Ayer's Remedies.

THE OLDEST AND THE BEST

Cough-cure, the most prompt and effective remedy for diseases of the throat and lungs, is Ayer's Cherry Pectoral. As an emergency medicine, for the cure of Croup, Sore Throat, Lung Fever and Whooping Cough,

AYER'S

Cherry Pectoral cannot be equaled. E. M. BRAWLEY, D. D. Dis. Sec. of the American Baptist Publishing Society, Petersburg, Va., endorses it, as a cure for violent colds, bronchitis, etc. Dr. Brawley also adds: To all ministers suffering from throat troubles, I recommend

AYER'S Cherry Pectoral

Awarded Medal at World's Fair.

AYER'S PILLS Cure Liver and Stomach Troubles.

The Canadian Post.

LINDSAY, FRIDAY, NOV. 6, 1896.

A Month of Dread.

To All Rheumatic Sufferers.

Paine's Celery Compound a Priceless Blessing For Suffering Humanity.

November, with its variable weather, is a month of terror and torture for all rheumatic sufferers.

At this time, a remedy that has power to eradicate the cause of rheumatism from the system is indeed a priceless blessing. Such a remedy, for all forms of rheumatism, will be found in Paine's Celery Compound.

In thousands of cases Paine's Celery Compound has produced marvellous cures. Even in the longest standing and nearly incurable cases the medicine has given wonderful and magical results.

If you are a sufferer, delay not a moment; procure Paine's Celery Compound and test its powers. If you are vainly trying to effect a cure with other medicines, throw aside and use the medicine that is now curing your friends and neighbors.

Mrs. J. Vince, Barrie, Ont., after vain attempts to effect a cure with the ordinary medicines of the day, used Paine's Celery Compound with truly blessed results. She writes thus:

"I am happy to say that I have taken Paine's Celery Compound with great results. I had sciatica so badly that I could not turn in bed or walk without help; and for a period of three weeks was helplessly laid up and suffered pain that at times was unbearable.

"I tried many medicines, but all in vain. I was afterwards recommended to try Paine's Celery Compound. I used six bottles and am entirely cured, and enjoy good health. I take great pleasure in recommending the valuable medicine that cured me."

DELUGE IN FRANCE.

The Seine Causes Alarm—Other Rivers are Raging Torrents and the People are Terrified.

Paris, Nov. 1.—The Seine has been rising for some days, and has now reached a point that is causing much alarm. Low lying structures along its banks have been flooded and much damage has been done above and below the city. The river is so full of floating debris that traffic upon it has been stopped.

Most of the other rivers in France are also out of their banks. Many of the villages along the Rhone are completely surrounded by water. At Vallabreques, near Tarascon, the inhabitants have been driven from their homes by the rising waters, and are camping in the cemetery, which is situated on high ground.

Near Nismes, Department of Gurd, and Bourg, Department of Aisne, a number of bridges have been swept away. Families living on low ground near the Rhone have taken refuge in the upper storeys of their houses, the lower portions being inundated.

The district northeast of Nismes has suffered extensively. The Bishop of Nismes has gone on a boat to render what assistance he can to the distressed villagers. The inundations are so extensive that the postmen have to use boats to perform their labors.

The plain of Roquemaure is an immense lake. The water is deep, only the tops of the trees being visible.

The region northeast of Bourg are impassable. The inhabitants are terrified, as the flood gives promise of increasing.

The islets of Piot and Barthelase, in the Rhone, near Avignon, capital of the Department of Vaucluse, are completely submerged. The inundation is causing much distress and the property loss will be heavy.

BURNED TO DEATH.

Lorne Paradis in Trying to Save a Horse From a Burning Barn Lost His Own Life.

Tavistock, Ont., Nov. 1.—A fire attended with fatal consequences occurred on the farm of Michael Paradis, about four miles southeast of this village in East Zorra, about 7 o'clock last evening. His 16-year-old-son Lorne went to the barn to do chores, and by some means unknown set fire to the building. The young man bravely ran a buggy out of the building, and then undertook to take out the horses from a box-stall in a distant corner. Here he was evidently smothered and burned, as his body was found where the stall had been, along with that of the horse. The father is working at Murphy's station near Owen Sound, where he was informed of the calamity by telephone later in the evening.

Blaze and Accident at Georgetown.

Georgetown, Ont., Oct. 31.—About noon to-day fire damaged the residence of Mr. Wm. Forgraves at Glenwilliams to the extent of $200; no insurance. During the exertions of the citizens to put out the fire, Mr. Ben Williams fell off the roof, receiving severe injuries, including a fracture of the ankle.

