Canadian LINDSAY FRIDAY, DEC. 13, 1895

President Cleveland on the Lake Fisheries,

HE SHOWS LACK OF KNOWLEDGE

And the Marine Record Points Out His Blunder-Judgments Delivered in the Supreme Court-Gen. Booth in the Antipodes-The Sco Canal Traffic.

Ottawa, Dec. 9 .- President Cleveland's comments upon the action of the Fisheries Department here in seizing American fishing vessels found illegally fishing in Canadian waters of the great lakes created much amusement in official circles. The President suggests the appointment of a commission to define the boundary line. The Marine Record of Cieveland is candid enough to bring the President to time. In its latest issue that paper rays Grover means well, but he is on the wrong tack. His ideas for making the Loundary line indicate that he needs to take a trip up the lakes. The bounline was long ago determined, and the Canadian revenue cruisers knew their position every time a seizare was made. The Record adds that what is needed is action by Congress leading to national control of American lake fisheries, and an understanding with Canada which will lead to similar legislation on both si les of the lakes. The Dominion Government has complete control of the Canadian mland fisheries, for the present, at any rate, but the trouble in the United States is that each State has separate

fishing jurisdiction. According to the latest advices recelved here, Gen. Booth, who is now in Tasmania, has been telling the public that his over-sea scheme "hangs fire." He had not, he said, yet fixed upon a site, and was still looking for one. He was inclined to go back to his first love-South Africa-where he had been presented with 20,000 acres of land beautifully situated, with a fine climate, by Mr. Cecil Rhodes. It will be remembered that when the general visited Ottawa last year he talked with some of the Ministers about selecting a site in Canada for his Salvation Army colony, but Mr. Daly informed our correspondent to-day that no formal request had been received by the

The Lake Carriers' Association is preparing a petition to the Government asking for new lights and changes in lights in the vicinity of Point Pelee, Lake Erie, where many strandings occurred during the past season. The Government is asked first to move the life saving station, now on Pelee island, to a point on the mainiand, as accidents in this vicinity for some time past have occurred near the point and in places where wrecks could not be seen from the life saving station as at present located, and secondly, it is proposed to remove the light now on Pelee Island to the middle ground. A third request is for the establishment of a light ship to the southward and eastward of Point Pelee, where 20 or more vessels have stranded during the past season. The Government is also asked to station a lightship or large buoy on Little Point, a dangerous spot in this vicinity. In the channel between Bois Blanc Island and Amherstburg. Detroit River, there are numerous shoals that must be removed before full advantage can be taken of any part of the 20 foot channel improvements, and the authorities are asked to put dredges at work at this point as soon as possible.

been called to the fact that large quantities of goods purchased in the United States are being sold on the northwestern coast of British Columbia, none of which supplies have paid customs duty. Hon, Mr. Wallace has under consideration the securing of a cruiser to be placed in British Columbia waters. It is thought that the expenditure in procuring and maintaining such a vessel would be fully Justified by the increased revenue. Reports have reached the Fisheries Department that parties living in the vicinity of Ste. Rose, Laval County, are using explosives in the rivers and Streams for the purpose of killing fish. The names of some of these individuals are known and the department pur-

Mr. Schreiber, Chief Engineer of Railways and Canals, has received full returns of the traffic through the Canadian Soo canal from the opening of navigation on Sept. 9th to Dec. 6th, inclusive, the last day on which this canal was open. The total number of vessels which passed through was 1150, of which 604 were Canadian, and 595 United States. The tonnage of the Caradian vessels was 126,534, and of United States vessels 623,092. Of the freight carried through the canal the total tonnage was 595,837, of which 362,268 tons were coal, copper, silver and iron ores, and 180,171 tons grain, flour, malt, salt, clay bricks, etc.

The Fisheries Department received an application to-day from the captain of the Edward Grover, a United States fishing vessel at Halifax, for permission to purchase a cable in order to enable it to reach home. The vessel did not passess a Canadian license. but as the cable was necessary for the safety of the vessel, she was al-

The mounted police have not yet secured the Indian who shot and killed Sergt. Colebrooke near Duck Lake some weeks ago. The Indian, a young buck, about 21 years of age, is reported to be as cunning as a wolf, and goes by the high-sounding name of Al-mighty Voice. It is thought that he is hiding in one of the northern reserves. The police hope to capture

The meeting in the afternon at Sundreland, a Conservative stronghold, was satisfactory from the point of view of the Ministerial candidate. The audience was for the most part sympathetic, though there was a restraint to its enthusiasm.

By far the most interesting meeting was that held in Beaverton to-night, when the Ministers confronted spirited opposition upon the platform and in An incident occurred at the outset.

