the States. vow Haven, Conn., Oct. 28 .- The jury in the case of the notorious Dr. John Edward lecharged with seducing Miss Bird Mademe Palmer, a young artist, and attempting perform an operation, returned a verdict guilty last evening. Dr. Lee was at once galenced by Judge Thayer to five years in the State Prison. Attorney Chase asked he stay of judgment, but the Judge reused, and Dr. Lee was taken back to jail. Lee came to New Haven from Listowel, Canada, four years ago. He was barely w years old then. He left a wife and 30 children with his father in Listowei ad began practice here.

Lee stayed in New Haven, lived well and drove good horses. The while the police satched him closely. He was arrested in a year for causing the death of Mrs. Margaret Miller of Grand-avenue, by an oper-ation. Mrs. Miller confessed on her deathled that Lee was guilty, but no ante-mortem statement was taken. In the Superior court Lee was tried before a jury, which disagreed, and Lee was discharged. A few days afterward the late Tilton E. Doolittle, then State Attorney, had Lee re-arrested on charges in both the Schloss and Miller cases. The plea was made that Lee's life could not twice be placed in jeopardy, but this was overruled. Mr. Dolittle died while preparing the case. His successor, State Attorney Williams, knew little or nothing of the facts which Mr. Dolittle possessed. The jury in the Schloss case disagreed, the Miller case was dropped and Lee escaped the fourth time. This was last spring. buring the trials and his imprisonment Lee had only one friend. She was Mrs. Primer, the wife of E. M. Palmer of Whallev-avenue. She had known Lee as a boy and had taught him in Sunday School. She befriended him all through the trials, and when he was released took him into her house because he was penniless. She gave him her parlor for an office, and helped him te get another start. While she was doing this Lee accomplished the ruin of Mrs. Miss Palmer received a letter purporting

to come from relatives in Sheffield, Mass., early last September, enclosing money and asking her to come to visit them. She left home, and Lee joined her. For two weeks ther lived in hotels between here and Shef-Lee had a bogus marriage performed, and

presented the girl as his wife. She was about to become a mother. Lee, while they were driving near Great Barrington, while intoxicated, allowed his horse to run away. Miss Palmer was thrown out and injured. In her testimony she said Lee beat her over the back with a loaded driving whip while she was lying on the ground, and then compelled her to walk miles. Finally they reached the Mansion House. n Ansonia, on Sept. 24. There, the girl says, Lee tried to perform an operation. He beat her when she pleaded for mercy, and her cries finally attracted the attention of the housekeeper and the proprietor. The fered both him and the girl to leave. Lee and Miss Palmer went to the staion, and Miss Palmer there escaped and returned to New Haven, being obliged to go at once to the hospital. The police with difficulty got a confession from the girl, and arrested Lee just as he was about to escape from New Haven. When the case came up for trial yesterday the court was crowded. Miss Palmer was closely guarded by her parents, and avoided Lee's steady gaze. She has all along declared Lee hypnotized her, and that she did not dare face him or testify

kill her if she ever betrayed him. When she was called to the witness stand she told a pathetic and horrible story. She told in detail how Lee struck her, threw her against the wall and dragged her by the hair and pounded her. Lee had no defence, and did not even take the witness stand. He is cool, and has set his innocence. When Miss Palmer began her testimony to-day he weakened for the first time, looked troubled and be-

It took the jury only a few minutes to decide on a verdict of guilt. Lee was followed to jail by a great crowd. It was with the greatest difficulty that the state got Miss Palmer to testify against Lee, I learned this evening. While he jury were out she became nervous, and isked City Attorney Matthewman if he lought Lee would be convicted. When latthewman told her there was no doubt f conviction, Miss Palmer said she regretled that her story had been the cause of it.

pleasure of addressing a meeting in between then and now is that we were then on the left, whilst now we are to the right. It has been given to us that the Liberal policy goes far towards expressing the principles which formed the platform of the Conservative party, if that party exists to-day. The Mayor, continued Mr. Laurier, apparently knows the trend of the people over whom he has the honor of being the First Magistrate, for he struck a very sympathetic chord by speaking of the distance which separates Quebec from Levis, and to remove the obstacle which separates them from one another, yet still there are many towns and cities in Canada which crave and would welcome such an obstacle. Arthabaska, for example, would rather have the St. Lawrence to cross than the

