A Former Manvors Settler Dead. Orillia Packet: John Porter, a well known and highly respected resident living near Vasey for the past fifteen years, erected a new house this summer. On Saturday he was putting in some spare time lathing the ceiling over the stairway. An assistant stepped on the board on which he was standing, it broke in two, and the old gentleman fell heavily to the ground. When taken up it was found that he was paralyzed from the hips down, and he died on Mon day of last week. Deceased came from Manvers. and was the father of a large grown up family. He was buried with Orange honours.

Frevincial Plowing Match. The annual provincial plowing match for districts Nos. 4, 5 and 6, comprising the counties of Victoria, Onterio, Durham, Haliburton, Peterborough, Northumberland, Hastings, Lennox, Addington, Prince Edward, York, Peel Cardwell, and the city of Toronto, was held on Thursday of last week on the farm of Mr. James Farrell, lot 18, con. 9, Ops, in connection with the Victoria Plowman's Association. The weather was very unfavorable, the morning being cold and raw, white rain fell steadilyfin the letter part of the atternoon, nevertheless over forty plowmen entered for the different contests and beaween 2,000 and 3,000 spectators visited the fields during the day. The plowing was very good, but there was a lack of plows suitable for sodin the opinion of the majority of the foreign plowmen there was scarcely one on the ground that could be called a good sod implement. It is to be hoped that before another match comes around there will be no fault to be found in this respect, in order that all the best prizes may not escape our progressive farmers. The field was wisited during the day by many of the leading men of the district, including Messrs. Donald Jackson, B. Miller, I. W. Reid, John Campbell, jr., R. Bryant, James Graham, John Graham, Thes. Thempson, D. Scully, D. Corneil and Wm. Lownsbrough; Mr. W. J. Westington of Plainville was also on the ground. The Canadian Flag.

What is the National Flag of Canada? Wh can describe it accurately? How many of our readers know what flag our ships can fly upon the seas and why if they hoisted a blue or white flag with the Union Jack in the corner they could be overhauled by a man-of-war and the flag pulled down? These and many other interesting questions are answered in an article which will appear in the Canadian Almanac for 1891, to be published next month. The Canadian Almanac is a standard publication and goes'everywhere. More than one million copies

Thank You!

We are pleased with the promptness with which many of our subscribers have responded to the reminders sent out a couple of weeks since. We found the amounts very acceptable, and they assisted us materially in discharging obligations which mature at this time of the year. No doubt many of the notices miscarried and also in many cases it was not convenient to send the money at the time. Those in the former class we would ask to lock at the latel on the paper; if it does not read "Jan. '91' they are owing from the date printed on the paper to Jan. '91. Kindly enclose the amount in an envelope and send it to our address, on receipt of which we will return an acknowledgment. We ask those in the latter class to send along the amount at the earliest possible moment.

A number of Canadian publishers have been asking us to raise the price of THE Post to \$1.50 per year. At the present subscription (\$1,00) there is no profit to us, but we did not seriously consider changing to the higher figure, for we prefer holding our present large constituency among the people of Victoria and surrounding

The Close Season for Bass.

The attention of fishery overseers and others concerned is drawn to the following provisions of an order-in-Council dated 13th, May, 1893, stopping the taking of bass under permits after the end of the current year 1893 and fixing a new close season for bass :

"1. The granting of permits to take bass under the provisions of the order-in-council of the 16th of April, 1892, shall be carried out during the year only, and 10 longer; and the several per sons obtaining permits for 1893 shall be notified

"2. After the first day of January, 1891, the close sessen for base in the provinces of Ontario | Mr. Boynton of Cakwood, and Rev. Mr. and Quebec shall be from the 10th day of May till the 30th day of June, both days inclusive, in each and every year.

"3. Such portion of section 2 of the General Fishery Regulations for Ontario of the 18th July, 1889, in so far as it relates to the close season for bass, the order-in-council of the 16th April, 892, relating to the granting of permits to take bass in Ontario, and also that portion of the order-in-council of the 26th March, 1892, relating duebec, shall be revoked and be of no effect or and after the 31st day of December, 1893."

