Scott's Emulsion.

is Cod-liver Oil emulsified, or made easy of digestion and assimilation. To this is added the Hypophosphites of Lime and Soda, which aid in the digestion of the Oil and increase materially the potency of both. It is a remarkable flesh-producer. Emaciated, anæmic and consumptive persons gain flesh upon it very rapidly. The combination is a most happy one.

Physicians recognize its superior merit in all conditions of wasting. It has had the endorsement of the medical profession for 20 years.

Don't be persuaded to take a substitute! Scott & Bowne, Belleville. 50c. and \$1.

LINDSAY, FRIDAY, NOV. 22, 1895

A Car Goes Through the Draw of the Cleveland Viaduct

SEVENTEEN PEOPLE ON BOARD

The Motorman, on Seeing the Danger, Gave a Terrified Shoul and Jumped-The Car West Down Amid

Cleveland, Nov. 17 .- A frightful accident, by which 13 lost their lives, occurred in this city Saturday afternoon. Owing to the criminal and still unexplainable carelessness of t street car conductor, a car wen filled with people took an awfut plunge of 120 feet from the Central-street viaduct into the dark waters of the Cuya-

The following were drowned: Fellowing are the dead identified up as Martha Sauernheimer and Mrs. hn Sauerheimer, her sister-in-law, of

No. 151 Merchant-avenue. John Hoffman, the conductor, and Curt Lephehne, a 16-year-old boy, who had a ticket in his pocket from London. Canada, to Victoria, B.C. Dessie Davis, school teacher of

Noves-street, 19 years old. Henry W. Mecklenburg, tailor, No. 58 Mary-street, 38 years old. Harry W. Foster, clerk at the Root & McBride Co., No. 51 Mentor-avenue, aged 25 years. James McLaughlin, printer, No. 77

Trowbridge-avenue, aged 35. Pat Rooney was taken out of the - Ferguson. river alive, but badly injured. Mrs. A. W. Hoffman and her son, Harvey G. Hoffman, 10 years old, of

158 Pearl-street. Mrs. Staudt, 21 years old, nurse in the Northern Ohio Insane Asylum. Mrs. Brown, No. 10 Thurman-street,

45 years old. The woman who was taken from the river alive, was Mrs Sauernheimer, who died in the ambulance. The accident occurred at 7.35 o'clock.

The Central Viaduct is a long stone and iron structure which crosses the valley railway and Cuyahoga River and connects Jennings-avenue on the south side with Central-avenue on the east. The bridge is 120 feet above the

The draw was open for a tug drawing a schooner, which was about to pass beneath the bridge. The car was one of the Cedar and Jennings-avenue branch of the Consolidated line, and had 15 passengers, a conductor and motorman aboard. At what is known as the "derailing switch" some 200 feet from the draw, the conductor mechanically alighted, as is the wont of all conductors at this point to see if all was right. The car came to a standstill and the motorman waited for orders.

The conductor, for some unaccountable reason, failed to see the red signal of danger or the closed gates, or perhaps custom made him careless and he signalled to the motorman, John Rogers, to come ahead. The motorman turned on the electric current, the conductor jumped aboard the car and at considerable speed the vehicle neared the death trap. Why the motorman did not see the danger lights or the closed gates sooner than he did will always remain

But the fact remains that he did not. Nearer and nearer came the car to the awful abyss. A few feet from the draw it dawned upon the motorman that it was open. With a speed born of desperation he threw the handle and applied the brakes. The bridge captain seeing the approaching car shouted like a madman, but it availed nothing. The car was already on the down grade to the draw and the brakes would not hold the car on the slip-

The motorman, realizing his danger, forsook the precious cargo he was hauling and with a wild cry leaped off the front platform, ran down from the viaduct in the direction of Centralavenue and disappeared in the dark-