humble Nicolet River. Quebec is by far the best seaport of the Dominion. All our efforts should concentrate to one point, and that is to restore Quebec to its old commercial prestige, and this can only be attained by facilitating the canal traffic. There is again another scheme which should be much to the advantage of Quebec, and this is the Parry Sound Railway, which is straight in line from the great lakes as a bird flies. Quebec must avail itself of its geographical position to secure the trade and traffic

to which it has a right. Speaking then of the fast line, the Premier said that a man who had a share in the public gratitude was Sir Hugh Allan, who had the honor of being the pioneer of the St. Lawrencetrans-Atlantic navigation Whatever the amount of the bonus the Government would grant a company for a fast line of steamers, the mercantile people would condemn us if we favored only a passenger line. What the country wants is a fast freight line combined with a passenger service. "I am not," said Mr. Laurier, "competent in nautical matters, but ere we disburse \$750,000 we shall be well informed as to the service of a fast line we are to have. When we have ascertained our point: we will establish such a service as will rival with the best lines plying between American

ports and the Mother Country. "Now, for your most earnest wishes, your bridge. Let me tell you that the Government does not build bridges, but the Government helps in building bridges. Let Quebec, watch its own interest and the Government will second its efforts. I may state that our Government will, help you to build your bridge four times as much as the help promised you by the other Governments." (Cheers.)

Speaking of the Manitoba school question, Hon. Mr. Laurier said that he was not in a position to give out the arrangements arrived at, "but in a few weeks I shall be able to place before the people the arrangements made towards uniting opinions on the school question. I do not speak for those Catholics who have been bargaining with religion since the last twenty-five years, but I appeal to all Christians, either Catholic or Protestant, and we shall see whether or not religion cannot be taught in school. Owen Sound, Oct. 29.-(Special.)-A hunting party, consisting of George Inglis, local registrar of the high court of justice; William Masson, postmaster; W. A. Inglis, Jack Inglis, miller; Robert Edgar, town tax collector, and John Fox, liveryman, left here early yesterday morning on a hare hunting excursion to Elliott's swamp, near Hall's settlement, in the Township of Derby, about six miles from Owen Sound. The party put in the day in the swamp, running hare, without anything out of the usual occurring. Along about 5 o'clock in the evening, however, Mr. Edgar separated from the rest of the party and went back alone into the swamp after a hare which the dogs had just raised. Darkness coming on shortly afterwards and he not having returned his comrades began to become somewhat anxious about him and returned to the swamp in the direction in which he was going when last seen, to endeavor to bring him out. Death must have been instantaneous. In making his way through the swamp he must have, by falling or in some other way, accidentally discharged his gun with the above sad result. The body was brought in to Owen Sound at 1 o'clock

this morning by the sorrowful party and taken to his home. The accident is undoubtedly a very sad one and will be deeply lamented by the whole community. Mr. Edgar was one of Owen Sound's oldest residents, having come in the early days of the town. He was for many years bailiff of the first Division Court of Grey, giving up the position a year or two ago. He has been town tax collector for the past ten years and upwards, as well as being at the same time collector of water rates. The deceased was one of the best known men in the county, was a prominent Orangeman and a staunch and energetic Conservative, besides being connected with many of the different fraternal societies. He was about 58 years old and a native of Ireland. He leaves a widow and grown up family. CHARGED WITH MURDER.

Mrs. George H. Sternaman Arrested in Buffalo in Connection With the Death of Her Husband.

Several years ago George H. Sternaman went from the Township of Rainham, Haldimand County, Ont., to Buffalo to work. He secured board at the home of Ezra Chipman, a carpenter, and fellow-workman, whose wife, nee Olive Sevenpiper, also came originally from Rainham. Chipman died somewhat suddenly, and after a time Sternaman married the widow, Mrs. Chipman having secured the amount of a ife insurance policy on her husband. Last July the second husband was taken ill, showing symptoms similar to those of Chipman, and now it is suspected that both were poisoned. Sternaman's mother sent for the sick man to come to his old home and he did so, his wife accompanying him, and insisting on attending him. Sternaman died in August and the Cana-

dian doctors, finding the man carried substantial life insurance, suspected An inquest was ordered, the body exhumed, and the viscera sent to Dr. Ellis of Toronto for analysis. The result was the finding of arsenic, and the coroner's jury rendered a verdict of arsenical poisoning. The widow has been arrested and is now in custody at Buffalo.

The above is briefly the story of which the following is a continuation: MRS. STERNAMAN ARRESTED.