THE TRIAL FIENDS.

Wheelmen After Records Everywhere—Johnson and Michael Go to New Orleans—At Brantford.

Nashville, Tenn., Oct. 31.—John S. Johnson had to be content to-day with the three fastest miles ever ridden in one day. He lowered the three-quarter mile mark of 1.15 3-5, held by Wells, and made at Coronada, to 1.13 2-5. One attempt at a mile record this morning was in 1.42, and the first this afternoon in 1.40. The second was in 1.41. The day was fine, but the wind was contrary, blowing across the track and in gusts. The first half was made in 49 this morning, and in 49 for the first trial and 48 for the second this afternoon. Failure was due to the fact that the men have raced every evening this week, and made record trials every morning and afternoon.

Owing to the horse races the coming week Cumberland Park track must be abandoned, and the team leaves for New Orleans Monday, where Michael will be sent for all records from three miles to the 100, and Johnson for the shorter marks. Ten records have fallen before the team at this track.

The record breakers smashed three bicycle records yesterday afternoon, though the team was not as successful as on former days in making a clean sweep of everything tried for. The records broken were the one-half mile, unpaced, tandem, the time being made by Phillips and Brodis, in 51 1-5, breaking the record of 52 4-5, made by Terrill and Taylor. John S. Johnson made a try for the one-quarter, paced, record of 23 4-5, made by Stephens, and knocked it out, making the distance in 23 2-5. Phillips and Wing then went out after the one-quarter mile, tandem, record, making the world's record 22 2-5.

RECORDS WITH THE WIND.

Brantford, Ont., Oct. 31.—The record-breaking contests were continued to-day at Parkdale Driving Park. The receipts went for the benefit of R. E. Axton, the injured 25-mile amateur champion. The track was faster than ever, but owing to a gale of wind the riders attempted to break no records over a quarter of a mile. With the exception of about 20 yards at the start, they were assisted by a 40-mile an hour gale. Two Canadian records were broken and also a world's tandem record. Tucker and Boake are the best tandem team in Canada. To-day for the second time within one week, they broke a world's record, riding one-quarter mile, flying start, in 24 4-5 seconds. Angus McLeod has now rounded to his old time form, and to-day proved himself to be the fastest sprinter in Canada by riding one-quarter mile, flying start, paced by two tandems, in the remarkable time of 24½ seconds. Fred Westbrooke broke Harley Davidson's paced quarter-mile standing start record 3-5 of a second, riding the distance in 28 4-5.

THE PRICE OF BREAD

Is the Uppermost Topic Among the People of England Just Now—An Advance Already.

London, Nov. 1.—The uppermost question among the general population just now is the price of bread, which is rising throughout England in consequence of the advance in the price of wheat. Already the quartern loaf in the bakeries of the West End costs six pence, and the three-penny loaf in the East End now sells for four pence. The rise is not yet universal, but the action of the London Bakers' Association clearly forecasts dear bread throughout the winter. While this was a common experience a generation ago, it will cause unexampled distress among the poor in England just now, because, with bread cheap for a long period, they have become dependent upon it as the chief article of food. While the bakers are responding with suspicious alacrity to the advance in the price of wheat, it is impossible for the statisticians to estimate the visible supply as anything less than 14,000,000 bushels below that at the corresponding period last year, while the deficiency, compared with the stock in sight in October, 1894, is 46,000,000. English farmers are profiting heavily by the advance, since the decline in wheat acreage from last year was slight, and a good crop was harvested before the rains set in. They are contented and happy, with a clear appreciation of the fact that the price of this great staple depends upon the universal law of supply and demand, and with minds unclouded and undisturbed by silver polemics. Freight rates have risen with the price of wheat, and ship-owners are finding the supply of tonnage inadequate for meeting the greatest demand for moving crops known since 1888. Many old hulks, which had presumably made their last voyage, have been pressed into service, and the ship yards are receiving orders for new vessels on the strength of the present abnormal activity in shipping interests.

There are rumors that the present boom in freights has been brought about by a timely combination of shipowners, but such matters receive less attention in England than in America. Nine of the principal coal corporations in the United Kingdom formed a trust a few days ago for controlling the production and price of coal. But there are no public outcries against it. The same English journals that are in the habit of describing the evils of trusts and monopolist combinations in America, as a legitimate consequence of the protective tariff, choose to ignore the obvious and notorious fact that the United Kingdom, under free trade, as Mr. Blaine once said, is plastered over with capitalist combinations and trusts.

