LOCAL NEWS-LETTERS

BOBAYGEON.

SAD DR. WING.—Mrs. Allen, who lived in Bobaygeon, came across the bridges to the south side of the canal to visit her daughter, Mrs. George Hamilton, on Sunday evening, the 17th inst., and remained till about nine o'clock, when she started for her home, and as it was very dark she concluded to keep the centre of the road. In doing so she went astray and walked into the canal at the foot of Sherwood street, it is supposed, and was drowned.

CHICK MR. BRETHER.—The cockmaster, went to measure the water and to his astonishment found her body floating just at the entrance to the mill race. As she lived alone no person had missed her till she was found. The funeral took place on the following Tuesday and was largely attended. The surviving members of the family have the sympathy of the entire village in their sad bereavement.

THE ESTURION.—The Esturion tooted her whistle and steamed off for Lindsay as usual on Thursday morning, (21st) but when Capt. Lane got to the river he found Jack Frost had been too busy the night before, so he had to return and go into the dry dock here for winter quarters.

PERSONALS.—All our local sports have returned from the wild regions of the north, and all have been fairly successful. To mention all the hunters and all the deer captured would fill too much space, so we shall only mention the more successful ones.

PERSONALS.—We are sorry to state that a member of our promising young men has been taken from the lumber woods to the Huntsville hospital with Bright's disease and is in a very dangerous condition.

PERSONALS.—The proposed Port Perry and Kinross electric railway is likely to be built, as most of the towns asked to give a bonus have already raised the required amount.

In our experience it is unerring. The children like it, and in their cases we have found Pinealm excellent in colds, as well as colds and coughs."

Bell, who was united in marriage on the 6th inst. to Mr. Robt. E. Woodcock, one of Cobocook's worthy citizens. The ceremony was performed in Lindsay, from which place they returned by way of Kinross on the night train of the 8th. They were given a warm reception by their many friends who had gathered at the home of the bride's father, where a very enjoyable evening was spent. The bride was the recipient of many beautiful presents. Who next? CHURCH NOTES.—The revival services have closed with grand success, over fifty having taken the all important step. U Noo Hoo.

Give us a trial and see how far we can make your \$5 go by dealing with us. Highest prices paid for farm produce.—PHILIP & MAY.

Mr. Wilson Herron, of Dorset, paid his Gelert friends a visit on Thursday last.

HORSE KILLED.—On Thursday morning last, as train No. 32 was running around a long curve opposite Mr. Jno. Sedgwick's farm, the struck and killed one of his finest young horses. The Railway Co. will likely pay for the animal, as their fence was only about three feet high where the horse jumped over.

LACONIC.—The lake was frozen over once this fall. Boys, did you have a good time at Uxbridge on Sunday night of last week? What's the matter with Blackstock? Get run out when you go over there? The Chronicle correspondent is so pleased over his "experience meeting" that he had to go and completely spoil it last week. The editor should impress you with the fact that you must grow yet before you are allowed to do things alone. I suppose that's one of the "experience meetings" such as they have in "the church of to-day."

PERSONALS.—The proposed Port Perry and Kinross electric railway is likely to be built, as most of the towns asked to give a bonus have already raised the required amount.

Navigation Closed. As anticipated, the cold snap of Wednesday week covered the river with an inch of tough ice, and navigation is ended for the season. The Esturion came as far as Pleasant Point on the up trip last day, but Capt. Lane found the entrance to the cut frozen and the gizzard of new ice as far as he could see ahead. The commercial men on board were put on shore and made the Benson house about noon in a knock-up condition, declaring that the walking was excruciating. The boat returned to Bobaygeon and is now in winter quarters in the dry dock.

An Equine Deal. Master Bert Weese, the enterprising young son of our well known horse buyer, is developing a somewhat precocious business instinct. Hearing that Harris, the Toronto dealer in fertilizers, was anxious to buy a number of old horses, he set about collecting a carload, and yesterday he sent off a shipment of eighteen cow-baits. A. at the procession passing up street the framework of old-time traps which had drifted from their ken twenty-five years ago. Master Weese offered the hand some pair of \$1 per head for the old nags brought in, but they had to be good ones to command that figure, as from Janeville found out to his cost. After an ancient sorcerer was brought in, he was taken to the mill and some eleven miles into the bush and but critical buyer turned up his nose in the animal offered, and would give no more than \$3.50. Weese, however, leave it, he was firm as adamant. The seller pleaded that the best had good blood in its veins, and offered to compromise at \$5, but Master Weese, true to his instincts was not to be easily cajoled, and finally secured the blooded animal for the half dollar. Alas, however, despite casualties by the way, he lost 12 of the 18 animals at the shipping point, and those he loaded with considerable exertion into a box car, the shipment cost him about 75 per cent. Harris, the Toronto man, sells the hides at \$3 or \$3.50, the flesh commands a fair price for hog feed, and the bones—the principal ingredient—are converted into fertilizer.

Sunlight Soap. BEST FOR WASH DAY. USE SURPRISE SOAP BEST FOR EVERY DAY. Arch. Campbell.

What Is Your Opinion?

GLADSTONE SAYS THAT all men are natural Free Traders—that given their choice they will buy in the cheapest market and sell in the dearest, and that while laws may be passed by governments restricting trade between nations under the guise of expediency, the nature of the people remains unchanged and they still go on demonstrating the truth of the great principle in their every day bargaining and bartering.

It's a deep question in its wider sense, and we don't pretend to be able to answer it just now—some other time, perhaps. Take the question in its local application, and it's easy for all of us—we all buy in the cheapest market, and we wouldn't get much credit for sound common-sense if we didn't.

Coming down to our own business—that of a Family Grocer—is it not true that people will deal where they can get the quality of goods they want at the lowest figure? Friendship is all-powerful, but it will rarely survive a difference of a cent a pound in the family supply of sugar, and properly so—business is business, and it may reasonably be assumed that one grocer should be able to sell as cheaply as another.

Various conditions make this impossible, however. In these days of vigorous competition the wholesaler holds out his arms to the large buyer who turns his stock over quickly and comes back often. Such a buyer gets the closest margins on everything and his stock is always fresh—the small dealer does not fare as well, and his goods grow old on the shelf.

We turn our stocks over rapidly—"Small profits and quick returns" has always been our business motto, and we're more in love with it than ever. We watch the market and buy in large quantities at such close margins that other merchants purchase lines of goods from us cheaper than they could from the wholesale houses.

Isn't there a profitable lesson in this for all housekeepers? We think so. What is your honest opinion?
