The Canadian Lost.

HON. THOMAS BALLANTYNE.

LINDSAY FRIDAY, NOV 26, 1897.

A strong man for the senate is the Honorable Thomas Ballantyne, and his friends are legion. His claims are such is quoted at 93c to 94c Fort William, and that their recognition would be an acceptable compliment to the great industry of which he may without doubt be said to be the founder. Canada to-day would not be to the forefront in the cheese industry but for Mr. Ballantyne, to whose personal

exertions the thousands of Ontario, in fact Dominion farmers, are now deriving a profitable income. He took the risk, freights. CORN—The market is unchanged, with car and they to-day are benefitting by the chances he took. It cannot derogate from he claims of other gentlemen to say this of r, Ballantyne, of whom in fact much more might be justly written.

LEADING COUNTY ROADS.

A project of great importance to the farmers of this county was broached at the November session of the county council by Mr. Jas. Graham, one of the representatives of West Ops and Lindsay, and Mr. Jas. Lithgow, of Verulam. The scheme proposes the adoption by the county council of certain leading roads as may in due time be decided upon as county roads. These would be reconstructed in proper and durable shape, and hereafter maintained by the county. The work of reconstruction would be carried Butchers' cattle, picked lots 3 75 on along the lines explained by Mr. Campbell, the Ontario road instructor. All who heard Mr. Campbell's practical address will understand the kind of work contemplated. A moderate and judicious expenditure a in careful way, ty a shrewd, practical man, would ensure the construction of a permanent roadway of a solid, lasting character, so that a very small expenditure would be required to maintain it in first-class condition for years.

We understand the matter is now brought before the council in order that it may be considered by the township councils and the ratepayers. It would be a great advantage-in fact a great blessing-to the farmers of this county to have the leading county roads put in first-class shape. This advantage would be experienced at all times and by all who have to travel, but particularly would it be an advantage in marketing crops and produce of different kinds.

As a matter of municipal arrangement we believe the work could be done without any serious addition to the rates. The townships would be relieved of certain expenditures, which would hereafter be borne by the county, and the work of construction and maintenance, based on the Campbell plan, with modifications, would be much more effective and permanent. In the nature of things, and without any reflection on the present system, there would be more value and

better work for the expenditure. We understand the scheme contemplates the reconstruction of say fifteen or twenty mile sections of a leading road each year. A few thousand dollars would | wood, hard. be expended each year, and say 40-year Out Chop______0 80 to 0 90 until Jan., 1899, for \$1.00.

provide the money. It is believed this could be done at 3½ per cent, and at that rate no better or more judicious expenditure could be made. The project is at present simply outlined in its leading features, and if gone into the details would have to be carefully considered and arranged. The general idea has been favorably received, and we trust Mr. Lithgow and Mr. Graham will press forward with it. It would be a great benefit to the whole county.

POULTRY FOR ENGLAND.

The shipping of poultry from Canada to the English market has passed the experimental stage, and it is satisfactory doing all in its power to foster the trade. In view of the fact that large shipments Prof. Robertson, commissioner of agriculthe poultry department at the Ottawa Experimental farm, have been holding meetings at various points, having with them specimens of turkeys, chickens, geese and ducks, dressed in the manner

suited for the British market. On Wednesday Mr. Wm. Flavelle received a message from Prof. Robertson stating that a similar meeting will be held here on Monday next, 29th inst., in the council chamber, at 2 p.m. We hope our farmer friends will attend in large numbers, as the style of poultry dressing to be illustrated is much superior to the ordinary methods, and gives the birds more attractive appearance for the local market, as well as for export.

EDITORIAL NOTES.

We wish to remind our farmer friends of the 19th annual meeting of the Ontario Agricultural and Experimental Union, which will be held at the Ontario Agricultural College, Guelph, on Wednesday, Thursday and Friday, Dec. 8th, 9th and

SATURDAY MARKET FARES.

Lindsay Business Men Confer with Mr. M. C. Dickson, G. T. R. District Pas senger Agent, Regarding a Return of the Privilege.

As noted in yesterday's DAILY POST, a conference was held yesterday between a number of our leading business men and Mr. M. C. Dickson, of Toronto, district passenger agent of the Grand Trunk Rail way, on the subject of cheap Saturday market fares. The meeting opened in the Benson house parlor at 2 p.m., when the following, among others, were present Mayor Smyth, Dap. reeve Robson, Couns. Sootheran and Burrows, County Council lor Jas. Graham, and Messre. W. Flavelle, A. Campbell, J. G. Edwards, J. Sateliffe, A. J. Kerr, M. J. Carter, Thos. Brady, Geo. A. Little, R. B. Allan, W. G. Woods, B. J. to note that the Dominion government is Gough, Thos. Armstrong. M. W. Kennedy, Alex. Paton, D Ray.