The Accused Woman Shows No Trepidation Over the Matter.

Buffalo, Oct. 28.-Last night a telegram was received from Cayuga, Ont., asking the police to arrest Mrs. Olive Sternaman on the charge of murder. She was accordingly arrested. Mrs. Sternaman admitted that she was expecting arrest. Ferdinand Duckwitz is her lawyer. He said he believed no indictment had been found. There would be an application made for a commitment and he would do everything he could to defend his client.

But There is a Genuine Demand for Wheat

Not Enough Wheat at British Ports to Last a Fortnight-The Shortage of Corn and Wheat in India Will Compel Purchase - Over-

Speculation. London, Oct. 27 .- Mr. Philip B. Skelton, secretary of the old Corn Exchange in Mark Lane, in an interview with a representative of United Associated Presses, said in gard to the recent rise in wheat: "I certainly think the demand genuine and the rise justified. A reaction is probable, but it will be only temporary and caused by people having stock on hand being induced to rush to sell. A number of cargoes are already on their way to India, Everybody is waiting. The shortage of corn and wheat in India will compel purchase. The fall in prices to-day was in sympathy with the foreign markets. I believe that there will be wheat enough brought to market in the next six months to supply the necessities of the world. The abcence of the surplus of former years has stimulated trade. The statements which have been made that there is a manipulation of the market to support the Presidential candidacy of Bryan in the United States is absolutely nonsense. Indeed, he is sure to characterize the markets until confirmation is received that India and other countries have no reserve as upon former occasions suffi-

THE SUPPLY IS SHORT

And the Tendency in England is for

London, Oct. 27 .- The Daily Telegraph says of the demand for and the supply of wheat: The stock of foreign wheat at the principal British ports, it is said, would not suffice to feed the country for a fortnight. The slight fall in American exchanges on Saturday gave the English markets a downward tendency, but it is the opinion of one of the best known corn factors in Mark Lane that American wheats will speedily rise with a bang, and that by Christmas prices will be much further enhanced. During the recent excitement business was in comparatively few hands. The operators are reported to have reaped a rich harvest. Speculation both in England and America was carried beyond reasonable bounds. American operations were decidedly intemperate and excessive, but in the market the opinion is positive that at least a portion of the rise will be retained, and that the era of low prices is for the time being ended. The Evening Standard this afternoon says that the tendency in wheat is for higher prices, adding: The failure in India will divert Californian and Australian wheat from Europe there. Only the tremendous effort in the United States to hurry wheat across the Atlantic to exchange for gold prevented a much greater increase in prices, and when the inrush is past there will be a further rise. At the Baltic this morning business in wheat was very dull, and the tendency was towards

Higher at Liverpool. Liverpool, Oct. 27 .- The wheat market opened higher in sympathy with yesterday's closing in America, falling away upon selling orders and poor milling demand. Larger arrivals and a cessation of outside speculation weakened it still further, the weak bulls realizing freely and values declining 2d below the opening. The lower level prices stimulated buying, and towards the close the market rallied 1-2d, finally closing at 1d to 11-2d lower. There was an active business, covering 170,000 quar-

Seattle, Wash., Oct. 27 .- A paper here has compiled information showing that the farmers of Eastern Washington have since the recent rise in wheat sold 15,000,000 bushels at an average price of 60 cents, the crop netting about \$3,500,000 more than last year. This season the farmers were enabled to borrow money on warehouse receipts, which enabled them to hold their wheat until the rise.

WAS THIS WOMAN POISONED?

The Mother of Mrs. Rose Villeneuve of Ottawa Demands an Investigation by the Coroner.

Ottawa, Oct. 29.—(Special.)—An evening paper says Dr. Mark, city coroner, has been asked by Mrs. C. Morse of 43 Daly-avenue to hold an investigation into the death of her 17-year-old daughter, Mrs. Rose Villeneuve (wife of Peter Villeneuve) of Rockland, whe died there yesterday, under what Mrs. Morse claims are very suspicious circumstances. The body was to have been buried this afternoon in Moose Creek Cemetery. Mrs Morse states that her daughter has always been quite strong, and until about two weeks ago was in the best of health. Dr. Ferguson, who attended her during her last sickness, stated that death was due to brain trouble, but she could not understand how that could be the case, in view of the fact that her daughter had never had the slightest trouble in that way. In her opinion, she said, death was caused by poison, which her daughter may possibly have taken herself, or which might have been given to her. One of her reasons for thinking so, she said, was that the body of her daughter after death showed all the signs of poisoning, as it turned black, froth formed at the mouth, the eyeballs protruded and there were other signs which pointed to that belief. A singular thing about the story is that Dr. Mark had not Girouard, a married man about 23 heard anything of it officially up to 8 v'clock to-night. The Awful Spectacle Witnessed at a Buli

