Farm Values in Ops.

Last Thursday Mr. John Waldon of Ops purchased from the Hudspeth estate the well-known Brass-Graham farm, lot 14 in 3rd con. of Ops, for which he gave $7,750. This is one of the best farms in Ops, about three miles s. w. from Lindsay, and was held by the late Mr. Hudspeth at $12,000. He was offered $11,000 but refused it. Ten or twelve years ago it was probably valued at $70 an acre. There are on it two good barns with stone foundations for stables, good brick house, wells etc., and 189 acres are clear of and well cultivated. The transaction shows how the values of farm lands have been benefited by the N. P. and anti-reciprocity. Farmers can now see every day that reciprocity will put $10 an acre or more on the value of their lands, because it will increase the value of farm products.

Stock Notes.

—Mr. Wesley J. Fanning of Cambray reports the sale of his popular general purpose sire, Louis Napoleon, to Mr. Samuel Swanton of Fenelon Falls.

—T. W. Evans of Yelverton last week sold to Mr. W. E. Baker, Northport, the imported Clydesdale stallion Earl of Cassilis (1597) C.C.S.B. [7078] B.C.S.B. This animal made his home-stand on the island last season, travelling through Reach and a portion of Cartwright, and from the fact that he was well patronized notwithstanding the strong opposition, and his subsequent purchase by a resident of that local-ity, goes to show that he can hold his own with the best. The Earl was sired by the Lanark premium horse, Harold, (2854); his dam was by a son of Old Times (579), who was a half-brother to Darnley (222). His grand symmetry, fine action, and gilt-edge pedigree will make him a great favorite in the district where he is now owned. Mr. Baker's enterprise is highly commendable

Peterboro Business College.

The Peterboro business college and school of shorthand has issued its annual announcement. As usual it is admirably arranged and neatly printed. It contains excellent portraits of the principals, Messrs. G. S. MacBean and A. Blanchard, and an interesting outline of the course of study and general methods pursued in connection with the institution. Several pages are filled with testimonials from citizens of high standing as to the excellence of the general work of the college, and a fact which speaks volumes for the institution is that of all the students who entered between September 1, 1890, and September 1, 1891, 90 per cent secured situations.

Obituary.

—Saturday morning last there passed away one of the oldest and most respected residents of the town—a man well-known for his unassuming integrity and readiness to do a kind or charitable act, at no matter what inconvenience to himself. We refer to the late Peter Forbert sr.; who succumbed to the effects of a stroke of paralysis, about 11 o'clock on the day mentioned, and whose private funeral took place Monday morning to St. Mary's church, where requiem high mass was chanted, and from thence to the Roman Catholic cemetery. Deceased was a few months over 67 years of age and was born in a parish below Montreal. He was a sawyer by trade, and in 1862 was brought to Lindsay by Mr. Sadler to work in the mill here, and in his residence of 29 years saw Lindsay grow from a couple of log huts to the position of a prosperous county town. For the past 17 years deceased had been caretaker of the pumps for fire purposes, and paid a conscientious regard to the duties, giving every satisfaction. He married in Montreal previous to coming to Lindsay, and leaves a wife and 13 children to mourn his loss. The family have the sympathy of the community in their bereavement.

Address and Presentation.

Saturday evening last the employees of F. C. Taylor's office and the gas works waited upon Mr. J. A. Bucknell, whose intending departure was noted last week, at his residence on Glenelg-st., when Mr. James Smith read the following address, and, at the proper moment, presented him with a handsome meerschaum pipe, a silver ferule on which was suitably engraved:—

DEAR FRIEND,—It is with mingled feelings of joy and sorrow we gather around you this evening to testify, though in a slight degree, our appreciation of your noble and zealous work amongst us in the past.

Deep was our sorrow when we learned of your sudden departure from our office, for we fain would have kept you with us, but knowing your accustomed willingness to assist in the promotion of our young men who have passed through our office, and are to-day holding responsible positions in Canada and the United States.

