LINDSAY, FRIDAY, OCT 22, 1897 DROWNED NEAR HIS OWN DOOR

" Why, that's Tom, my husband!" cried the poor woman; I was expecting his ship to come in almost any day. He'd been gone a year on a voyage to South America, and now here he lies dead on the sard. Oh, God! what shall we do, what shall we

The ship had foundered during a tramendous gale off the South Coast in the winter of 1879, and the body of this sailer, (by the irony of fate) had been cast ashore within half a mile of his own cottage Such an incident is dramatic; it appeals to the imagination and excites pity. But are there not thousands-? What's the use of any more preamble? Read this: "In the spring of 1884" -so runs a woman's letter- "my health began to fail me, as a dream does when one awakes. The first sign of what was happening was a feeling of languar and fatigue that I could not account for. My mind was full

"My appetite was bad, and what little late gave me an intense pain at the chest which seemed to go through to the shoulder blades. Not infrequently the pain in a napkin. Following this there would come a sense of sinking as if the very

ground was failing beneath me. "Being unable to digest nourishing food my strength vanished day by day until I had barely power to walk feebly about. All ambition to work was gone from me. With the least exertion I would lose my breath, and my heard would throb and palpitate so that I was alarmed lest some one of the attacks might be fatal. Often I would sit for an hour at a time, powerless

"During all this time I was troubled with other distressful symptoms, which I will only allude to in a few words. There was a belching of wind or gas from the stomach, foul and disgusting, which sickened me dreadfully; an aching head, sallow skin, a feeling of chilliness even on slight exposure, sleeplessness mental anxiety and increasing exhaustion.

"I was treated by a doctor, and used many medicines suggested by others-all to no purpose. The disease seemed to ba seated beyond the power of human skill to uproof it. I speak now of a time four years after I was first attacked. While in his wretched and apparently hopelessly ondition, I read of what Mother Seigel's Carative Syrap had done in like cases. I themist at Whitehaven, Cumberland. After taking it for a week I felt marked telief, and when I had used three bottles I could eat any kind of food; my strength gradually returned, and in a short time I was well and strong as ever. This may seem almost incredible to some, but it is

The above letter is from a lady residing at Distington, near Whitehaven, Cumberland. For personal reasons she requests as not to publish her name at present, yet her illness and cure, as stated, are known to all the neighborhood. We append a note which explains itself :-

"I can vouch for the accuracy of the above statement. I have known the lady for the past five years. (Signed) Charles Carke, Postmaster, Distington, October

For one moment now let us consider two or three important ficts. This lady suffered for four years. Read her letter again and see what this fact means. Pair, loss and sorrow filled that dreary period. Yet she was finally cured in as many weeks Had she known of Seigel's Syrup and used that the outset she would have been cured at one. Not a day, not an hour, of all those four years but the syrap would have set her on the road to health, had she used | But Four Boxes of Dodd's Kidney Pills to drive out her disease-indigestion and dyspepsia. Still, she suffered and faced death, with help right at her elbow.

own door !

Jerry Britton of Montreal.

OUR Y-M-C.A. ASSOCIATION.

TUESDAY EVENING. The Year's Progress Satisfactory-Election of Officers and Reports.

THE ANNUAL BUSINESS MEETING

The annual meeting of the Lindsay Eoung Men's Christian Association was held in their rooms Tuesday of last week. Through the kladness of the Ladies' Auxiliary tea was provided, at which about 50 parsons were present, and many more came in afterwards, so that the meeting was the largest of its kind in the history

of the association. After tea the meeting was called to order and the president, Mr. Allie, took the chair. A report was then read by the secretary, Mr. Ross, covering the work of the past year. This report showed satisfactory progress along the various lines of work taken up by the association, and was adopted on motion of Dr. Totten and Mr.

his report was read by Mr. Allie. This was so bad with dyspepsia that for several report showed that the financial standing weeks at a time she could eat no food and of the association is better now than it has been for years, and that the year will close with only a small deficit. This report was adopted on motion of Mr. Horn and Dr.

Discussion then followed on the reports, Massra, Boxall, Webster, Wilson, Hart and Rav. Mr. Macmillan taking part.

The election of officers was a xt proceeded with. Mr. Alifa was re-elected president by acclamation; the balloting for directors resulted in the election of the following gentlemen: Revs. J. W. Macmillan and H. R O'Ma'ley, and Messrs. A. Horn, E A. Hardy, H. S. Porter, M. Sisson, R. Campbell, F. A. Robinson, Dr. Hart and J. N. Campbell. The meeting closed with prayer by Rev.

