The people of Great Britain are only beginning to eat bananas, but it is hoped that in the near future a large and increasing trade in this fruit will be carried on between the British West Indies and the heart of the empire. This will be of great benefit to the islands, which are at the present moment threatened with a new trouble because of the acquirement of Cuba by the United States. Hitherto a very considerable portion of the banana supply of the United States has been obtained from the British West India Islands, but it is now said that Cuba will be trrned into a huge banana farm, and that very soon nearly all the supplies of that fruit required by the United will be obtained from that island.

The liberals of Toronto have decided to tender a complimentary banquet to Hon. A. S. Hardy, and liberals throughout the province will be asked to participate. The date has not been definitely fixed, but it will be some time in November. Premier Hardy has had a long political career. For more than twenty-one years he has | T C. MATCHETT, Local Agent. been a member of the government, and jet and j he has passed through one general election as premier. His record is on the statute books. The people know that the affairs of Ontario are safe in his charge, and it does not do a politician any harm to remind him occasionally that faithful service is appreciated by those in whose interest it is performed. The liberals of Ontario will join heartily with the liberals of Toronto in their movement to recognize Mr. Hardy's worth.
