A YOUNG BOY'S CLEAR CUT ENIDENCE

Few Feet Away. Chelmsford, Oct. 26.—(Special.)—The Magisterial enquiry into the charge against Louise Le Coup Villeneuve, Arthur Chartrand and Phileas Chartand of murdering Felix Amyot Villeneuve, husband of the female prisoner, opened to-day in this village before Police Magistrate W. A. Quibell of Sud-Villeneuve farm on the afternoon of logs, as pointed out by the prisoner, were Tuesday last, the 19th inst., and from about nine or ten feet long and five the details given by witnesses to-day it inches in diameter. across the road, another on the next lot east, while between the road and the fatal spot is the Villeneuve house, and yet not a living creature, friend or foe, neighbor or stranger, was seen by human eye to enter those premises during these fateful moments. The only person that can be found that was anywhere in the vicinity was the wife, and suspicion fell upon her. She was not immediately arrested, but at the inquest held last week she testified in a manner which increased that suspicion in the eyes of the jury to the degree that a verdict of wilful murder was returned against her, and she was placed under arrest. About three-quarters of a mile east of the Villeneuve farm live three brothers, Delpoise, Arthur and Phileas Chartrand. They were neighborly with the Villeneuves, and often, as the evidence to-day showed, helped one another as occasion required. The first words I told her was that father was lying down with two logs on his head and the axe in his skull. She ran out and then told me to get the water. I was afraid and she went back to the house with me. We got the water and then went for help. When I left the hogpen first to go into the field father and mother were there together, and mother started to go to the house as I left. It was half an hour after this that I returned to the hogpen and found father. Father and mother have not quarreled since she had him arrested last spring. I do not know what they quarreled about. Arthur Chartrand visited our place quite a bit and some times when he came drunk they quarreled and fought, but since last spring they had not had even cross words. While I was out in the field I did not hear any noise from the nog pen except check apron that morning. The apron produced looks like the one. Continuing, the lad said Arthur Chartrand only slept at their house once, that

preliminary investigation into the charge against Louise Villeneuve, Arthur Chartrand and Phileas Chartrand of murdering Felix Villeneauve, husband of the female prisoner, on his farm in Rayside Township on the 19th inst., was concluded at noon to-day before Police Magistrate Quibell, and resulted, as predicted in last night's despatch, in the full commitment of the woman to stand her trial at the next court of competent jurisdiction and the discharge of Arthur and Phileas Chartrand from custody. The defence offered no evidence, although the prisoner herself was very anxious to testify, and her counsel had some difficulty in restraining her. The evidence taken to-day was unimportant and developed no new features in the least. Hemas Richer and Joseph Dubrisac, neighboring farmers, living on adjoining homesteads, deposed to being called to the scene when the dying victim was first discovered, the latter adding that Mrs. Villeneauve explained to him that deceased had fallen off the building and bary. The tragedy occurred on the that two logs had fallen on him. These

The New York Central Railway Disaster Under Investigation-Done for Hevenge Not for Robbery - No Sloughing of Roadbed Could Have Caused the Horror.

Coldspring. N. Y., Oct. 27 .- Suspicion that the terrible disaster on the New York Central was the work of a diabolical plot gained strength among the railroad men this morning. "If the embankment of the railroad was torn up by dynamite, the motive of those who did it was not robbery, but revenge, was the startling statement made by one official of the road. The suspicions of the railroad company having been aroused, a vigorous investigation is being made, and at least one man may be arrested to-day. The suspicions of the railroad offi-

A Clean Cut. New York, Oct. 27.-Mr. Depew says this morning that the way in which the roadbed at Garrison was cut away, as clean at the side as if by a knife, certainly suggests dynamite. "That the slide would have occurred naturally," he said, "suggests a convulsion of nature, but convulsions of nature are rare. It is accordingly impossible to say as yet just what the cause was, but if it is a possible thing, we shall find out."

This special form of Ripans Tabules is prepared from the original prescription, but more economically put up for the purpose of meeting the universal modern demand for a low price.

BIRECTIONS,—Take one at meal or bed time or whenever you feel poorly. Swallow it whole, with or without a mouthful of water.

They cure all stomach troubles; banish pain; induce sleep; prolong life. An invaluable tonic. Best Spring Redicine. No matter what's the matter, one will do you good. One gives relief—a cure will result if directions are followed.

The five-cent packages are not yet to be had of all dealers, although it is probable that almost any druggist will obtain a supply when requested by a customer to do so; but in any case a single carton, containing ten tabules, will be sent, postage paid, to any address for five cents in stamps, age paid, to any address for five cents in stamps, forwarded to the Ripans Chemical Co., No. 16 Spruce St., New York. Until the goods are thoroughly introduced to the trade, agents and peddlers will be supplied at a price which will allow them a fair margin of profit, viz. 1 dosen cartons for 60 cents—by mail 65 cents. 12 dosen (144 cartons) for \$4.32—by mail for \$4.82. 5 gross (760 cartons) for \$1.00.