During the time you have spent with us you succeeded in winning the esteem and respect of every employee; your unchanging fidelity to duty, and your kind, sympathetic nature, have endeared you to us. We shall ever cherish a fond remembrance of you as a real friend. True, Mr. Bucknell, you are leaving us, but on leaving you bear with you and your family the good-will of our office, and in whatever field of labor you may be placed you will always win new friends, but none more faithful than those whom you are now leaving.

We beg your acceptance of this little token of our esteem and regard, and trust that often when enjoying the fragrant weed, always provocative of reflections, your thoughts will turn to the boys you are about to leave behind, and the many happy days we have spent together in harmony and good-will toward one another. And in your new home, or wherever your lot may be cast, we trust that you may find yourself and family, as you have in our midst, rich in friends tried and true.

With kindest recollections of your residence amongst us, with fondest hopes that your pathway in life may be ever cast in pleasant places, and that you may continue to be advanced to higher positions, the duties of which your eminent qualities fit you to discharge, again we sadly say, "good-bye."—Signed on behalf of the employees.

Mr. Bucknell was surprised and deeply touched by this expression of regard and esteem at the hands of his fellow employees, and returned thanks in fitting terms. He had always taken a deep interest in the advancement and success of those working with him and took pride in contemplating the responsible position attained by the many young men who had graduated from the office.....Later on the company sat down to a bountiful repast, after which instrumental music and singing terminated a very pleasant evening.....Mr. Bucknell left for Saginaw Monday morning to assume his new position in the service of the Canada Life Insurance Company.

An Unique Window Display.

—The alchemists of old spent lifetimes bending over their crucibles in the attempt to manufacture gold, and after all were unable to effect greater results than Britton Bros. accomplished in a few minutes the other day, when they emptied a lot of the precious metal into their crucible and reduced it to the molten state. This mass they placed in their window along with a large number of $5, $10 and broad $20 coins arranged to spell the word "gold." The display was made in order to impress upon the public the fact that the Holiday season is at hand when gifts will be given and received. A suitably engraved coin is a neat commemorative gift, but any design desired will be manufactured out of the pure metal from the crucible..... The display is a most unique and attractive one.

Attempted Suicide.

Monday evening last about five o'clock Henry Dennis, the Lindsay-st. pump maker, familiarly known by the title of "Dec," made a determined and nearly successful attempt to shuffle off this mortal coil by absorbing nearly two ounces of laudanum. He had been indisposed for several days previous, and his stock of spirits was low. The family became aware of his rash deed about half an hour later and at once summoned Dr. Simpson, who found his efforts to apply the usual remedies greatly hampered by the unwillingness of the patient to longer endure the trials and tribulations of this weary world. However, after about an hour's hard work Dr. Simpson was able to announce him out of danger, and to provide against a possible recurrence of low spirits he administered a well-known stimulant hypodermically, and took his departure, leaving Mr. Dennis in a hopeful—aye, even frisky mood.

—Nearly all women have good hair, though many are gray, and few are bald. Hall's Hair Renewer restores the natural color, and thickens the growth of the hair.—81-1.

—The breakage of a small wheel caused the stoppage of the machinery in Sadler, Dundas & Co.'s elevator Saturday, but an extra push enabled repairs to be made in time to resume again Monday morning.

—Wm. Brown, the man charged with burglarizing the residences of several Fenelon Falls citizens, was examined by County Magistrate Deacon on Thursday last at that village and was committed for trial.

—The Ingles Star Dramatic Co.—a powerful combination of local artists—announce one appearance in the opera house here next Saturday evening, after which they will make a descent upon adjacent towns, cities and four corners.

—The Canadian Jubilee Singers appeared in Bradburn's opera house Tuesday evening. Owing no doubt to the unfavorable weather only about seventy-five people were present, but the company very honestly presented the full program, and a rare musical treat was enjoyed. It is to be hoped they will return in the near future.