-Outing for November is rich with the lore of sport in many lands. There are two complete stories, "Imagination," by Edgar Fawcett, and "The Dunworth Crow," by E. M. Weyer. The number is a strong one, and, as usual, is finely illustrated. Some of the contents are as follows "Wild Sport in Costa Rica," by J. J. Peatfield "Down the Teche in a Cat-rig," by A. I Paine; "Lenz's World Tour Awheel; " "Duck Shooting in California," by Bruce Douglas: "The Cradle of the English Cutter," by Capt. A. J. Kenealy; "Trapping and Home-made Traps," by Ed. W. Sandys; "A Fox-bunt on the Little Obed," by Minnie W. Armstrong: "The Government Scout," by Capt. Jack Crawford; "The

Victory of the Vigilant," by Capt. A. J. Kenealy.

and the usual editorials, poems, records, etc.

-The leading feature of the Review of Reviews for November is its presentation of the "Possibilities of the Great Northwest," in an article by Mr. S. A. Thompson, and in a supple mentary article by Dr. Emory R. Johnson, upon "Inland Water-ways for the Northwest." Mr. Thompson was for years secretary of the Dulyth board of board, and is therefore able to write with an enthusiasm born of intimate knowledge of the subject and supported by very important and surprising statistics. Dr. Johnson is lecturer on transports tion in the Wharton School of Finance and Economics, University of Pennsyl vanis, and has recently published a monograph upon "Inland Waterways." These two articles suggest a future of almost unimaginable growth for the great Northwest. Each article is fitting-

PRESENTATION AND ADDRESS .- An enoyable evening was spent at the residence of Mr. Alex. McKenzie, previous to his removal to Toronto. A number of the citizens waited on Mr. and Mrs. McKenzie and family, and after reading an address presented them with a beautiful clock. Mr. McKenzie, who was completely taken by surprise, made a feeling and suitable reply. Numerous speeches were made by those present, regretting that circumstances compelled Mr. McKenzie, who has been connected with our village since its infancy, to leave our midst, and all united in wishing him and family prosperity in their new

SHOT .- Mr. Thomas Montgomery! had the misfortune to meet with the first gun accident of the season, and it happened too as he was on his way to the camp. He was going to join a party camped at Bass lake, and on nearing the lake the waggon he was taking in with supplies was stopped for him to get up. He was carrying a shot gun, and had his knee on the bottom board at the rear end of the waggon when the horses started. In trying to save himself from falling the gun caught on the waggon board, slipped from his hand and exploded at the same instant, and the shot took a about two inches from the wrist. The hole is described as the size of an egg, and the bone was much shattered. Mr. Montgomery at once returned to the village, and had the arm dressed by Dr. Baker. It is at present progressing favorably, though it has not yet passed all danger.

PARTRIDGES .- While the reports from the districts state that partridges are scare e, the local hunters say that partridges in this neighborhood are fairly plentiful One authority says that at least a dozen brace have been shot within the village limits. Last week Robert Reid drove out with Wm. Simpson of Lindsay and Hi Haggarty of Rochester to the Gilmour depot, the two latter being on their way to the Simpson-Grantham camp. Between Nogey's Creek and the depot Mr. Haggarty shot six partridges, and in returning from the depot Reid bagged 10, making a total score of 16 picked up while driving along the road,-[Independent,

AN ANCIENT ORACLE.

A Modern Wonder.

The most ancient oracle was that of Dodona; but the most famous was that of Delphi. Croesus rendered himself renowned for the magnificent presents which he gave to that of Delphi It is difficult to determine which is the

oldest cough remedy in the world. There are many that claim ancient origin without being able to show a record of good works. These old mixtures are fast disappearing: Modern science and research has produced the famous Harvard bronchia syrup, the most wonderful of all cough remedies. No other cough medicine of the present day can show such a record of marvellous cures; no other has attained such popularity. All classes of our country

have tested Harvard bronchial syrup for tonsils and irritation of the bronchial tubes. and have received almost instant relief and cure. It requires but one trial to convince the most skeptical than Harvard bronchia syrup has no equal in this world as a reliever and banisher of every form of throat and bronchial trouble. - 82-1.