By invitation of the promoters, Mr. Frank Pedley was present on behalf of Mr. Gillespie, and Mr .J. ckie Wilson on behalf of Mr. Brandon. The Ministers insisted that these gentlemen should first address the meeting for half an hour. The representatives of the Opposition candidate would not consent to this, whereupon the chairman called upon Mr. Pedley to

Mr. Pedley said that it was the first time he had ever been asked to open an opponent's meeting. On the platform were two of the ablest speakers in Canada, and he considered it only fair that one of them should begin by stating the policy of the Government, the other being given the privilege of winding up the meeting. This suggestion was greeted with the applaus of approval, but still the Ministers would not yield. The chairman introduced Mr. Wilson, who characterized it as the most peculiar proceeding that had been indulged in since the campaign began. He insisted that one of the Ministers should open the meeting. There was another outburst of applause, whereat the Ministers yielded with as good a grace as possible, and Mr. Foster consented to proceed. Mr. Thomas Treleaven, Reeve of Beaverton, presided at the meeting here

to-night, which was large and suffi-

interesting. After the incident which has been alluded to, and which resulted in a Ministerial defeat, Mr. Foster proceeded with his speech. He stated very frankly that he would not attempt to convert any Grits who might be present. He directed his remarks to the Conservative Patrons, whom he sought to reclaim. "As the Grit candidate is not supposed to be in it, I'll reserve my remarks for the Patron,' he said. Then he went on to present the Conservative policy and to reply to the criticisms which had been leveled against it by Patron speakers. He pointed out to the Conservative Patrons that while their candidate, if elected, would not exert any appreciable influence upon legislation, there might be great danger of smashing the Conservative party and putting the

he had eaten a carload of mutton. If all Mr. Foster's statements were like this the people would have to take them with a grain of salt. Mr. Wilson repeated his assertion that Australian mutton was sent as far east as Montreal, and amid tremendous applause he held aloft a fin of this article of food, which had just arrived from that city, obedient to his order. "This is gospel truth," he cried in triumph. saying that I had eaten a carload of mutton." Mr. Wilson contrasted the treatment meted out by the Government to the farmer with that accorded the manufacturer, showing that while the former is taxed up to the hilt upon the commodities that constitute his raw material, the latter is allowed free raw material, and reaps the advantage of a high tariff on his products. Mr. Pedley, too, was most cordially

received by the supporters of Mr. Gillespie, who, too, with quite numerous. He began with a criticism of the Finance Minister for failing to say a single word in explanation of the reason why the Government is asking the people of North Ontario to elect a supporter for a sixth session. The reason was that it was proposed to deal with the Manitoba school question. The one thing that was important in choosing a representative for the sixth session was to find where the candidates of the Government stands on this question. When the leader of the Government in the House of Commons asked the people of North Ontarlo to support Mr. McGillivray he must have some understanding whereby Mr. Mc-Gillivray should support the legislation to be propsed by the Government. Mr. Gillespie was the only candidate who had come out definitely upon the point. He had declared that if he were elected he would vote against remedial legislation. Mr. Pedley made a most effective speech in reply to the Minister of Finance, exposed the economic erros upon which the Government's policy is based, and laid bare the blemishes of its administration. He was given a rousing cheer at the

It was wearing on toward midnight when Dr. Montague arose to speak. He set out with a defence of the Senate, saying that the safest and best form of government always had two chambers in its Parliament. The Ty of the Patrons for the abolition of the Senate was simply a trap, and nothing else, to catch a few farmers. He said tion of the Governor-General's salary was simply demagogue. He had seen trades strikes in sympathy with the a good many Liberals who were ashamstriking housesmiths was declared to-day at the Lexington-avenue power so ashamed of his that he had not house. One hundred and seventeen mentioned it. If the people did not elect Mr. McGillivray they would be giving a certificate of character to the Liberal policy. Dr. Montague now turned his attention to the Patron platform, and proceeded to catechize Campbell of the Inman Tug Line of Duluth was lost of Huron Island, 40 Mr. Wilson as to the trade policy that his party proposed. Mr. Wilson defined the policy to be a tariff for revenue, so adjusted a to fall upon the luxuries of life, and not upon the necessaries of life; and yet, said the doctor, he complained of the mutoon that came into would remove the duty upon such necessaries of life as beef, pork, butter, etc., he replied, "Yes." Dr. Montague said that if this was the policy of Mr. Wilson it was not the policy of any other farmer in Canada.

New York, Dec. 8.-Ballard Smith cables from London to The World: The statement reaches me on what seems to be full authority that the British Board of Agriculture has resolved upon prohibiting the importation into Montague came out by the Midland | the British Isles of live sheep from Railway into the constituency. At either the United States or Canada. -in other words, the Minister of Agmeetings. They reunited in the evning | lish sheep-raisers which will wait upon him next Wednesday. The ostensible reason for this action is the prevalence of the scab disease among North American sheep, but the real motive is the imperative demand upon the present Conservative Government from the rural classes-to which the Government really owes its existence -for protective measures in behalf of

will alter the public feeling toward

An exhaustive governmental inquiry was made recently regarding the scab disease, but experts refuse to certify that it is contagious or infectious. Moreover, it appears that though this disease has been prevalent in England many years, no measure has been taken by the state to extirpate it, as is done in cases of really contagious diseases among live stock.

A vigorous protest, I hear, will be made by the agents of the Dominion Government, but so far no similar action seems to be contemplated by the Government of the United States. My information is that the Salisbury Cabinet is determined to enforce the order, whatever may be the foreign opposi-

The export of live stock from the United States to Britain is, I believe, considerable.

book, but so long as England has no tariff he will not be able to form a British Zollverein or bring about an imperial federation.

abroad have exhausted English patience, and the lock-out will probably Conference.

