A short time ago the eldest son, Lewis, hinted to his father that he was thinking of setting up farming on his own account, but Mr. Rice expressed his disapprobation somewhat emphatically, and Lewis felt considerably depressed in spirits over his father's discouragement of his proposal. He did not openly demur very much, but selt keenly the situation, and was noticed to devote more time and consideration than ordinary in reading his Bible. One day, after having his attention rivetted on the Fifth Commandment, he expressed concurrence with his father's opinion on his proposition, and matters seemed to be satissoon again disturbed, however, for Lewis became possessed with the belief that he was more than an ordinary man; in fact, that he was "the Prophet of the Sand Hills," this appellation being no doubt suggested by the nature of the soil in that vi-He further announced a commission he had received. CONFLAGRATION AT BERLIN.

Total Destruction of the Big Factory Owned by Mr. D. Hibner-Heavy Loss to the Town.

Berlin, Ont., Nov. 11.—(Special.)—A terrible fire is raging here which threatens to wipe out several of the largest factories. It is the most destructive fire that has occurred here for years, the large manufactory of Mr. D. Hibner being burned to the ground. The loss will be between \$35,000 and \$100,000. The fire started about \$ o'clock in the first flat. A boy was washing his hands in benzine near a gas jet, when it ignited and caught some other benzine, causing an explosion. An alarm was immediately sent in but it was ten minutes or more before the firemen arrived. The building was three storeys, and the hose could only reach to the second flat. At 11.30 o'clock the fire was under control. Mr. Hibner's factory is completely destroyed, but the firemen prevented the spread of the flames to other buildings. The amount of insurance is not ascertainable at present.
