NORTHWEST CATTLE TRADE.

They Have Turned Out Bad for the Past

Speaking of the Northwest cattle trade this year, Mr. Robert Ironsides, who handles most of the cattle from Manitoba and the Northwest, said: "The cattle turned out bad, as they have for the past two seasons. For several reasons, notably the flies, rain and long grass, they failed to fatten up well, but I may also mention the fact that a great many of the farmers are to blame for the careless manner in which they finished the stock. During the year there was an enormous number of cattle raised in the Northwest, and there would have been a very serious glut if many thousands had not been taken across the line for feeding purposes. In fact, if this outlet had been closed, I believe that cattle in Montreal would have sold at a cent a pound, and the very same stock, too, that they are now getting two and onehalf to three cents for. The shipments to the other side of the water turned out bad, and many of the consignments show losses. The United States stock, on the other hand, was found to be in very good shape, and the result is that the Canadians, owing to nothing olse than the inferior quality, have been selling anywhere from 1-2d, to 1d, a pound under the Americans." Mr. Ironsides was asked if he thought the unsatisfactory results of the year's basiness would likely have a tendency to restrict raising in the future. "No," he said. "The farmers have found out the dying man, as he ceased to struggle | that they can raise and sell cattle to they would net a price in the English market equal to anything the farmers

THE RESULT OF A COLD.

Miss Lizzie Sewell, Newbury, Ont., says :- "1 contracted a severe cold through getting my feet wet. My health failed so rapidly that I was subject to frequent fainting spells, my appetite failed me, and my friends all thought that I was in a decline. Doctors were consulted, but their treatment did not help me, and for nearly two years I was in this low condition. Finally my mother decided that I had better give Dr. Williams' Pink Pills a trial, and the result is that they have transformed me from a sick and despairing girl to one full of health and energy, and I shall ever speak of this great medicine in terms of the highest praise."

HEART TROUBLE CURED.

Mrs. John Sagar, wife of a prominent farmer living near Egan Creek, Ont., says:-"I am glad to have an opportunity to make known to other sufferers the wonder-working powers of Dr Williams' Pink Pills. I was very sick for over six months, and was unable to do work of any kind for that time. I was extremely weak, subject to dizziness, pain in the side and faint and smothering spells. The doctor pronounced my trouble heart disease, and nothing seemed to relieve me until a friend advised me to try Dr. Williams' Pink Pills. I soon found benefit from them, and after the use of eleven boxes was as well and strong as ever I had been, and am now able to do my housework without any trouble. 1 can heartily recommend Dr. Williams' Pink Pills to those troubled as I was."
