribe later on made some enquiries concerning that gentleman, and what he gleaned bears out the statement an excellent highway to the location, on what he gleaned bears out the statement overheard. Since settling on the old Bryce farm he has greatly improved the property, and his methods of farming have won the admiration of all. From the first he engaged in mixed farming, and planted corn for this wise: "When I first went up there, sixteen years ago," he said, "in-going storing the rest for winter use—now all of settlers had to take with them their cows settlers had to take with them their cows their horses, their oxen, and even their their horses, their oxen, and even their be bought on the ground at any price—all had to be imported. Now what do not be imported. had to be imported. Now, what do we see! Cattle by the hundred. hogs by the ship-load, and sheep in thousands, are exported every year.
