THE CANADIAN POST Printing House. Lindsay, Ont.

LINDSAY, FRIDAY, NOV. 20, 1896.

As to the Matter of Tariff Legislation.

Senator Brice Believes Republicans Will be supported by Some Free Silver Men-Mr. Sherman Has Nothing to Say for Publication-Dingley is Non-Committal.

Washington, Nov. 16.-With a view of ascertaining the views of the leading men in Congress as to the probability of tariff legislation in the next session of Congress, and as to the likelihood of an extra session, the Washington bureau of the United Associated Presses has sought the written opinions of a number of prominent Senators and representatives. The replies received show quite a diversity of views and are exceedingly interesting. A few of them

are as follows: Senator Calvin C. Bryce of Ohio says: "While some of the free silver senators, who have heretofore prevented the passage of the Dingley bill with such amendments as may make certain a sufficient revenue, will, in view of the result of the election, probably vote with their Republican brethren, it is immaterial whether they do or not, as in my opinion a sufficient number of sound money Democratic Senators the Republicans to pass the necessary tariff legislation in the 54th Congress to supply the existing deficit in the revenue. I at least shall vote and I understand that Senator Gorman - and a number of others occupy the

same position." Senator Brice's colleague, Senator says: "In the present condition of affairs I do not care to express my opinion as to the proper tariff and financial legislation of this or the next Congress."

Senator W. B. Allison of Iowa says : "I hope the Dingley bill will pass with such modifications as may be necessary to secure sufficient revenue to carry on the government. If this can not be done during the 51th it seems to me an extra session of the 55th Congress is inevitable." Senator Hawley of Connecticut says: "The possibility of adopting a satisfac-

tory revision of the tariff such as might be expected to remain undisturbed at the last session of the 54th Congress seems to me very doubtful.' Senator Walthall of Mississippi says: "I see no reason to justify the expectation that there will be any important tariff or financial legislation at the ap-Mr. Dingley of Maine, chairman of

preaching session of Congress." the House Committee on Ways and Means and leader of the House, refers is recently published interview. in on he expresses the opinion that was not the slightest hope of the passage of the so-called Dingley bill by the Senate at the next session of Congress, and that the House would not propose anything further in this direction at the approaching short session. Covernor Dingley adds: "This covers all I have to say at present."

Ceneral Grosvenor of Chio says: "I do not believe it possible that any material legislation for the benefit of the country can be passed in the 54th Congress. I do believe that the Republican party will be in a position in the both Congress to save the country from bankruptcy and the industries of the country from destruction." Representative Charles H. Russell of Connecticut, a member of the Committee of Ways and Means, says: "The patriotic and businesslike duty of the

coming session of the 54th Congress is to provide revenue for the needs of the government. That should be done by a proper and reasonable increase of customs duties. It could be effected by the adoption of a revenue measure which the House passed at the last session, or some measure on the same Despite the fact that there is no probability of either this Congress or the

next passing a free ship bill the Comreport refers prominently to the sub-ject, and urges the necessity for the pesetas; in Bilboa 20,000,000 pesetas, and ject, and urges the necessity for the passage of such a measure. Although the official tigures of the recent election have not in all cases reached Republican Congressional headquarters, the result of the contests in the various congressional districts is known with sufficient exactness to warrant the announcement of a summary of the political divisions in the House of Representatives in the 55th Congress. This shows 207 Republicans, 127 Democrats and 12 Populists.

Pays a Visit to Dr. Adler's The Terms of the Agreement He Will Not Have to Die on With Manitoba School in New York.

Investigated by the Ontario Minister - The Head of the Institution Explains the System of Manual Training-How the Capabilities of the Children are Tested.

New York, Nov. 15 .- (Special.)-Hon.

Geo. W. Ross, Minister of Education for the Province of Ontario, who is on than cod-liver a visit to the United States in search Scott's Emulsion is of light upon educational methods, visited the Workingmen's School of the Society for Ethical Culture Thursday, and inspected the system of manual training pursued there. Canada has its problems like the United States. One of them, according to Mr. Ross, is Belleville, Ont, the ever-growing neglect of the farm and the shops by the young. They rush to the office, to the desk and to professional life. They make the cities grow when the farms are deserted. The symptom is not unfamiliar on this side of the lakes. It is with the hope of developing a new interest in the slighted, but vital pursuits, that the plan of introducing manual instruction in the Canadian schools is under consideration, and it was this that brought the Minister to the States. He had visited Boston, and came straight from that city to see Dr. Felix Adler's work. set at our own risk. Register your letters when He told the doctor that they hoped in Canada to begin with the youngster at