SCOTTISH RITE MASONS.

The Numbers at Ottawa for the Supreme Council Meeting Augmented—Entertained at a Banquet.

Ottawa, Oct. 28.—(Special.)—The Scottish Rite Masons already here were augmented in numbers to-day by the arrival of Hon. J. M. Gibson, J. J. Mason and W. H. Ballard of Hamilton; E. T. Malone, Toronto; Daniel Spry, London; D. F. MacWatt, Barrie; H. A. MacKay, Berlin, and others. The Supreme Council held its first meeting to-day, and among the business transacted was the election of three illustrious riters as honorary thirty-thirds. They are W. R. White of Pembroke, W. B. McArthur of Ottawa and Alex Stevens of Halifax. To-night the visitors were entertained at a grand banquet, which was given by the local riters in the Masonic Hall.

HAVANA THREATENED.

Maximo Gomez Said to be Concentrating His Forces and Marching Westward Toward the Capital.

New York, Nov. 2.—A despatch to The Herald from Key West, Fla., says: A prominent Cuban resident said to-day that, without assuming the role of a prophet, it could positively be announced that the City of Havana would be besieged by Maximo Gomez within the next sixty days. To that end Gomez and all the rebel forces are now marching westward toward the capital.

Gomez has not been heard from since his attack on the town of Cascorro, and the subsequent engagement at Desmayo plantation, where he defeated Gen. Jiminez Castellano. The ominous silence of Gomez is said to presage the planning of a series of attacks on the principal cities within Havana and Matanzas provinces.

SALISBURY IS FOR ABSTINENCE.

The British Premier Will Remain Unshaken on That Question.

New York, Nov. 1.—A London correspondent cables: "In one respect alone does Lord Salisbury seem likely to remain unchanged to the end. He has been for years the most influential advocate of total abstinence in England, and his speeches this week show that, on this point at least, he will stand unshaken. That he will be able to secure any legislation in the direction of enforced temperance, let alone of prohibition, is, however, entirely unlikely. Several members of the present Government are personally friendly to the temperance cause, but the Tory party as a whole would revolt at the mere whisper of such an idea as attacking the brewers and tide-house interests."

M. CAMMELL ACQUITTED.

The Simcoe Sensation Has Petered Out in Pretty Short Order.

Simcoe, Ont., Oct. 30.—The case of Mrs. Ben Cammell was dismissed by the Police Magistrate to-day, there not being sufficient evidence produced to commit.

DISASTERS AT SEA.

Crew of a British Vessel Picked Up—A Captain Washed Overboard.

London, Nov. 1.—The British steamer Pecona, Capt. Mills, which arrived at Gibraltar to-day from New York, landed the crew of the British barque Udshire, Capt. Dennis, from Bridgewater, N.S., for Port Antonio, The Udshire was previously reported as abandoned at sea.

The British steamer Isle Worth, from Pensacola, via North Sydney, N.S., arrived at Newcastle, Eng., to-day. Her commander, Captain Matthews was washed overboard and drowned off Dunnet Head during the heavy weather experienced off that point.

Bullion for the States.

London, Nov. 2.—The amount of bullion withdrawn from the Bank of England on balance to-day is £52,000, and is for shipment to the United States.

SISTER THERESE

Lady Superior Sacred Heart (Grey Nuns) Convent, Ottawa.

A TEST OF RYCKMAN'S KOOTENAY CURE

In the Institution is Followed by an Endorsement.

Sacred Heart (Grey Nuns') Convent,
OTTAWA, March 4, 1896.

S. S. Ryckman, Esq., [illegible]
Hamilton, Ont.

DEAR SIR,—It is with great pleasure that I write to inform you that your valuable remedy, "Kootenay Cure" has been tried in our institution with most gratifying results. I can say this, as I am one of those who have conscientiously tested it. I have no hesitation in recommending it as a wonderful medicine for Rheumatism, a disease which has baffled medical science for so many years. To my own knowledge also the remedy has proved most beneficial in cases of Dyspepsia.

I have much pleasure in communicating the foregoing testimony as regards the benefits which I know "Kootenay Cure" has conferred on many sufferers, and you have my full permission to make use of this testimonial in any way you may think fit. SISTER THERESE. Lady Superior.

NEWS BY CABLE.

Denmark Said to be an Ally of Russia—The Muscovite Holds the Key to the Baltic.

