The Examiner says : "On Wednesday evening

his lordship Bishop O'Connor returned from a

three months' espiscopal visit to the northern and western portions of his extended diocese which has a stretch in length of about 1.100 river, in the vicinity of Rat Portage, and from the south at Arrow river, on the boundary between Canada the United States, to far north of Lake Superior. The ground covered was on the CP.R. chiefly from Sturgeon Falls west, His lordship finds a great improvement in the material and spirtual conditions of these parts In the district first mentioned and east of Sudbury the increase in population has been about fifty per cent. and the increase in communicante and new chapels, etc. pretty well corresponds, Nearly all the new settlers are French Cansdians from Quebec, though a few are re-patriated French Canadians, who, owing to the financial crisis in the New England states, have sought this region and become farmers. His lordship returns in excellent health from his thirteen weeks' journey, although he had a great many hard and unusual experiences. He travelled altogether 3,000 miles by very diversified modes of conveyance, including railway trains, stages, steamers, fishing boats, cances, and on foot. In one part of the Nepigon district he had to journey 75 miles through an almost un broken wilderness to reach the "next house," and in snother portion 68 miles of similar untrodden wilderness had to be traversed before a human shode was reached. These journeys included long tramps overy rocky stretches of harre country, camping out and other incidents, by fixed and field, which would be well worth M. J. Carter.

## IS IT HARD TIMES?

Not when you can purchase \$1.00 worth of goods for 65c. Such inducements are seldom offered and we are confident you will take advantage of them. We, early in the season, realized that money would be scarce and took advantage of the same by purchasing largely for cash from houses that were urgently in need of money.

We also secured the large Wholesale Cothing Stock of James O'Brien, which is now opened out. You can depend upon getting a tremendous bargain in this department.

Ladies' Mantles have also had the knife in them. Those goods which were imported direct from Germany are admitted to be the best fitting wraps in town.