At the same instant two male passengers jumped off the rear platform and escaped death as by a miracle. The car reached the closed iron gates and in an instant the crash of snapping iron and breaking glass was heard. This alarmed the conductor, who had stepped inside, and he was seen to make a dash for the rear door, but was too late. A second later the car swayed on the edge of the awful space, steadied for an instant as though in a frantic endeavor to maintain its equilibrium and toppled over. There was an agonizing chorus of screams and in an instant all was

quiet. The car struck upon a projection of piles in the abutment beneath the draw, then turning and collapsing, it. fell into the dark river below, scattering its passengers in all directions and breaking the tow line between the tug and schooner that were passing. A few suppressed groans were heard by the men who happened to be on the dock below. Men from the bridge above and from the docks who had witness-

ed the accident called to the men on the tug to pick up the people, but only two passengers, one man and one wo-

man, were rescued. The news of the accident spread rapidly and in a few minutes a fire boat, six ambulances, six dead wagons and a squad of policemen were on hand. The injured man and woman were taken to a hospital and the work of recovering the bodies was taken up. One by one they were found and taken to undertaking establishments in different parts of the city, as Cleveland has no morgue. The work of identification was extremely slow. Late at night when the South Side residents heard of the catastrophe and when they began to realize that their beloved ones had not returned home, the undertaking establishments were telephoned and visited, several of the bodies being identified before midnight.

o'clock this evening the bodies of 15 victims of last night's catastrophe had been recovered. At an early hour this morning Augustus Rogers, the motornian. was arrested at his home and brought to the Central Station, where he was questioned by the coroner and police. He was released on \$5000 bail.

Cleveland, O., Nov. 17.-Up to 6

The Final Crop Bulletin for 1895 issued

by the Ontario Government.

THE WEATHER. The conclusion for the year past is that there was an unusual variation in temperature, and a large deficiency of rain and snowfall. Apart from the extraordinary frosts of May, the greatest drawback to farm operations in 1895 has been the unusual lack of rain-

CROPS IN GENERAL. The poor hay crop of 1895 is the most imporant item in farm production. There was a dropping off from 1894 of over 1,700,000 tons. There has been a shortage of straw also. The corn crop, Fall wheat has turned out fair; spring wheat about the average; corn away above the average; barley fair in quantity; oats an extraordinary crop; peas fair; potatoes exceptionally large fair; clover seed almost a failure; buckwheat over the average; beans very good.

FALL WHEAT. The yield is 19 bushels per acre, which is a little under the average. The quality is, in general, very good.

THE NEW FALL WHEAT. The reports this fall indicate an increased acreage sown of from 10 to 30 per cent. The crop was put in under n.ost favorable conditions. SPRING WHEAT.

This crop is on the decline in Ontario in acreage, in yield, and, many think, in quality. The yield in 1890 was 7,683,905 bushels; in 1895 it was 3,472,543 bushels. BAPLEY.

The quantity on the whole is up to the average, but the grain is reported from most sections as being plump, but discolored. The straw was short and light in yield. **1,7*********

This is the big crop of the year. Increased acreage and the high average yield of 35.7 bushels per acre have given a total of 84,697,566 bushels for 1895. The total yield of the province is 9,688,024 bushels larger than the big record of 1891, and 14,525,050 bushels larger than that of 1894. RYE.

The crop turned out very well. The rev: crop was making good growth at the time of reporting.

This crop may be summed up as being fair.

COP.N. The area of corn has more than doubled since 1890. This year it was 552,828 acres, in 1890 it was 223,836 acres. Corn growing for husking yielded as high as 120 bushels of ears per acre in some southwestern townships. Taking area into consideration, the corn crop has proved about the most important crop grown this year. BUCKWHEAT.

Early sown buckwheat has turned out first-class, late sown more or less damaged.

Favorable reports have been made of the Kent bean crop. In other parts it will be up to the average. POTATOES.

Most favorable reports as to gield and quality come from all over the province.

