LINDSAY, FRIDAY, DEC. 7, 1894. "BETWEEN THEM, BE IT."

Mr. Onderdonk, a Chicago gentleman, has got the contract for the construction of a portion of the Trent Valley canal from Balsam Lake westward. The "Warder" newspaper applands the government for giving it to an American gentleman, insamuch as the tender was the lowest. We rather agree with the "Warder" in saying that it is in the interests of the general public of Canada that their public works should be done and completed at the lowest possible because he is a Canadian, should benefit I am not surprised at the tone of that let: Sanya, to Alvada Oliver, of the same place pecuniarily at the expense of the general taxpayers; but it is funny to see the profession. He has been simply misin-"tempest in a teapot" which is raised formed. The press stated that Dr. McAlamong the tories. Major McLennan, M. pine had been "gagged" at meetings of the McGregor, P. for Glengarry, set off to Ottawa post | b ard; Mr. Stewart and oth r members of haste to complain at the government statements were not true, but Dr. McAt- Batler, aged 85 years, giving the contract to a Yankee and pine made foolish assertion: -he assumed Rousson.-In Lindsay, on Tuesday, Dec 4th, 1894, the fuss over the matter produces a long health act, he claimed to be ex-efficio a health act, he claimed to be ex-efficio a health act, he claimed to be ex-efficio a

which has been engendered because it When I applied for the position of gaol knows the 'why and wherefore' for bring-surgeon Dr. Allan supported my candida-ture, and I have no doubt he did so honing American contractors into the Dominion. Of cours? the secrets of the tory organizers are not revealed to every one of the rank and file, or even to every one of the representatives of the tory party. There is no one who doubts now that a general election is pending, and the instant the voters' list are complete a general election may be sprung upon the electorate. It is absolutely necessary, to carry on the contest according to tory methods, that there should be a huge bribery fund. In the past, contractors tially, and while I give the doctor full 39 tf. one after the other have been made to credit for good intent, I may write, and bleed. This fact is not fiction, to be particulars.—Yours, etc.,
P. PALMER BURROWS. guilty of an Irishism. It has been admitted over and again, even on the floor of the house, and the system has been applauded and justified by the party in power; but at the time of the terrible boodling revelations a year or two ago the government could no longer resist the demands of the liberals that bleeding contractors at elections times had to end, and so they consented to have an act passed, which is now on the statute books, forbidding under heavy penalties contractors subscribing for election purposes. This statute will reach, and can only reach, British subjects or Canadian con-American gentlemen who do the like, and so it is not difficult to perceive the reason | given the contract. Whether he will put | told, were 37 car-loads, which included 1,400 hogs and up or no, history alone can tell ; but Walker well so expect, when they go back upon all

It becomes the duty of the liberal party hogs sold for on an average from \$3.75 to \$4 per cwt, hogs sold for on an average from \$3.75 to \$4 per cwt, when in parliament in some way or other | \$3.80 per cwt. Thick fat hogs and stores brought 34c to reach cases of this kind. If it became to 3 c per lb, and sows for oredding thrown away at to 3 c per lb. Stags were practically thrown away at to 3 c per lb. It was the old story of rushing to 1 c to 2 c per lb. It was the old story of rushing to sell on a falling market. contractors subscribing to election funds, how much more necessary is it to put an most artive all day. It cannot be said that much stuff impediment in the way of Americans went higher than 3 c per lb, only really choice beeves went higher than 3 c per lb, only really choice beeves going at that figure. Most of the deals were made in doing the like? Recent revelations in the vicinity of 3c per lb, common cattle selling down Toronto have disgusted honest people, markets. and have made the title of aldermen a cattle, 1,000 average, 32 per cwt; 10 cat 1) 990 lbs cattle, 1,000 average \$3.20 per cwt; 10 cat 1) 990 lbs average, \$3.20 per cwt; 4 helfers, 980 lbs average, \$3.20 per cwt; 4 helfers, 980 lbs average, \$3.20 per cwt; 4 choice cattle, 1,000 lbs average, 34c per per cwt; 4 choice cattle, 1,000 lbs average, 34c per lb and unfortunately the aldermen who have by over on the deal; one car-load rough cattle, 1,200 been found guilty have not a party at lbs average, 2½c per ib.

Sheep and sambs—These were not so plentiful to—Sheep and sambs brought 3c per ib, as also day. Good grain fed lambs brought 3c per ib, as also day. Good grain fed lambs brought 3c per ib, as also day. Good grain fed lambs brought 3c per ib, as also day. Good grain fed lambs brought 3c per ib, as also day. Butchers' sheep sold for \$2.50 to \$3 per head, with government at Ottawa, Sir Adolphe barely any moules Caron boasted on the floor of the house, | are wanted,

amid the cheers of his supporters, that he would take another \$25,000 if he got the chance from a railway which had been subsidized by parliament, and so, to the shame of honest people be it said, immorality is rampant because it receives the plaudits of the party in power, who benefit therefrom.

It has been said that the tenders put in by Canadians, at least many of them, were at the lowest possible figure, and it has surprised a good many-including local men-that Onderdonk's tender was so low. The men so surprised are very guileless. They have not yet learned the wily ways of Haggart at Ottawa. Do they know that to secure a contract it is necessary to tender about 25 or 30 per cent, less than the work can possibly be done for. The tenderer knows all the time that this 25 or 30 per cent. will be fully made up in the payment of extras, with a very large margin to spare. Takes for instance, the Langevin block at Ottawa. The contract price was \$295,000, but the extras amounted to \$390,006.64. Everybody knew at the time the work could not be completed for the first named sum, but the scales fell from the eyes of the innocent tenderers when they saw the amount claimed for extras. This is the system which prevails at Ottawa. Extras are expected to be paid for by the government, and the government is a good demand and the market was firm at \$5.25 to never disappointed. Out of these extras—as shown by the Langevin investiand most popular Canadian Co., gation-are returned to the government huge sums for the purpose of carrying on their elections. It was at this sort of thing the act of parliament was aimed to prevent contractors from subscribing to election funds, but that statute becomes a dead letter when Yankees come in and secure the contracts. It is as plain as the nose on a man's face that the government have become desperate. From the Atlantic to the Pacific they are adopting the same methods, holding out inducements to local men at the expense of the public taxpayer for securing, if possible,