Dr. Adler shook his head. "It is too late," he said ; "better late than never, to be sure, but why not begin earlier? Why not let the faculty develop with the rest, grow like a tree ? Don't saw gartens do. Then let it go right along parents belonging to his religious de- cil was signed by the Deputy Goverwith the school instruction after the nomination, provided the parents are nor yesterday and the sheriff of the child enters the primary class. It will gor address; the name of the town and the state or take no time from the other instruction, only make it easier to digest. It is merely developing the whole boy instead of only one side of him. If you tricts having an average attendance drop the manual training to resume it after four or five years, it is as if you had sawed off the young shoot. It will grow again, but not as straight and symmetrical as if you had not Mr. Ross nodded thoughtfully. The

idea was new to him, evidently, but it had taken root. With Dr. Adler, Mr. Ross went over the school from top to bottom. The building at 109 West Fifty-Fourthstreet was crowded with pupils intent upon their various tasks. The societ; educates 400 children in round num. bers, about three-fourths of them The other children of workingmen. fourth are pay-scholars, who have been admitted within the last few years. Mr. Ross saw, with growing interest, the plan developed by Dr. Adler. In its extreme simplicity it is just what the common school should be, and is not. The kindergarten begins it, and its methods prevail to the very end. The pupils are not stuffed with knowledge they have not learned to digest, leaving their minds as barren as the day they begin, and the real work of education, that of teaching the child to think for himself, undone. They will

work out their own problems. They "learn by doing." The things they do train hand and eye, as well as mind. Their geometry lessons, learned on paper, are worked out subsequently in tin, wood, and eventually at the forge in iron. The while the lad acquires a liking, mayhap, for the trade his brother in the next block rejects. At all events, he will not despise it. Their instructors at the ench are practical men, who know how to impart a charm to the lesson which the dry page can never have. is the question about physics, about natural history? the Laboratory is there for the boys to try their hands

Once a week the class put on heavy boots and with their instructor, Mr. Kelly, tramp over hill and dale in search of specimens and of that kinship with nature that puts back into the lad something of what the city, with its tenements and stone pavements, had robbed him to his hurt. The memories of these tramps crowd the portfolies in the drawing rooms, sometimes with a pathetic interest, as in the effort of the child from across the sea, where Indian corn does not grow, to evolve a Jersey cornstalk out of the tangled recollections of his first autumn trip and of the grain sheaves of his childhood. Mora, instruction is imparted on a unsectarian basis. The whole National Alliance, declared that Engestablishment is unsectarian entirely, and on that basis might, with justice, laim state support, but it has never done so. It is supported entirely by voluntary contributions, chiefly from within the society that has grouped itself about the strong personality of its

leader. Dr. Adler. The noon recess had been reached when the Canadian Minister put on his coat and rubbers and went out, thanking Dr. Adler for an hour and a half of most valuable suggestions. He smiled as he saw the children range themselves by couples in the large hall for a dancing lesson, stepping with all the dignity of knights and ladies to the plunk, plunk of a piano. It is their way of keeping recess in the workingman's school, and tremendously popular it is. "Little men and women," said the finister, and nodded, laughing, when

saw how little they heeded his "It is what we hope to make them," aid Dr. Adler. "Men and women of haracter. If we succeed in that have done what we set out to do we are content." Mr. Ross returns to Canada within few days to put into practice some the suggestions he has received. is school has received attention om the British Govrnment and from ucators in many different lands.

SPAIN IS AROUSED. in Outburst of Enthusiasm Which Will alle of Great Benefit to the

Covernment. London, Nov. 15 .- The Daily News will to-morrow print a despatch from Paris detailing a patriotic outpurst in Spain which s manifesting itself in an eager desire to subscribe to the new internal loan issued by the Government. Ladies are selling their jewelry in order to raise money to help the Government, while the bishops are promising to devote the gold and silver plate belonging to the churches to the same object. Brokors in Madrid have undertaken to dispose of scrip to the amount of 4,000,000 pounds sterling. So creat is the popular desire to take part of the loan that the Bank of Spain and the Bank of Barcelona were opened today in order to receive subscriptions.