The town's side of the case was clearly outlined by Messrs. Sootheran, Flavelle, are to be made during the next few weeks | Ray, Graham, Brady and Mayor Smyth. to supply the old country holiday demand, | Sundry arguments being advanced by other speakers. It was shown that Lindture, and Mr. W. G. Gilbert, manager of say had granted \$85,000 to the Victoria Railway under the distinct guarantee that it was to be extended to the Mattawa as a colonization road, and that when the Grand Trunk obtained control the town had generously abstained from pressing its claims, feeling that to do so might embarrass the company. On these and various other grounds the people felt that they were entitled to a return of the privilege of which they had been deprived. Mr. Dickson took advantage of a lull in arguments on the market fares question. Mr. Ray said Lindsay's claims did not felt that the company should take freight and passenger receipts into consideration. There were good reasons for believing that under the new system the returns on this division were not up to the old figures.

The company should also consider the feling of the people of the district. Mr.

Graham could vouch for one phase of it, s the county council at the present session discussed a broad system of macadam roads with the object of promoting better communication between the county and outlying districts. He felt strongly that the abolition of the market fares would result in cousing an antagonistic feeling

Mr. Jas. Graham, after verifying Mr. Ray's statement regarding the county council's action, said he understood that 10th. Single fare tickets have been ar Peterbors was now agitating a scheme of electric rallway communication with Bobcaygeon, the object being to tap the north country trade now enjoyed by Lindsay.

The scheme threatened danger to the Crand Trank. Grand Trunk. The management should to the inevitable, and last month the live agitation existed for C. P. R. connecheadquarters was closed under attachment for a debt of \$250, which its officers declared it was unable to pay. The the town justice, but if they were to lose expenditure he felt there was sufficient enterprise left to make another effort. Dr. Burrows said he had been the first to protest against the railway's action in abolishing the market fares, and later on had requested Col. Deacon to write Mr. Bell, solicitor for the company, relative to matter. That gentleman had communicated with General Manager Hays, who

> DEAR SIS, - Returning herewith the letter you for warded from Col. Dea on, of Lindsay. I may say that as yet we have seen no reason to regret the abolishment of the market fares It may be quite true, as C. I Deacon states, that the trains on Saturdays, the day the market fare were heretofore in effect, are not full, whereas they used to be crowded, but on the ther hand, the business during the balance of the weak is better on all of the trains and at regular rates. which is much more satisfactory from the company's standpoint than to have the buriness of the week concentrated on the trains of one day and at o e-half regular rates. It is only ratural that this state of affairs should not occur to the public who always udge that the road is making a great dea of money when they see fu'l cars They do not appreciate the fact that in most of such cases we would earn quite as much in carrying one balf the number and with con-

From the above Dr. Burrows argued that a mass of statistics would be of no avail unless it could be proved that the traffic is now less than it was. Mr. Dickson said that when he took charge of his department in 1890 he found the cheap market fares in effect, but soon Markh m, Georgetown, Acton, and many others, on the ground that the larger towns and cities were being built up at the expense of smaller places. Eventually composed of the north halves of lots Nos. 11 and the tickets were abclished on all parts of 12, north of Wellington-st, in the Town of Lindsay the system, and the people of Lindsay in the Counsy of Victoria, cont ining half an acre could hardly expect that an exception was

possible in their case. After some further discussion, in the course of which Mr. Flavelle and Mr. Brady gave strong reasons why the G.T.R. should make an exception in the case of Lindsay, it was decided that the facts should be presented to Mr. Hays in the form of a memorial from the council and

COMMUNICATIONS.

A Third Party and the Salary Grab. To the Editor of THE POST.]

SIR,-Election time is drawing nigh apace, and whilst one hears on all sides complaints against the methods of the present council, as yet no action worthy of the name has been taken by the citizens to remedy the crying evil. But the blame for these things should be laid at the right door, i.e., not wholly on the councillors, but on the electors who, year by year, allow such men to fill a position that should be full of honor and eagerly sought for by the very best men our town can boast, instead of being, as now, one that is held up to universal derision.

distinct parties—the one composed of men that other element which-knowing practically nothing-sufferers itself blindly to

What we now need is a third party | composed of our best basiness men, men of acknowledged ability and integritymen who, to their everlasting shame be it municipal matters. The only way for this better element to make its strength felt is for it to unite; well organised, strong enough in itself to insure concerted action, its ends must surely be gained, viz, the selection of men of honor to fill the seats of honor. Once the other two elements realized, as they shortly would, that any shady transactions would lose them the support of the third party, then we might look for cleaner dealings in our council chamber and committee rooms. Think you for one minute that, had such a third party existed during this year, any councilior would have dared to propose such a deliberate malfeasance as was one night mooted in committee?

The time is short, it is true, but even yet there is time to so take action as to insure a vast improvement in the council of '93, and such an improvement as could be wrought by the concerted action of a third party would mean many things to the citizens at large; it would mean lower taxation, better reads, a balance in the for the town's advancement .- Yours, etc., ELECTOR.
