### There Are Some Things

a fellow can't do without; other things he won't do without if he can help it.

One of Britton Bros. "MIDLAND" or "VICTORIA" Watches comes within the latter category. They are our special watches. We have, besides, many other varieties, all the most desirable grades and kinds, in fact. Whether your idea of what is suitable in a watch is an extravagant or a modest one, whether your purse be long or short, we can suit you. You can have either key or stem winding, hunting or open, with gold, gold-filled, silver or nickel cases, in styles and prices so varied that if you really want a watch at all there is no reasonable excuse why you should be without one, and a good one, too. You should see our stock of **LADIES' GOLD and GOLD FILLED WATCHES.** It would be difficult to imagine anything prettier in this line or more tasteful. The styles are in most cases new and unique. We have not said much lately about it, but our optical business is receiving its fair share of attention as heretofore. We sell **SPECTACLES**—anyone can do that, but the main point, the thing that concerns the purchaser most, is that we fit Spectacles. Fit them to your special needs—fit them to your particular eye complaint, so to speak. If there is anything about which you ought to be particularly sure the care of your eyes is one of them. Neglect in this has been the rule in the past and is only too common at present. Most people don't exercise as much care in getting Spectacles as they do in buying gloves, and will purchase from any smooth tongued peddler who, ignorant of everything relating to the matter but the price of his goods, is utterly indifferent to the injury he may inflict upon his customers' eyes. That there was a real need for better methods than used to prevail here has been fully proved by the public appreciation of our efforts in this direction. Thoughtful people who find their sight defective come to us for advice. In all cases it is given free.