ROOTS. Some correspondents report a splendid crop of turnips, while others describe the crop as a poor one and of inferior quality. Mangels will also be small in size, yet the yield will be above an average. Most correspondents speak favorably of the yield and quality of carrots.

CLOVER SEED. This relatively was about the poorest crop of the year. Red clover has turned out very poorly; alsike, on the whole, very good.

THE DAIRY. The drouth affected pastures to such an extent that cheese factories and creameries experienced a heavy falling off in supplies. Most factories closed this year earlier than is usual, and creameries also had a trying time of it. Prices were low most of the season, and the year has been a disappointing one to dairymen. Most of our correspondents still express confidence in the cheese industry. The grade Durham continues to be regarded as the favorite cow, the Ayrshire comes next (leading in Eastern Ontario), while the Jersey and Holstein follow

PASTURES AND LIVE STOCK. Live stock had rather scant pasture during the latter half of the season. In many sections the grass had to be supplemented with corn and other feed. The consequence is that cattle are generally thin, and, owing to shortage of fodder, a number of dry cows have been disposed of at very low prices. Sheep received favorable mention from most of those who refer to them. Special note is made of the fact that a large number of lambs are being fed on rape for the Buffalo market. Swine have been thriving, and many have been sold on foot. Most of the hogs are sold at weights ranging from 150 to 250 pounds. A fair supply of pork is still in the hands of farmers. Fodder is scarce and some farmers will find it hard to carry their stock through the coming winter.

POULTRY. The season has not been altogether satisfactory for poultry raisers, on acccunt of the low prices paid for both eggs and dressed poultry. The abundance of grasshoppers has been an advantage to those raising turkeys. Farmers are much divided as to whether there is profit or actual loss in keeping poultry. Many correspondents recognize that the poultry has not been given a fair trial, and that the average hen is a victim of neglect.

BEES AND HONEY. The discouraging account published in the August bulletin regarding the poor prospects of a honey yield Las been verified. There will be a small surplus from buckwheat, and still less from clover. With the exception of having low stores, the bees appear to be good condition.

FRUIT AND FRUIT TREES. Frost and drouth have been trying

the inland portion of Western Ontario to assist Mr. Laurier, Manitoba had apples have been a failure, and other fruits have been only slightly better, owing to the severe frosts of May. Near the shores of Lakes Erie and Ontario, however, and in the counties along the St. Lawrence, apples and rights, and common justice, and it was many other fruits have been abundant. THRESHING AND MARKETING.

Completed and well advanced. Several correspondents report half the oats and wheat to be sold. Low prices are leading farmers to feed more grain to live stock, and a large quantity of barley and peas will be disposed of in that way.

THE HYAMS TRIAL. Nothing Particularly New in Saturday's Proceedings - Mrs. Aylesworth on

the Stand.

Toronto, Nov. 18 .- The second

the Hyams trial drew

to a close on Saturday and although the taking of Crown testimony has already lasted longer than it did at the previous trial, the lengthy medical testimony is yet to be heard; nor have all the witnesses as | From the Trenton Advocate. to fact been examined. On Saturday Mr. Osler brought out two points which are not novel but extremely important in proving the ingenious modus operandi with which the Crown credits the twins, in bringing about the alleged murder of Willie Wells. The prisoners could profit by the death of the boy to any considerable extent only by the marriage of Harry Hyams to Martha Wells; therefore, says the Crown, the twins theorized that an active motive could only be proven against Harry and it was arranged that Dallas should do the deed and Harry should prove an alibi. Two of the witnesses put into the box on Sat-

by the Hyamses immediately after the

street warehouse and was fixing the

elevator when the weight dropped and killed Wells. Mrs. Aylesworth received this explanation and Miss Latimer, the typewriter for the firm at the time also learned so from the lips of H. P. Hyams. The defence's present position is that neither brother was present when that tragic event occurred. Mrs. Aylesworth's testimony proved important in another respect; it showed the tremendous efforts that Harry Hyams made to secure the hand and heart of Martha Wells after she had become an heiress. His appeals were so earnest that Mrs. Aylesworth herself was touched and Martha finally broke down and married him. All through the telling of her story the little brunette sister of the dead lad frequently broke into tears, as she recalled his end. She showed also a feminine tendency to tell her story in a roundabout way and had to be expostulated with by the judge at the instance of the counsel for the defence, who objected to certain allusions likely to prejudice the jury. Miss Mabel Latimer, on the contrary, proved the best of witnesses, calm and self-possessed, having as she admitted refreshed her memory with notes taken at her previous examinations. Even

