ALTERATIONS

are going to take place here in a few days. Walls are going to be pulled down, dust will be flying, goods moved—in fact everything will be turned topsy-turvy, so to speak.

We're going to have a Sale of Clothing, Men's Furnishings, Dress Goods, Linens, Carpets, Millinery and Mantles.

Goods must be cleared out to save trouble when we move our departments to their new places. We will try and give you a plan of our New Store next week.

LINDSAY, FRIDAY, NOV 8, 1895.

A THOUSAND DOLLARS AN HOUR.

[From the London Advertiser Nov. 2]

The public debt of Canada, and the burden which the payment of the interest lays on the people, were flippantly referred to by the Cumberland car tourists at last night's meeting in this city.

Canada has now a debt of \$252,000,000. This debt was added to last year by over \$6,000,000. The debt has increased by \$100,000,000 since the high tax government attained power.

EDITORIAL NOTES.

Britain has a population of about 40,000,000 and a net debt, less Suez canal shares, which are as good as gold, of £636,000,000.

The lottery is not in such bad odor in France as it is in America. Just now a \$12,000,000 lottery scheme is being operated in aid of the Paris Exposition of 1900.

The annual report of the department of finance on the business of the loan companies of Canada for the year ending Dec. 31, 1894, has been issued from the government printing bureau.

in Ontario, and in Ontario the larger proportion of the total number of chattel mortgages was given by farmers.

Bread made from Manitoba flour is cheaper in London, England, and Glasgow, Scotland, than it is in Hamilton or Winnipeg.

The government has appointed a "commissioner" to investigate the well worn subject of the "sweating" system. They have been extremely moderate. We wonder they did not appoint a commissioner.

Durant, Holmes and Shortis have been convicted. Now if Corbett and Fitzsimmons would shut up and go to sawing wood, or any other less mouthy and more useful employment than prize-fighting, the world would forgive them much.

The Toronto Globe gave ten columns of the conservative proceedings at London. This is the liberalism which fears nothing and is willing to let the other side be heard. It is the liberalism of Mr. Laurier and the Canadian liberal party.

Mr. Robert S. White has written a letter to his Cardwell constituents telling them why he resigned his seat and asking them to vote for Mr. Willoughby.

The Toronto News bewails the lack of decision and firmness of purpose which mark the Ottawa cabinet. It fears a "bolt" is imminent.

Britain holds her own in the commercial world. For the period 1890-1894 the annual average import and export trade of the United Kingdom was \$3,478,000,000; of Germany, \$1,725,452,000; of the United States, \$1,699,084,000; of France, \$1,492,328,000.

The "best people" do not shrink municipal duties in England. The Earl of Derby, who has held the exalted position of governor general of Canada, has accepted the office of lord mayor of Liverpool.

In the New York state elections yesterday the republicans carried the city and Brooklyn by a plurality of over 40,000 votes. It would seem that the wave of popular opinion in favor of honest civic government has succumbed to Tammany influences, and the control of the funds will again pass into the hands of plunderers.

The city of Kingston has just been mulcted by the courts in the sum of \$1,500 for the broken bone of a lady who slipped on the ice on the sidewalk, and \$700 to another person for damages arising from defective roads.

It will be just as well for people handling money to look a little carefully at their \$1 and \$2 bills. The recent arrest of one of a gang of counterfeiters brings to light the fact that a good many have been put into circulation, though it is understood they are not of the highest kind of workmanship, and a very slight examination is sufficient to enable the forger to be detected.

Princess Maud, the brightest and prettiest of the daughters of the Prince of Wales, is going to marry her first cousin, Charles, grandson of the king of Denmark, who is three years younger than she. A nice young lady like Miss Maud ought to be able to get a more suitable husband even if she had to import him from Canada.

The fall of the French ministry has caused no more surprise than a change in the sextonship in a church. Changes every few months in the French cabinet seem to be now regarded as a matter of course.

Canada has a population of less than 5,000,000 and a debt of nearly \$330,000,000, and she has had no great wars and has no crushing military system to keep up. Of the great debt about \$140,000,000 has been piled up in sixteen years of protection and crushing taxation.

Mayor Swift, of Chicago, has given orders that hereafter "alumners" are not to be furnished police protection. He says: "That is a relic of the past, and as long as I am mayor no man living can have police protection on slumming tours in this city."

Mr. Laurier had expressed thankfulness that there were no Orangemen among the liberals. This report was denied on the authority both of Mr. Laurier and the paper which first published the report.

It was reported some time ago that Mr. Laurier had expressed thankfulness that there were no Orangemen among the liberals. This report was denied on the authority both of Mr. Laurier and the paper which first published the report.

At this rate the Mail and Empire will by next week be declaring that the liberals propose to burn the Orangemen at the stake.

COMMUNICATIONS.

A Durham-st. Crossing in Bad Shape. Sir,—On that neglected portion of Durham-st., between Albert and Adelaide-sts., we have got a crossing made of a new material. For the enlightenment of our council and employees I will give a short history of said crossing.

St. Luke's Church, Downeyville. (To the Editor of The Post.) Sir,—As a native I have read with deep interest the chapter of Emily history you give in connection with the opening of the Roman Catholic church at Downeyville.

A Bold Challenge. [To the Sporting Editor of The Post.] Sir,—I saw by your issue of Oct. 31st, that Professor J. C. Smith, late partner of Professor Mike Donovan, of the N. Y. Athletic Club, and brother of Mr. James Smith, of Lindsay, is now in this city as Toronto Amateur Athletic Club.

The Bathing Company's Hydrant. [To the Editor of The Post.] Sir,—Permit me a little of your valuable space just to intimate to a respected fellow citizen and town councillor that there was a "chit" among them.

Commercial News. Toronto Street Market. The receipts of grain on the street market on Tuesday were fair. Peas and barley were firmer, other grains were unchanged.