—Captain Bottum of Bobcaygeon, owner of the str. Maple Leaf, which plies between that village and Chemong railway terminus twice daily during the season, contemplates, we understand, lengthening the craft some twenty feet and adding a new engine during the winter months. Since the opening of the railway the traffic in both passengers and freight has largely increased.

—Horn & Sons have engaged for a limited time one of W. M. Robson's stores, Kent-st. west, and have opened out a well assorted stock of woollen goods, the product of their Mariposa mills. If parties wishing to purchase good reliable yarn, blankets, flannels, etc., will call at their store they will find that by dealing direct with the manufacturer it will be to their pecuniary benefit.—81-2.

—Mr. A. Primeau is taking steps to vigorously push the sale of his patent churn power in the adjoining townships. As he employs no agents he has been enabled to reduce the price of the machine from $7.50 to $6, placing it well within the reach of every farmer. It is a great labor-saver, and with it the operating of the old dash churn (preferred by most first-class butter makers) becomes a pleasure.

—The program presented by the McGibney family Thursday evening last was somewhat of a disappointment to the large audience which had assembled, inasmuch as it was almost entirely a repetition of that heard upon two former occasions—the exceptions being the omission of several of the more pleasing numbers. Their repertoire should be freshened up by a season's conscientious practice.

—Mr. Alfred Allen is a young man of Plattsville (Redfern Farm), Ontario, who bravely buys his eleven tickets at each drawing of the Province of Quebec Lottery. For some time he happened, like many others, not to win anything, but at the drawing of 4th November Dame Fortune was reserving him a surprise. Out of his eleven tickets he drew five prizes, one of which was $500.00!—[The Montreal Gazette, —[81-1.

—We print on another page some touching verses from the pen of Mr. H. Reazin, inspector of schools, West Victoria, on the death of his son Herbert, over a year ago. Herbert was a promising pupil of the Lindsay Collegiate Institute, and his early death called forth the warmest expressions of sorrow from schoolfellows and from many teachers as well as from other friends. These will find a melancholy interest in Mr. Reazin's tender tribute to his departed son.

—It is with regret we state that Mr. Thomas Forbert, section man at Rettie's station, son of the late P. Forbert, was also struck down by a paralytic stroke Sunday evening about 8 30. The entire left side of the body is affected. It is supposed to have been brought on by the excitement caused by the news of his father's death and fatigue due to his having walked from Fenelon early Sunday morning. The physicians in attendance hold out hopes of his ultimate recovery.

For some weeks past Dame Rumor—generally a most unreliable informant—has had it that there was typhoid fever in the family of Mr. Thos. McConnell of the Royal hotel. In conversation with Dr. Simpson, family physician, he stated there was nothing to warrant such a statement; there had been several cases of malarial fever in the household, but nothing of a contagious nature. The rumor evidently arose from the fact that one of the employees contracted typhoid fever after he had left the premises, and unfortunately succumbed to it, being in a weak condition of health.

—Saturday was a lively day at the market, but the sellers were in the majority—and will be until they come nearer the prices ruling at the stores. A man takes no pride in devising short cuts home with a turkey or goose that cost him 10c or 20c more than his wife could purchase it for at their own grocery store. A great improvement is noticeable in this respect, and when a few others come to see the folly of asking too much and the advantages of quick sales at a fair price the good effect will be discernible in a larger attendance of townspeople.

—The Lindsay hockey club was organized for the season Friday evening last at a meeting held in the board of trade rooms, Mr. John Kennedy, last season's president, in the chair. The following officers were elected: President, Mr. J. D. Flavelle; secretary-treasurer, Mr. A. B. Goldie; captain, Mr. A. M. Knowlson; committee of management, Messrs. E. S. Martin, A. Culloo, Fred. Knowlson. It was decided not to join the Ontario hockey association this season. Those wishing to join the club should give in their names to the officers at once, as the membership is limited.