London, Oct. 30.—A despatch to The Pall Mall Gazette from Copenhagen says an entente was concluded between Russia and Denmark during the Premiership of M. Estrup, who retired from the Presidency of the Danish Ministry in 1894, which places at the disposal of Russia, in the event of her engaging in war with Germany or in a war involving France and Russia against the Dreibund, the whole of the available forces of Denmark, with power on the part of Russia to occupy Copenhagen and other Danish harbors and fort works.

In return, Russia guarantees the integrity of Denmark, with the restoration of the Danish Schleswig to the kingdom.

On the part of France and Russia the scheme, in the event of an attack upon Germany, makes Copenhagen the point of concentration for the allied fleets and army corps, the latter of which could be landed in Germany at an unexpected point within a single night.

The Pall Mall Gazette adds: "The Government in Berlin have for a long time scented this danger; hence they expedited the completion of the Baltic-North Sea canal and made other preparations. The agreement explains why, though the annual budget of Denmark was a little over £3,000,000, millions were spent in fortifying Copenhagen, which is now provided with the best modern armaments and the latest projectiles and fort works, thus securing to Denmark the key to the Baltic."

London, Oct. 30.—The Morning Post will to-morrow publish a news agency despatch from Copenhagen, saying that an official denial has been given to the story published by The Pall Mall Gazette of an entente between Russia and Denmark.

False Statements Made to Reap Large Profits.

Diamond Dyes Hold the Fort Everywhere.

The false statements, "just as good as the 'Diamond,'" "Put up same as the Diamond Dyes," used by many dealers in order to sell worthless and crude dyes, are sufficient to stamp them as mean and dishonorable. Such men are capable of any form of business dishonesty.

The common dyes are offered to you simply because the dealer makes a far greater profit out of them than he can from the sale of Diamond Dyes.

Ladies, you who buy these common dyes are the sufferers; the dealer pockets your money, leaving you to chagrin, loss and disappointment.

The experiences of long years point to the Diamond Dyes as first and best. With them your work is well and quickly done, and you derive a satisfaction that you have saved time and money. Use only the "Diamond"; beware of the *just as good* kind.

Awful Drop of a Section Boss Who Lost His Balance on a Train While Crossing a Bridge.

New York, Nov. 1.—Charles A Heaganey of Bound Brook, N. J., fell from the rear of a Lehigh Valley passenger train Thursday night as it was passing over Green's Bridge, N. J., and dropped to the tow-path of the canal below, a sheer fall of 250 feet. He is still alive in St. Luke's Hospital, South Bethlehem, Pa.

Heaganey is a middle-aged man and railroad section boss. He went to Easton, Pa., Thursday night and took part in the sound money parade. He started for his home on the special train which left about midnight. It was crowded and he stood on the rear platform of the train. As it was passing over Green's Bridge he lost his balance and fell.

How he escaped instant death is marvelous. He lay on the bank until yesterday morning at 7 o'clock, when he was found by Conductor Bigley, who was returning from Perth Amboy with the empty coaches. One leg was broken, three ribs were fractured, one eye was cut, and Heaganey received internal injuries that may prove fatal.

Death of Hector Cameron, Q. C.

Hector Cameron, Q. C., president of the Cobourg, Northumberland & Pacific R. R., now being built, died at Cobourg last night from an attack of dropsy. He was born at Montreal on June 3rd, 1832, and educated at King's College, London, and at Trinity College, Dublin, where he graduated B. A. at Toronto University. In 1867 and in 1874 he contested North Victoria against Mr. John McLennan (now sheriff), and was defeated on both occasions, but the election of '74 was twice protested and Mr. Cameron finally succeeded in gaining the seat, which he held for 12 years as a zealous supporter of his leader, the late Sir John Macdonald. In 1872 Mr. Cameron was called to the bar of Upper Canada. He was 64 years of age, and his death will be regretted by many of the old-time conservatives of North Victoria.

American Canoe Association.

Mr. J. N. MacKendrick, of this town, says the Galt Reformer, has had a well merited honor conferred on him. He has for years been an enthusiastic canoeist, and there was a time when the MacKendrick Bros., H. F., W. G., and J. N., stood in the front rank of the followers of this excellent sport. Mr. J. N. MacKendrick attended the recent meet of the American Canoe Association, at Grindstone Island, St. Lawrence river, and it was on this occasion that his past services in the interests of canoeing were recognized, he being unanimously selected for presentation to the executive as commodore for the 1897 meet, which goes to the Northern Division. Mr. MacKendrick was reluctant to accept the office, but on being pressed by his numerous friends and admirers, consented to act in that capacity. At the meeting of the executive committee Mr. MacKendrick's nomination was accepted, and that gentleman elected to the high office of commodore.