Enthusiasm at Madrid. Madrid, Nov. 15 .- The newspapers unaulmously express the opinion that the loan will result in an imposing demonstration of pational enthusiasm, and that all classes will co-operate to cover the amount of the loan, which is nominally 250,000,000 pesetas. The bonds will be guaranteed by the to-morrow. The Bank of Spain received to-day from bankers and companies in Madrid subscriptions amounting to 130,-

of 230,000,000 pesetas. DEATH OF JUDGE BURNHAM.

The Last of the Original Appointees to

Ontario County Passes Away Whitby, Ont., Nov. 15 .- Judge Burnam died here at 6 o'clock to-n ght, iged 79. He was the last one of the riginal appointees to the County offiee in Ontario County.

Ottawa, Nov. 15 .- (Special.) -- Mr. Sif-

ton will be here to-morrow, but his

stay in Ottawa will be brief. He will

be immediately sworn in as Minister

of the Interior and at once return to

Manitoba to seek election. Nomina-

tion in Brandon is fixed for Friday,

One of the Ministers informed me

yesterday that documents showing the

exact nature of the compromise will

not be published until Wednesday or

Thursday of this week, but public in-

qualified, being compelled to take the

jects to such religious instruction, re-

gular school work is to continue until

the close of the school day. In dis-

of 25 Roman Catholic children the

teacher is to be a Roman Catholic, but

fully qualified according to the require-

ments of the Education Department,

while in districts where children speak

French wholly they are to have a

teacher speaking both French and

English, so that they may learn Eng-

lish as rapidly as possible. The read-

ers to be used in such schools must be

bilingual, that is, the selections are to

be printed in both languages, as now is

the case with the readers used in the

French districts of Eastern Ontario, so

that children will grow up from the

first accustomed to the English lan-

guage. The principles involved in the

settlement will be incorporated into

the Provincial Education Act, but no

Dominion legislation will be necessary.

ITALY LOSES THE GAME.

A Treaty of Peace Signed by Which the

Clearly on Top.

Dusky King of Abyssinia is

Rome, Nov. 15 .- It is officially stated that

King Humbert has received a telegram

from Menelek, Emperor of Abyssinia, stat-

ing that a treaty of peace between Abys-

sinia and Italy was signed on Oct. 26. The

cognizes the complete independence of Ethi-

opla. Menelk declares free all Italians

taken prisoners by the Abyssinians during

the recent campaign, but Italy will have to

captivity. Maj. Nerazzi, the special envoy

sent to Menelek by Gen. Baldissera, Gov.

of the Italian forces in that colony, signed

Will be the Punishment Inflicted for the Uniformity Hust be Observed in the Text Killing of Farmer Lingard - Dairy-Books - Provincial Government Will ing in the Maritime Provinces-Have Control and Teachers Must Oarsmen Want Fish Protectbe Properly Qualified-Mr. ed in the St. Lawrence. Sitton to be Sworn In.

Ottawa, Nov. 15.-The Governorin-council has had under considera-Arthur Prentiss, who was sentenced to death at Cobourg for the murder of Thomas Lingard. It has been decided to commute the sentence on Prentiss to penal servitude for life. The grounds taken for commuting the sentence are that Prentiss is only a young man, 18 years of age, that there was no premeditation to murder, and that the act was that of a headstrong and obdurate youth. The prisoner and Linterest in them has been largely discounted. To-night I am in a position gard had a quarrel over rabbits shot to give a fuller synopsis of them than by Prentiss on Lingard's ground-Prentiss would not give up the rabbits the schools in the province to Lingard, who was a very much are to be under the control of the stronger man than himself, and ra-Education Department, existing regulather than yield to the latter he fired tions to apply to schools in Catholic at Lingard with his gun and killed equally as in Protestant districts, and him. The whole trouble did not last provincial inspectors to have complete more than half an hour or so, and, jurisdiction. Uniform text books must therefore, there was no premeditation, be used, and teachers must be properly Mr. Osler, Q. C., had several interviews with the Minister of Justice in prescribed normal school course and regard to Prentiss, the jury having pass the usual examinations. All presented a recommendation of mercy school work is to be of a purely secular to the trial judge, who forwarded the character, and to occupy the whole of same with his report on the case to the schoool day with the exception of Ottawa. Mr. Osler pressed for a new the last half hour, when a minister of trial or commutation. The latter has any religious denomination may visit you start the plan there. DEATH OF REV. DR. SMELLIE.

The Summons Came Suddenly at St. Andrew's Manse on Saturday.