—We understand that Lindsay has been raised to the standing of an U. S. commercial agency in consequence of the large aggregate of annual shipments made to the land of the Stars and Stripes. Heretofore Lindsay and Peterboro have been sub-agencies under Mr. Shaeffer of Port Hope, and Mr. R. M. Knowlson for the past couple of years attended to the duties here as Mr. Shaeffer's representative with marked ability and to the great satisfaction of the shippers, the value of whose consignments before the McKinley bill came into force sometimes reached $75 000 in a month. The new rating necessitates a resident consul who must be of American birth, and Mr. Walter P. Dill of Maine has been appointed to the position by President Harrison, to whom Mr. Knowlson will hand over all books and documents upon arrival.

Plundering in our Midst.

A genuine case of plunder has just been brought to light at MCCRIMMON'S, opposite Campbell's grocery, and the public will stand aghast at the revelations to be made. Just think of a case of men's and boys' underwear in pure Scotch manufactured wool being picked up at a price that enables us to sell shirts and drawers at $1 each—why they would be cheap at $1.50. Readers of THE POST should call and examine this line at once. ☞ See our 69 cent suits (shirt and drawers); no such value in town. —78.

Curling Notes.

—Those contemplating joining the curling club the coming season should hand in their names at once to some member to be balloted for. The rinks will be made up at the next meeting.

—Members are now preparing for a possible early opening of hostilities by polishing up the silver-mounted handles, attending to the fastenings of their boxes and "in-wicking" any besom in better condition than their own.

—The electric lights are now in position, and the caretaker, Mr. Brady, is daily risking life and limb in the work of white-washing the interior, which will add much to the appearance as well as greatly improve the light.

—"Counter curling" is the newest game out, being invented during the recent damp spell by one of our enterprising merchants to while away the tedious intervals between customers' visits. The "toe" circles and "hog" lines were marked out at opposite ends of the rear counter, and pennies were used in lieu of stanes, "sweeping" being dispensed with. It is very interesting to any one possessing a slight knowledge of the "roarin' game."

Y. M. C. A. Topics.

—The young men's meeting next Sunday afternoon will de addressed by Mr. W. H. Stevens, on the subject, "Science in the bible." All young men are heartily invited.

—The anniversary of the association, held in the Cambridge-st. Methodist church last Friday evening, was a decided success. The attendance was very gratifying, the audience comfortably filling the main floor of the church. Dr. W. H. Clarke, president, occupied the chair. The evening's exercises were opened by singing the hymn, "All hail the power of Jesus name," after which Rev. R. Johnston read the scriptures and Rev. Mr. McCann led in prayer. The choir of the church then rendered an anthem, and reports of the year's work were presented by Mr. C. K. Calhoun, general secretary, and Mr. M. H. McLaughlin, treasurer. Miss Rose and Mr. J. H. Hart sang a pleasing duett. The president then introduced Rev. W. Patterson, the speaker of the evening. Mr. Patterson's topic was "Men wanted," and he handled the subject in a most practical and refreshing manner. The humor and earnestness of the speaker held the closest attention of his hearers throughout, and the only regret is that the address was not longer. His words will certainly prove an inspiration to many. Mrs. Clarke sang a contratto solo, which was much appreciated. A collection was taken up for the local work. Mr. R. J. Colville, general secretary Y.M.C.A., Peterboro, then gave a short address on the nature and extent of the work in this country. The meeting was brought to a close by singing "Blessed be the tie that binds," and Rev. T. W. Campbell pronounced the benediction.

Collegiate Institute Notes.