A MESSAGE TO MEN.

Proving that True Honesty and True Philanthropy Still Exist.

If any man who is weak, nervous and debilitated, or who is suffering from any of the various troubles resulting from youthful folly or excesses of overwork, will take heart and write to me, I will send him confidentially and *free of charge* the plan pursued by which I was completely restored to perfect health and manhood, after years of suffering from Nervous Debility, Loss of Vigor and Organic Weakness.

I have nothing to sell and therefore I want no money, but as I know through my own experience how to sympathize with such sufferers, I am glad to be able to assist my fellow-beings to a cure. I am well aware of the prevalence of quackery, for I myself was deceived and imposed upon until I nearly lost faith in mankind but I rejoice to say that I am now perfectly well and happy once more and am desirous therefore to make this certain means of cure known to all. If you will write to me you can rely upon being cured and the proud satisfaction of having been of service to one in need will be sufficient reward for trouble. Absolute secrecy assured. Send 5 cents in silver to cover postage, and address Mr. Geo. G. Strong North Rockwood, Mich.

VARIETIES.

There are over 3,000 uniformed policeman in New York city.

The only permanent cure for chronic catarrh is to thoroughly expel the poison from the system by the faithful and persistent use of Ayer's Sarsaparilla. This wonderful remedy proves successful when all other treatment has failed to relieve the sufferer.

Before you attempt anything consider what you can do.

CASTORIA

For Infants and Children.

HE WAS OBLIGING.

The Sheriff Did the fair Thing and he Returned the Favor.

When the sheriff went over from Golden City to Lucky Valley after Jim Sanders, who was wanted for shooting Dan Williams in a quarrel over a game of cards, he didn't even take a gun along. He found his man in a saloon and asked him to step up and have a drink. Jim complied, but kept a hand on his gun. When they had drank they sat down and the sheriff told two or three funny stories. Presently the puzzled Jim broke out with:

"See, here, Joe, did you come over after me?"

"Waal, I thought you might want to jog back along with me."

"Not much! I'll never be taken alive."

"Then that settles it. Let's have another drink."

They drank again, and the officer told a very funny story about a tenderfoot's experience in Golden City. Jim laughed as loudly as the others, but presently grew serious and said:

"Say, Joe, you can't take me alive."

"Waal, we won't worry about that, Jim," was the reply. "Let's have another nip and then a game of cards."

The game lasted until the sheriff had lost about $20. Then he ordered drinks and sang a song. When the song was finished he said:

"Jim, hevn't I made things pleasant for you to-day."

"You hev, Joe, and no mistake."

"Treated you like a gentleman, hev I not?"

"You certainly hev."

"That's my way of doing things. Now, I wan't you to treat me like a gentleman. Go back to Golden City with me."

"But I shot Dan Williams over there."

"Of course you did."

"And they wan't to hang me."

"Of course they do, but that's nothing to me. I don't make the laws. I was sent out after you, and I want to take you back. I could have sneaked in and got the drop on you, but I know'd 'twould hurt your pride. Haven't I been tender with you, Jim."

"You hev, Joe, but I don't want to be hung."

"I suppose not, but see how nice I've used you. No other sheriff would have done it.

"No, I reckon not."

"Of course not. And if you are hung, won't I boss the job and make it as easy as possible? Just come right along to oblige me, Jim."

"Would it be a great favor to you?"

"It would, and it would show me that you were a gentleman to boot. I'm a gentleman myself, and I can appreciate a gentleman."

"Waal, Joe," said Jim, after a moment's thought, "I did say I wouldn't go, and I did think I didn't want to be hung, but to oblige you and to show these critters that I know what good manners is, I'll go along with you."

And ten days later Mr. Sanders attended a necktie social and was left behind when the others started for home.

Fibre Chamois.

Stormy Days won't matter...

when you have clothing that keeps you warm in any weather. Just a layer of Fibre Chamois through your coats, vests or wraps provides a healthful comfort that will last all winter, no matter how severe the weather. The waterproof Rigby process makes it impenetrable to rain or sleet, its light weight leaves you free and unburdened so that any exercise is possible and its non-conducting properties keep out every whiff of cold air or frosty winds. It only costs a few extra cents, so for health and comfort's sake have it put in all ordered clothing and only buy the ready-to-wear garments which bear the Fibre Chamois Label.

Only 25 cents a Yard, and always find the Label.