Mr. Macmillan at 9 p.m. To the Members and Subscribers of the

Lindsay Young Men's Christian Association: At this, the close of the year 1896 97, it is our duty to lay before you the work that has been done the past year and give an account of our stewardship, While we are conscious of many mistakes and loss

opportunities, yet we are thankful that our heavenly Father has given us the privilege of doing something in this important branch of His work - that of trying o save and help young men There have been many lifficulties in the way, yet we are thankful that we have found His grace to be sufficient for us. We look forward to better work for the Master, and trust that by the united efforts of all to make the coming year a telling one for Christ among the young

As you are aware, a change of secretaries has taken place. Mr. Jackson acted as secretary until Feb. 1st. and your present secretary took charge of the work Your board has met 15 times since last October, five of these being special meetings. They have at all times tried faithfully to plan for the welfare of the association and to do that which would be most help-

Finances. - This work has required much time, prayer and work on the part of the board. Owing to the general figancial depression a difficulty was found in securing money, but we are that kful to say that our debt has been greatly reduced and that we hope to close the year with a much smaller deficit than was

Religious Work .- The number of religious meet ogs of all kinds has been 112, divided, as follows: 44 men's Su day p m. me-tings with a total of 2,462 and an average o 56; four sturnts' meetings with an averige of 18; few sessions of a bible training class, verage three; 2 meetings of boys' BC., average five; 40 nots meetings av rage of 28. The men's meeting Sunday afternoons has been addressed by local and v siting ministers and by members of our own a sociation. They have been found very helpful and cannot help but extend our Master's cause and stimulate more earnest work in our Father's vineyard. We wish to thank Mr R Humphreys as leader of the orches ra for his assistance, and Mr. H. Porter for his work as organist. Special meetings have been held for the Collegiate students, which were productive of much good. Bible study has not received the attention that it deserved, but we hope that this year that feature of our work will receive due prominence. Personal work has been done at the close of the men's meeting or whenever an opportunity presented itself. We have endeavored in serson and out of season to get oung men to take a stand for Christ. The rooms have been used by committees 23 times and by other erganizations 48 times. The membership has increased very rapidly during the part year. A mem-ber-hip contest instigated by Mr. Jackson succeeded in bringing in 149 new members. We now have a membership of 215, 81 of these being active mem-

Educational Work -Three classes have bee taught this past year. A class in English by Mr. E. A. Hardy, one in bookkeeping by Mr. J. T. Harrington, and one in snorthand by Mr. Jas. Peel. These classes had a very good average attendance and were a great help to those who attended. In addition to these a literary seciety was held for some time and

of small worries, and things that I com- was organized during the winter and practiced twice | there is laid up for me a crowa of rightmonly took no notice of assumed an a week. A number of matches were played with Is portance which did not, I knew, properly out ide teams During the summer a football team belong to them.

Social Work. This is an important branch of our every night to welco e strangers and greet those who my stemach was so keen, and held out so attend the rooms. Six receptions were held during long, as to double my body up as one folds | the past year. These had a total of 804 and an average of 134 During some months last winter checker and chess contests were started and created a great deal of interest. Two new games, viz : Bagatelle and parlor curling, were added to our library an : reading room. Several new books have been added to our library during the past year, but we feel that many more should be procured at once. The library and reading room have b.th been used very freely by the

Entertainments -There have been five entertainments given in the rooms the past year. One of these was under the auspices of the junior department and one under the ladies' auxiliary. In addition to these an "At home" was held at the residence of Dr. Clarke, and a lecture given under the association's auspices by Rev R. Johnston, of London. The success of these entertainments is la gely due to the entertainnent committee, with Mr A. Williamson as chairman. On June 22nd the Y.M.C A took charge of a celebration on Jubilee day, which was in every way a great success. We received very valuable aid from the town and from outside sources, and to these we give

our sincere th nks Junior Work. - This branch of our work is under a committee with Mr. A Horn as president. It has grown to be a very important department of our work. We now have a membership of 61. They have a room to themselves and have the use of it three times a week. On Thursday evenings a gospel meeting is held. This has had an average attendance of 28. On Sunday mornings a boys' bible class has been February. One concert was held under their auspices. In July they went cameing at Pleasant Point, and a most enjoyable and helpful two weeks' cuting procured this med c'ne from Mr. Gee, the | was spent. A junior football club was organized and Saturday tramps to the woods indulged in by many should receive all due care and support, as from the junior departn ent we shou d receive into our senior department those who are trained in association work

and thoroughly imbued with its spirit, The Ladies' Auxiliary. - This department, under the presidency of Mrs McLennan, has done very faithful work in keeping the rooms bright and attractive, and by assisting at receptions and entertainments. We thank them very heartily and assure them that the sympathy extended to us in the work. We also wish to thank the pastors and various speakers who have assisted us at our Sunday afternoon meeting. also those who have donated books, flowers, pictures or in any way contributed to the work. We desire to ourselves, are the young men and especially to thank the press for the valuable space women of our family safe. The time for

The Greatest Ride in History. A territory of 271,000 square miles, comprising Washington, Idaho and Oregon as they are to-day, was saved to the Union by one man. He had the courage and heroism to ride on muleback for three thousand miles. The ride was thrilling, the trials and hardships marvellous, the result a glorious one. Toe whole story, beautifully illustrated, will be given in the November issue of The Ludies' Home Journal, under the title, When Dr. Whitman Added Three Sters to Oar Flag," the closing and most intensely interesting article in the Journal's successful series of "Great Personal Events." The first women to cross the Rockies figure in the story, which proves beyond a doubt that they preceded Fre mont, the " Pathfinder," by six years.