—On Friday Nov. 20, the regular meeting of the literary society was held, the president in the chair. The minutes of last meeting being read and approved the program was at once proceeded with. Mr. Stevens was appointed critic. The entertainment opened with an instrumental duet by the Misses Robson and Groat which was executed in a brilliant manner. The long looked for debate, resolved "reading is more beneficial than travelling," followed. In the absence of Messrs. Meehan and Flood, Mr. Hore was asked to support Mr. Bruce in the affirmation while Mr. Simms aided Mr. Carter in the negative. Mr. Bruce opened the debate by a well-prepared and beautifully written paper in which he brought forth many striking arguments in behalf of his theory. Mr. Simms then tried to convince the audience that all the best writers had gathered the most of their material for their writings while travelling thus showing that travelling was essential to writing and writing was essential to reading. Mr. Hore maintained an strengthened Mr. Bruce's statements, while Mr. Carter did justice to his side of the question. The decision being left to the audience, the negative won the debate. Professor Cooper then favored the audience with a violin solo which was most rapturously encored. On Mr. Cooper replying to this encore the applause was more hearty than ever, thereupon the professor promised to play again on a similar occasion. The critic was then called on for his report. The criticism was most lenient, while many suggestions were thrown out to the speakers of the evening, which if followed will add great improvement to the debates in the future. On account of the lateness of the hour the remainder of the program was postponed until a later period.

Church Notes.

—Sunday next ushers in the season of advent.

—The annual fuel collection in St. Mary's church, completed Sunday last, amounted to $189 35.

—The Rev. W. H. French, has resigned the rectorship of Omemee and Emily. His resignation will take effect at Christmas.

—In the Queen-st. Methodist church Sabbath evening next the pastor, Rev. Newton Hill will address his remarks to "Husbands and wives."

—The meeting of the Y. P. S. C. E. of St. Andrew's church will be conducted next Monday evening by Mr. H. Colcough Heap, the subject being "Christ Jesus our sufficiency."

—The Rev. Mr. Campbell announced to his congregation, for next Sunday morning, a sermon on "Plants," for children; and for the evening a sermon to young men, subject, "Get there."

—Rev. T. Collins, who was recently ordained to the priesthood, preached an able and impressive sermon in St. Mary's church, Lindsay, last Sunday morning. The rev. gentleman is a son of our worthy neighbor, Mr. T. Collins of Ops.

—The regular monthly meeting of the Church of England Temperance society will be held in St. Paul's school room on Monday, the 30th instant, at 8 p.m., an excellent program of reading and singing, and the Rev. J. C. Davidson of Peterboro will address the meeting.

—The Christian Endeavor meeting last Sabbath morning was conducted by Miss A. W. Jackson, the subject being "Lessons from the Story of Judas." Miss Jackson's address was practical and to the point, and all who were present could not help but be benefited.

—Rev. R. L. Kidd, the famous young evangelist, who has memorized the entire bible, will demonstrate the fact Sunday afternoon, at 2.30, in the opera house. His subject will be "Love," object, salvation of souls and education of the memory. All are invited. Collection taken.

—A number of the ladies connected with the Altar Society of St. Mary's church have established a sewing class in the room adjoining O'Leary & O'Leary's law office. Gifts of discarded clothing, to be made over for the poor school children of the congregation, will be thankfully received.

—The venerable Archdeacon of Peterborough will be the preacher at St. Paul's church next Sunday morning and evening. It is now six years since the opening of St. Paul's, and the church people are glad to have Archdeacon Allen with them as they commemorate that event, especially as this will be his first visit to Lindsay for a Sunday since his promotion. The offertory is to be devoted to the reduction of the floating church debt, and it is hoped that it will be a liberal one.

—The "at home" in the Queen-st. Methodist church on Monday evening was very successful, notwithstanding the bad weather. A report got circulated during the afternoon that Mr. Reesor and his glee club from Markham was not coming, which stopped a few that would otherwise have been present, but when the time came they were there. There singing was excellent, particular mention might be made of the duett by W. B. Reesor and his daughter. Miss Reesor, which was heartily encored. The readings by Miss Marty and the singing by Mrs. Dr. Clark was also much appreciated. This was the first of a series of entertainments to be held in the Queen-st. church. The next comes off on Dec. 14th, when Mr. Douglas will deliver his popular lecture on "Men we meet." Tickets for the series, 50c.