Bad Outlook in India-Chicago, Oct. 29.-Wheat started in to-day with a boom in full possession of the pit and prices jumped skyward with startling rapidity. For about an hour it looked as though there was to be a repetition of the action and scenes of ten days ago, but at 73 1-4c for December realizing began. Rumors of tightening money at New York, which later were more than verified, caused great energy in selling and a break of 2c took place. Afterwards the fluctuations were nervous and erratic, it being evident that traders could find nocomfort on either the long or short side. There were a number of foreign buying orders here and at New York to-day, to which great prominence was given, the early advance proving how fruitful in effect they were. Liverpool opening cables were 1 1-2d higher and 3-4d was added at the close.

FARMERS ARE HOLDING.

English Agriculturists Decline to Part With Stocks, Confident of a Rise.

New York, Oct. 29.—Ballard Smith in a special cable to The World says: tion, one plainly indicating a belief that higher prices are coming, is that the farmers in the wheat growing districts of England are firmly holding on to their stock, even though the figures now obtainable are much higher than they had ever hoped to see again. The continued absence of rain in the Punjaub district and the measures now being arranged by the East Indian Government to deal with a possible famine seem certain to make large demands on the market next month.

The World representative had a talk to-day with Mr. Schamasch, the manager of the great firm of E. D. Sasoon & Co. of London and Bombay, the largest and most important London house in the East Indian trade. It was his purchase of several cargoes for Bombay last week that caused the first decided advance in price. He gays: "I consider the prospect of the market excellent for some months to come, notwithstanding that the price of wheat shows a downward tendency. It has now fallen to 32 shillings, and believe it will drop to 30s, from which point it will rise steadily in a healthy, stable manner."

Manitoba Flour Wanted in Australia. Montreal, Oct. 29.-(Special.)-Manitoba flour is in good demand in Australia. To-day's Continental wheat markets were as follows: Antwerp-Wheat opened firm on the strength of English and American advices, but the market was lifeless, buyers being unwilling to meet higher prices. The market closed dull, but steady. Paris-The market opened weak and lower, but became strong on stimulation of American advices, and

prices advanced, but buyers were shy, in view of the recent collapse and the volume of business was small. Berlin-The market opened higher upon the strength of advices from America. Wheat opened firm at fully two marks improvement, the bears covering freely, and closed firm at 2 1-2 to 3 marks above yesterday's closing. Holders were influenced by the unfavorable advices regarding the crops in India.

Buda Pest-There was a sensible advance in wheat at the opening, which had the effect to restrict business. Hamburg and Amsterdam markets firmer, holders asking higher rates; business limited.

An Explosion of Gas in a Wilkes-Barre Colliery-Rescuers Fell Dead in Their Tracks.

pean account was the feature.

Wilkes-Barre, Pa., Oct. 29.-By an explosion of gas this afternoon in No. 3 shaft of the Lehigh and Wilkes-Barre Coal Company six men were killed and two injured. The dead are: William R. Jones, are boss, who had been in the employ of the company for the past 25 years; John W. Josephs, who had been assistant mine foreman for the past 12 years; Thomas Owens, William Lacey, contractor; James Herring and Joseph Worth. The injured are: David Williams and John Davis, laborers, overcome by gas. Six others who were in the mine were brought to the surface uninjured. When the explosion occurred William Lacey, a contractor, was at work in a rock tunnel, about a mile from the foot of the shaft, with 18 men. Immediately after the explosion a rescuing gang was organized by Fire boss William R. Jones and Assistant Foreman John W. Josephs. The men proceeded down the shaft, Jones and Josephs being in advance. When about one mile from the foot of thet shaft they stumbled over the bodies of Contractor Lacey, Owens, Herring and Worth. At this point Jones and Josephs were overcome by black damp and fell dead in their tracks. The other rescuers were forced to beat a hasty retreat, bringing the bodies of Jones and Josephs with A few hours later the air current was partly restored and the men were able to push their way into the tunnel and at 8.30 to-night signalled that they had recovered the other bodies. The rescuers, with the bodies, were brought to the surface short-