His Lordship manages to brighten considerably the dull, tedious episodes of the case by the humor with which he seizes a point and comments on it. His extreme fairness in permitting nothing to be said which is likely to draw a herring across the trail is most commendable and the defence never fails to secure a ruling if the point is well taken. On Saturday the requests for rulings were as frequent

His Lordship was roused to admiration

by her precision and beamed down

Another notable aspect of the case against the twins was entered upon on Saturday, when the money-lenders Grandidge and Macpherson were put into the box to show that during the months in which the twins were anxious to carry a heavey burden in insurance premiums they were so hard up as to be in the habit of borrowing money at 2 per cent. a month. New testimony as to the wound over the left eye and the uselessness of the labors performed in connection with the alleged business enterprise on Colborne-street was introduced as well. The entire change which has taken place in Mrs. H. P. Hyams since the last trial was exemplified in the attempt to examine her lawyer, Mr. Smoke, as to his knowledge of the affairs of his client and her husband. Although she testified herself last time and allowed Mr. Smoke to do so, she has now withdrawn her permission with the words,"Please do not testify,"

MILITARY ON THE GROUND.

Already the Farmers Have Made Overtures Looking to a Settlement. Lowe, Que., Nov. 17 .- A detachment comprising 112 officers and men of the 4th Brigade Division, being a portion of the 43rd Batt., Ottawa Field Battery and Princess Louise Dragoon Guards, arrived here at noon, Lt.-Col. Hon. M. Aylmer, A.A.G., in commnd. The field battery men are practically mounted infantry. The troops camped near the bank of the Gatineau River, and the afternoon was spent in preparing for a stay. In the brigade Hon. M. Aylmer, A.A.G., in command. en route from Ottawa, baggage and brigade guards were detailed, to whom twenty rounds of ammunition per man

was issued. A special order enjoins that the troops treat with the greatest cour-

may have dealings. No sooner had they arrived at their headquarters than Solicitor Major was waited on by a representative farmer and asked under what condition this enormous expense could be stopped. He was informed that unless every delinquent agreed to pay up by tomorrow morning, the troops would be divided, and the work of seizure proceeded with as expeditiously as possible. That is the ultimatum. There will be no backing down on the part of the authorities, who now feel that the time for compromise or settlement is past. As to the cost of this expedition, Major also informed the men, that it must be borne by the Township of Lowe, how each individual paid his share was no concern of the authori-

It is believed that the sight of such an imposing force will bring the delinquents to unconditional surrender. The troops are well equipped, and therecannot for a moment be any question of effective resistance. The cost of keeping the troops here, to say no-

thing of transportation, is running up at the rate of \$275 a day. The first military duty of the troops to-night was an escort for Rev. Father Foley and William Farrell, J.P., of Farrellton, with Solicitor Major, and Sergt. Patry. They visited Rev. Father Blondin of North Lowe.

To-morrow will decide the issue, for a meeting of the ratepayers has been called to discuss the situation. If the majority are agreeable, and come forward with their money, receipts will be given, reserving the question of costs, since the militia were called. A new Township Council will be organized and most of the troops withdrawn. If this is not done, the seizures will continue, protected by the armed force. Settlement is more probable now than at any previous time since the trouble began.

McCARTHY AT MONO MILLS.