Church Notes. -In the absence of the pastor, Rev. J. W. Macmillar, who preached in Georgetown Sunday, the pulpit of St. Andrew's was occupied by the Rev. Mr. McKay, of Novar, who gave two earnest and thoughtful addresses. The sermon in the evening was taken frem II Timothy, 7th and a part debates etc., were given.

Physical Work —We are unable to state much in regard to this branch of our work. A hockey club in regard to this branch of our work. A hockey club I have kept the faith! Henceforth cousness".....Mr. McKay also addressed the Sabbath school in the afternoon.

-At St. Paul's church last Sunday the Rev. H. R. O'Malley preached to a large congregation. The rev. gentleman took his text from 53rd chap er Isalah, the last part of the 10th verse, "The pleasure of the Lord shall pro per in his hand." He stated that all, b fore taking action in any matter, should ask the question as a christian, "is it right or wroag?" A natural man, with all his consciousness as a christian, should say, "Is it pleasing to God, or not?" Men under their own God always, not men." That was the standard S'. Paul, St. Peter and others adopied. The moment you say, "I will adopt, what will please God I will do," your conscience and your heart will go out and joy will come to you. That is the christian standard, and under it men will develop both in body and mind. He then read 10 h verse, 147th psalm, "He delighteth not in the strength of the horse; he taketh not pleasure in the legs of a man.' Young men will read newspapers and glance first upon the sporting column and other startling items of the day, instead we have faith. It is not the physical | before." Sold by A. Higinbo ham. plessing God is pleased with, but the spiritual. Jesus Christ, God's beloved son, had true love, perfect faith, and was obedient, and we Christians should be the

-The paster occupied the pulpit of the Cambridge st. Methodist church Sunday. The morning text was taken from 2 Sam. 18: 31 33, the remarks being particularly directed to parents and their responsibility for bringing their children up in the nurture and admonition of the Lord. Even as David said unto Cushi, "Is the young man Absalom safe," so do we want to say given us and the interest they have manifested in our asking this question is not when the bays and girls have grown up, and cher cter and habits are formed, but it is far back in your life. Youthful minds are suscepare called away without leaving the bonediction of a right life, a great opportunity has been lost. It is the duty of parents to set a proper example in the home, and neglect not the duties of family prayer. Dr. Paton says, "To this day I have not desired more than to be just like my father".... The evening text was taken from Heb, 2, 3: 4, the thread of thought being chiefly in the words "How shall

Manager Baines. THE LIGHT OF ASIA

Sir Edwin Arnold's Life.

London, Oct. 18 .- Sir Edwin Arnold, the poet and journalist, author of "The Light of Asia," and colleague of Mr. J. M. Lesage in the editorship of The Daily Telegraph, married a Japanese lady in

London Saturday. The particulars obtainable concerning the marriage on Saturday of Sir Edwin Arnold, the poet and editor, author of "The Light of Asia," to a Japanese lady show that the ceremony took place at St. Mathias' Church, Earlscourt, this city, in the presence of Sir Edwin's brother, Sir Arthur Arnold, chairman of the London County Council, the Japanese Ministers and their wives. Sir Edwin and Lady Arnold will reside at Bolton Gardens, this city. The bride was brought from Japan and was educated

"Uncommon Insolence." lence to the rest of the world, and does

Continuing, Prince Bismarck is reported to have remarked: "Their great wealth, due to the soil of America, has led the American legisabove the heads of the jurors, and dur lators to overestimate their own rights and underestimate the rights of the other American and European states."

The Bi-Metallic Commission. London, Oct. 18 .- The United States Monetary Commissioners have received no official information regarding the action taken by the British Cabinet on Saturday last. Private advices, however, convince them that the Cabinet has dealt the death blow to their mission. It is expected the commissioners will soon be informed that "Her Majesty's Government regrets being unable to accede to their proposals, but is willing to listen to any other plan they may suggest." The United States Commissioners believe their failure means that no further effort in behalf of bimetallism will be made for many years to come. They attribute their failure to the opposition of the bankers and of The London Times. Until these forces were aroused all signs pointed to the co-operation of the British
