SUDDEN DEATH .- Wednesday night o last week Mr. William Gamble, tinsmith Walton-st., was taken with hemorrhage, and, despite all that medical aid could do, died next afternoon about 4 o'clock Receased was a most genial man and had a large circle of friends, who regret his early death and sincerely sympathize with the sorrowing widow and six fatherless children. Mr. Gamble was a member of the Rifle Association here, and went to England last year with the Bisley team He was also a member of Home Circle, No 4. in which society he held a policy for \$2,000, and also belonged to the Ancient Order of Foresters .- Guide.

LARCENY.-Chief Constable Douglas has a warrant for the arrest of James Wilson a young man who for several months has been employed in town as a tanner. The young man decamped from his boarding house, carrying with him an overcoat and suit of clothes, the property of another lodger. The chief constable has acted very promptly in the matter, and hopes to soon have the offender under lock and key.

-Miss Weatherilt, a young lady attend ing the model school, met with a painful accident the other morning by running her head through a window glass. The window, which opens inward was directly across the sisle, and the young lady, who was reading a paper, walked into it, austaining severe cuts about the head .-I Times.

THE POSTMASTERSHIP,-We are having lively times here just now over the appointment of a new postmaster. In all, we are told, there are about 32 applicants. As a consequence the party wires are pulled tight and kept ringing. There seems to be the strange idea among some of the applicants that all the qualification necessary will be past service to the party -moral, social and intellectual qualifications don's amount to anything, so they think, but they haven't rightly reckoned with the people of Sunderland, and would just like to whisper to our friend Frank, at Beaverton, that for such a public and responsible position we want a sober man to start with; we want a man whose family and family connections are such as will secure safety and some little degree of social equality with the better class of citizens. Again, we don't want a crotchety, snappish, snarly fellow. But give us a man of good moral character, whose family is respectable, whose social standing is good; who is genial, kind and accommodating. Now, Frank, you have men who will fill the bill, and don't, for the sake of society and for the sake of your own good name, foist upon us anyone, no matter what their services to the party may have been, who cannot carry into the

A SERIOUS ACCIDENT .- An accident which might easily have proved fatal occurted on Friday week to Mrs. A. Cowie. and by which she is now nursing a broken leg. While riding in a buggy with Mr. Wm. Duclow, of the 1st concession, the horse became frightened at the lady's shawl and started to run away. In its struggles the occupants of the buggy were thrown out, Mrs. Cowie falling heavily on a large stone. When picked up it was

found that her leg was broken .- [Express. PETERBORO. FORGERY.-The news of the arrest of the two ex-bank clerks, A. F. B. Crofton and C. H. Jellets, for the jalleged handling of forged drafts, the one at Westminster, B. C., and the other at El Pasco, Tex., caused a sensation in town last week. A few months ago the two young men were moving in the best circles here, and were well known. They were both in the local branch of the Bank of Montreal, and were much together. Early in this year Jellet left town unexpectedly without giving the bank any notice of his intended departure. The night before he left he went among some of his friends and cashed several unhonoured. He went to Chicago, and was seen there in August, out of work and out of money. Crofton a few months ago, also severed his connection with the bank, and was away from town for some time. He returned for a couple of days last month to be married on the 18th to Miss Edith Hall, daughter of Sheriff James A. Hall. The newly wedded couple left here the same day for Chicago, en route to California. It is said that Crofton and Jellet met in Chicago. Jellettisa Belleville

boy, and was well connected there. Crofton is also well connected in Halifax, N. S., where his father, Mr.F. B. Crotton, resides. When he travelled at a pretty fast pace, and had always lots of money. He aimed at being a sport, always ready to bet, and not being a stranger to "a game of draw. The night before his wedding and his departure from here he entertained his friends among the bank employes at a wine supper, and he always did and had every thing in style. DROWNING ACCIDENT. - Peterborough has had the misfortune to lose, seven of citizens by sad drowning accidents, and another-this time a young boy-was

within an ace of meeting a watery grave the other morning, and so making the eighth victim. As two young sons of Mr Jas. Galvin, wood and coal merchant George-st., were on their way to the Murray-st. separate school, they stopped near the corner of Aylmer and Brock-sts. at the bridge to look at the town creek The younger son, who was about five or six years of age, was standing on the top log of the crib work at this point, and the timber being frosty the little fellow slipped off and dropped into the water, which is about four feet deep. Mr. Hetherington was standing on the bridge talking at the time, and running rapidly to the spot he umped in and grabbed the drowning boy. The child was not much the worse of his bath. This is the second time this year that a child has come nearly drowning in

IT WAS OUT OF SEASON. -An amusing TELEPHONE. - Our telephone business is incident occurred in a down-town restaurant on Saturday night last. A man, attired in a heavy winter overcoat, wearing a comforter and a cloth-peak cape, called and asked for a dish of ice cream, notwithstanding the temperature was verging closely to zero. He seemed rather surprised when the restauranteur told him that the establishment's supply of ice cream had just been exhausted. The customer then gave his order for a plate of hot oysters, which he devoured with rapidity. He paid for his treat, but took his departure mumbling to himself in incoherent tones that it was mighty funny he could not

HUMAN LIFE!

WILL THE STATE INTERFERE

WE THINK MORAL SUASION WILL DO THE WORK!

Mothers Can Greatly Reduce the Present Infant Mortali y!

Human life is supposed to be protected by the State, which has enacted rigid laws for the punishment of murderers The whole machinery of the law is quickly set in motion when a murder is committed, and our people generally delight to see justice meted out There is, however a sacrifice of human life going on in our midst every day which seems to be unheeded. Infants are allowed to sicken starve and die owing to the administration poor and worthless foods. Improper dieting is carrying off thousands of

innocents every year Many are inclined to believe that the State should interfere in some way with a view of preserving infant life. We are of the opinion that a better work can be done for the little ones by kind talk and the use of moral suasion. Physicians and wise mothers are doing a grand work by advocating the use of lactated food, that great preserver of infant life. Lactated food being a perfect substitute for breast milk, means health, strength and life for the infant. No other food has built up infant nourishment. Thousands of letters food, and prove that it saves babies' ives.