Mr. Stubbs Confirmed as the Independent Candidate. Mono Mills, Nov. 17 .- The meeting of the Cardwell McCarthy Association here on Saturday was largely attended. Mr. William Stubbs, the independent candidate, discussed the tariff question and other topics, taking occasion to denounce Hon. Mr. Haggart in connection with the Curran bridge con-

tract ...

Turning to the Manitoba school question, Mr. Stubbs said Mr. McCarthy and his views on this question should draw support from Reformers as well as Conservatives. Government would charge that Mr. McCarthy was trying to oust them from power on this question. Then Mr. Laurier would come into power and immediately reestablish Separate Schools. Such was not the case. Neither Mr. McCarthy nor the to orchard, garden and vineyard. In Province of Manitoba had any desire tive province. It was the oppression of the C.P.R. monopoly that brought Mr. Greenway into power. The people of Manitoba believed in provincial brought Mr. Greenway into power. Mr. McCarthy criticised the action of Mr. R. S. White and went on to deal with the policy of the Government and claimed that everything was subordinated to the interests of party. The nomination of Mr. Stubbs was unanimously confirmed.

FRIENDLY ADVICE

IS THE MEANS OF RENEWED HEALTH TO A SUFFERER.

Dr. Williams' Pink Pills Succeed Where Doctors Had Falled for Thirty Years -The Sufferer One of Northumberland Co's Best Known Men.

Mr. John Frost's case is a most remarkable one. He is one of the best known residents in the county of Northumberland, being a retired farmer of most ample means, and having financial dealings with hundreds throughout the townships. We have known him intimately for over ten years. From him we gleaned the following facts in February last :-"I was born in England and at twelve years of age arrived in Canada with my parents, who settled in Prince Edward urday swore that in all the stories told county and remained there for three years death of Wells, it was alleged that We then moved to Rawdon township, in Dallas was present in the Colbornethe neighboring county or Hastings. For thirty years I was a resident of Rawdon, three years I resided in Seymour township, and I am at present, and have been for the past ten years, a resident of Murray township. For thirty years I have been a martyr to rheumatism. During that time I have been treated by scores of doctors and found partial relief from but one. I have during the same period tried innumerable remedies, but all failed to cure me. Scarcely a month passes that I am not laid up, and fre quently I am confined to bed six or eight weeks, unable to move hand or foot and suffering untold agonies. Two well known doctors told me one time that I would have to have an arm taken off to save my I tel you I have been a great

Getting into my Kig was Agoniling. sufferer in my time and I would give anything to find relief. My business causes me a great deal of driving and getting in and out of my rig is agony. Knowing his story to be true, and

anxious that Dr. Williams' Pink Pills should have a severe test, we prevailed on them a trial. He got six boxes and commenced to use them. At the start he smiled at our confidence in the pills. We saw him after he had used the first box and he admitted some relief and said he believed there was something in the remedy. He continued their use and by the time he had finished the six boxes he Miss Maggie Melody, of Hamilton, Used was as sound and proud a man as could be found in five counties. A couple of months have passed since the cure was effected, and we deferred giving a history of the case in order that we could see for a certainty that the cure was permanent. We see him several times a week actively attending to his business and at all times loud in his praise of Pink Pills. All who know Mr. Frost know that his word is as good as his bond. Yesterday we said to him, "Now, Mr. Frost, do you really feel that you are cured of rheumatism Do you feel any twinges of the old trouble tesy all inhabitants with whom they at all? He replied, "I sm cured." The Pink Pill have thoroughly routed the grand remedy. In fact it gave me relief disease out of my system and I feel a new | almost at once. I can with pleasure highman. The use of the pills has given me ly recommend it to all who suffer from new life and I am telling everyone I meet about the cure.' Such is the case, and having known Mr Frost for years the suffs er he was, and seeing him now active, and almost youthful again, the rapid change from suffering to health seems almost a miracle. However we are not at all surprised, for on all sides we hear of cures effected by the use of Pink Pills. The druggists remark their

their customers.