Toronto, Nov. 16. Rev. Dr. Smellie, one of the oldest Presbyterian ministers in Canada, died in this city on Saturday. Deceased came to Canada from the Orkney Islands, Scotland, in 1842. He went to Hamilton, where he preached for about four years., From Hamilton he went to Fergus, where he has labored during the last fifty years with singular suc-He has seen no less than five flourishing congregations formed from his own. He was greatly beloved by his people for his forcible preaching and firm, gentlemanly character. His wife was a Miss Margaret Logie, by whom he had ten children, two of whom died in infancy, and two later. He leaves a widow, four sons and two daughters. His sons are Robert Scarth Smellie of Smellie & Shaw, barristers, of this city; Dr. Thomas F. Smellie of Port Arthur, George S. Smellie, Vancouver, B.C.; A. E. Smellie, Binscarth, Manitoba, Miss Smellie, the youngest daughter, lived with her father. The deceased's widow holds the honor of being the first to form a Woman's Missionary Society in new convention abrogates the Uccialli treaty, by the terms of which Italy claim-Canada. The late Rev. D. J. Macdonnell was a son-in-law of Dr. Smellie. ed a protectorate over Abyssinia, and re-

LIVED 120 YEARS.

Henry Blankinship of Hopkinsville Said indemnify him for their support while in That Was His Age-He's Dead Now. ernor of Erythrea and commander-in-chief

Hopkinsville, Ky., Nov. 15.—Henry Blank-inship, who asserted that he was 120 years old, died at his home near Fairview, 10 miles east of this city, last night, of a complication of diseases. He was born in Virginia, and moved to Kentucky and married a year before the war of 1812, he as-He was the father of 15 children, 11 whom are still living, the oldest past 80 years of age.

POWER FROM THE FALLS.

Electrical Energy of 1000 Horse Power Transmitted 26 Miles to Buffalo.

Buffalo, N.Y., Nov. 15 .- The first of the mercantile product of electrical energy from Niagara Falls to be put to practical use here reached this city as the clocks finished striking the hour of midnight and "step down" point, which is at the Buffalo city line, twenty-six miles from the source of the power, where the potential is reduced and the current is again put on railway company, which employs it for the propulsion of the cars on the street rail- the position of Dairy Commissioner in

HOT FIGHTING IN CUBA.

Weyler and Maceo Said to be Blazing Away at Each Other - Maceo Is Not Afraid.

New York, Nov. 16 .- A despatch from Jacksonville, Fla., says: Cipher despatches just received report a fierce battle in progress in Pinar del Rio. It is believed that Maceo and Weyler have met.

Tolas Estrada Palma, the Cuban delegate, has received a letter from General Maceo, dated 12 days ago, which brings reassur-ing news to the friends of "Cuba libre." General Maceo says he has not the least fear of the results of Weyler's advance, and that the friends of Cuba abroad should be confident of good fortune, notwithstanding the tremendous efforts the Spanish are mak-

conrection with the American Hotel here ing. While Weyler was preparing his trocha," says Maceo, "I was making mine also." He describes what he means by his trocha. It is a narrow passage through containing 48 barrels of coal oil, which was under the charge of C. M. Peters, hardware merchant. This building and contents were burned. Three G.T.R. freight the mountains and the only way in fact to reach the strong position where the Cubans have their supplies of ammunition, and two factories for making powder and cartridges. The Spanish troops, Maceo says confidently, cannot get to the Cuban stronghold. The passage admits only one man cirders into the air and carried them until they expired. One cinder was an excepat a time in front, and besides that in the space of half a Spanish league the Cubans have built 400 trenches, and sown them with dynamite bombs. If Weyler could force the pass, Maceo says, he would only meet destruction half way. of lumber, but the Midland fire depart-ment is one of the best-equipped among

"I repeat," said Maceo, "that you ought not to have any uneasiness about me. Even in the case that Weyler could direct against us such an enormous army that I could not meet it in the field in open battle, as I have with success until now, I will resort to guerilla warfare, and dividing my troops into small bodies of fifty men each, I will give hard work to even 200,000 soldiers." This letter has created much joy among the Cuban patriots here.

Babe Without Bones. Warren, Pa., Nov. 10 .- A boneless child is the latest curiosity discovered by Councilman Conarro, who is authority for the statement that the child, whose name is Parks. is composed of nothing but skin and muscle. The family is poor and the child will be taken in charge by the County Con missioners. ATTACKED IN A PIG STY.

