PRICE OF STOVES CUT INTO HALF. Queen Top Draft Heating Stove Leads Them All.

Patented Feb. 1st, 1896. time; a raving of 25 to 50 per cent of fuel. See that Verdical Hot Blist Draft Tube, Feeding the fuel with hot air all the time The Queen Heater is more of a heating machine than it is a stove. It can be regulated like a lamp. You can have your room any temperature you wish. Will positively keep a slow fire burning 48 hours by putting in one large stick or knot, Will heat a room 20 feet square in ten minutes in cold weather, or ne sale. Absolutely sir tight and the cleanest stove in the world. No opening of any kind. No ashes, dust or soot can get out. No trouble to operate. One fire lasts all winter, if you will put in a stick of wood every twelve hours Keep fire all night-any night and every night, is a handsome stove, the outsidebeing Russia Iron, lined with steel, and needs no backing. The most powerful heating stove on earth, and yet will save half the fuel to the average stove. Burns large knots, chunks, coips, cobs and trash, Never require to move the ashes only once every one or two months. No ashes to seive and sp. H a good suit of clothes, Will take a stick 21 inches long by 10 inches thick. Never wants the wood split up, You save that expense. It burns your wood in large chunks. It makes a regular heat and lasts longer. It is the greatest fire keeper in the world, PARLOR STOVE. Best in the world. and be as clean as your lace curtains are,

Patentees and Manufacturers, TOEO Come and see it in ap ration at our Store. It will astonish you. - Lindsay, Onto