Mr. Sifton Was Ready for the Ceremony

A Canadian Dairyman From New Zealand on His Way to England - Good Opening for Trade With Porto Rico-The Cauadian Emigrants to Brazil Faring Badly.

Ottawa, Nov. 16 .- Sir Henry Strong, Teputy G vernor was indisposed today, and for that reason Mr. Sifton was not sworn in as Manister of the Interior, although he was ready, having arri 'rd from Winnipeg this afternoon. The hon gentleman registered at the P ssell House. The Cabinet had been called for 4.30 and shortly before that hour the Premier called at the hotel and warmly greeted his future colleague. They then repaired to the Privy Council office, where several of the other Ministers, including Messrs. Scott, Blair, Fielding, Mulock and Davies, were awaiting them. Sir Oliver Mowat was not present, because he was en route to Toronto, and Sir Richard Cartwright is in Kingston. The Ministers were expecting a summons to the Governor-General's office, but presently word came that Sir Hy. Strong, Deputy Governor, was indisposed. Hence the ceremony of swearing in the new Minister had to be postponed until to-morrow morning. Mr. Laurier informed me that the papers on the school question will be given out probably on Wednesday. Mr. J. B. McEwan, Dairy Commis-

sioner for New Zealand, is here en route to England, whither he has been authorized by his Government to proceed for the purpose of reporting fully on the outlook there as regards New Zealand dairy products. Mr. McEwan the Sabbath had passed away. The quan- is a Canadian, and was for some years tity contracted for is 1000 horsepower at a member of Prof. Robertson's staff. It was largely on the recommendation of Prof. Robertson that Mr. McEwan secured his present position over the the wire and carried into Buffalo to the heads of a large number of candidates. New Zealand, and during that time he has organized dairy work in that colony largely along the lines laid down by the Canadian Agricultural and Dairy Commissioner. Up to the present time the New Zealand Government has not given any direct help to farmers and dairymen in the way of bonusing dairy products, but it is a stipulation in the Dairy Products Act of New Zealand that all butter for export must go through the cold store houses provided by the Government, the freezing charges, amounting to about half a cent a pound, being assumed by the New Zealand Government. Last year the colony exported, chiefly to Great Britain, about 3500 tons of cheese and 3000 tons of butter, valued at about \$2,000,000. The method of distribution in Great Britain, however, is very unsatisfactory, and it is wth a view to remedying this that Mr. McEwan purposes spending some months in the Mother Country. He will also study the requirements of the British market and ascertain what

other countries are doing. Captain Spain, of the fisheries protection fleet, returned from the Maritime Provinces to-day. Most of the cruisers have been laid up for the season. Captain Spain states that the catch of fish this year will be considerably below the average, owing to bad weather. The fishermen had fairly good luck in the spring, and also during the past two or three weens, but during the summer they had a pretty hard time of it. There is quite a change taking place in the American fishermen, the destructive seiners are being withdrawn and giving place to hook and liners. There were about 100 of the latter off the coast this year, as compared with about 20 seiners. Two or three years ago the numbers were reversed. The change is due to the heav" expense entailed in fitting out a seiner, as compared with a hook and liner. Last year a clause was inserted in the modus vivendi licenses, stating that any licensed American vessel found selling stores to a vessel not having a license would be debarred henceforth from procuring supplies in Canadian ports. This has had a most salutary effect, compelling vessels which hitherto "divvied up with one or more vessels, to take out licenses themselves. Only 45 licenses were issued in 1895, as against nearly Aged Farmer Lacerated by the Teeth of a 90 this year. Only one seizure was made this year, the Frederick Geering. Captain Spain is delighted with

Pyny Pectoral.

Positively Cures

COUGHS and COLDS in a surprisingly short time. It's a sci-entific certainty, tried and true, soothing and healing in its effects. report In a letter that Pyny-Pectoral cured Mrs. C. Garceau of chronic cold in chest and bronchial tubes, and also cured W. G. McComber of a long-standing cold. W. C. McComber & Son,

MR. J. H. HUTTY, Chemist,
528 Yonge St., Toronto, writes:
"As a general cough and lung syrup PynyPectoral is a most invaluable preparation. It
has given the utmost satisfaction to all who has given the utmost satisfaction to all who have tried it, many having spoken to me of the benefits derived from its use in their families. It is suitable for old or young, being pleasant to the taste. Its sale with me has been wonderful, and I can always recommend it as a safe and reliable cough medicine."