Friends of American shipping who have favored mail subsidies and opposed foreign-built navies and merchant fleets are not, after all, so un-English as they have been made out.

The Cold Stopped Both of Them. Toledo, O., Dec. 8 .- Fred Greene of Minneapolis and George J. Johnson of Saginaw, featherweights, fought 16 rounds to a draw this afternoon in a tent pitched near the Michigan State line, north of here. Darkness and intense cold put a stop to the contest. Greene is said to have had the best of the mill and would have won out in three more rounds.

Gales in Italy. Rome, Dec. 9.-Terrific gales have prevailed throughout Italy and along the coasts within the last few hours. Twenty or more wrecks are reported from various seaports, in which there was great loss of life.

SLAUGHTER OF ITALIANS. Major Tosselli's Column in Abyssinia Surprised and Cut to Pieces by

Native Warriors. Rome, Dec. 9.-The Government-made the announcement in the Chamber of Deputies to-day that the five companies of Italian soldiers, composing the column under the command of Major Tosselli operating in Abyssinia, had been surprised and surrounded by a force of 25,000 natives and that only a small potion of the command has succeeded in breaking through the beleaguering lines and making their retreat to Makalle. The fate of Major Tosselli and that part of his command remaining with him, is as yet unknown. General Baratieri, commanding the Italian forces in Abyssinia, is concentrating his troops at Makalle, and is prepared to repel the forces of the enemy, which are moving in that

emotional effect upon the Chamber. The Cabinet to-day discussed the sit nation of the Italian troops and decided to send reinforcements, ammunition and artillery to them by the first transport, which will probably start o-morrow.

The public is much excited over the news of the defeat. It is supposed that Ras Makonnen's recent overtures for

nondi has safely reached the vicinity of Adigrat.

A Terrible Slaughter.

London, Dec. 9.—A despatch from Rome to the Central News says that the force that went to the relief of Major Tosselli repulsed successive bod-ies of Abyssinians, but could not reach was Wm. McCord a farmer who had been Major Tosselli. The latter's troops had as the enemy learned this they charg-ed upon the Italians, nearly all of whom were massacred. It is known dent found Mr. McCord ploughing in the that 14 Italian officers and 700 men were killed, while 300 are missing. Gen. Baratiori is hastening to engage the had worked the cure. BURGLARS CHASED. Toronto Police Gave the Waterdown Officials the Tip-Nine Shots Fired Dur-

ing the Chase.

Hamilton, Dec. 9 .- On Friday the police authorities of Toronto notified the police at Waterdown that there would be an attempt made sometime within a week to rob some town between Toronto and Hamilton. When the information came three special constables were sworn in for special night duty, but they patrolled the village in vain on Friday and Saturday nights. About 2.40 this morning as Joseph Carson, one of the officers, was patrolling his beat he saw a man in the doorway of W. H. Crooken's general store. The constable called out, and the stranger ran. Carson and the other officers, S Harvie and H. N. Langton, pursued him, and after running a short distance the stranger turned about and fired at the officers. At the report of the pistol a second man ran from the rear of the store and joined his companion. The officers pursued the two men in toward the city, firing at them occasionally, and dodging bullets from the burglars. In all nine shots were

On the road the two strangers were joined by a third, who was in waiting with a rig, and they drove off at a gallop. It is not known whether any of the bullets from the officers' weapons struck the other men.

LORD SALISBURY'S REPLY.

Sir Julian Pauncefote Has Received it and | to sift in. Mr. Olney Will Have it To-Day. Washington, Dec. 6.-Lord Salisbury's reply to Secretary Olney's despatch, which, according to the President's message, called upon the British Government for a definite answer to the question whether it would or would not submit the territorial controversy between itself and Venezuela in its entirety to impartial arbitration. was received by Ambassador Pauncefote this evening. It will be handed to Secretary Olney to-morrow.

Mr. John Charlton Bruised. Tonawanda, N.Y., Dec. 5.-Mr. John Chariton, M.P., had a narrow escape from death on the New York Central road yesterday. He had just alighted at the depot from a train when the porter of a sleeping car on another train ran into him in attempting to board his car. Mr. Charlton was

thrown to the ground, close to the

wheels of the second train, but escaped

with an injury to his hip. Took Too Much Chloral Simcoe, Dec. 6 .- At noon yesterday a young man named William Wark died from the effects of an overdose of chloral. He worked for Mr. Lawson, harnessmaker, and came down to work as usual, but did not appear to be well. He took a dose of medicine, and about one and a half hours afterwards took another. For an hour he sat in a drowsy condition on one of the horses in the shop, when he suddenly fell over, and when medical help arrived

Mr. Chamberlain is Very Active in Many Directions. New York, Dec. 8 .- The London special to The Times says: Mr. Chamberlin's energy in many directions continues to attract admiring attention. He dwarfs everybody else in the Cabinet and seems to be the one to whom every vexed question naturally drifts for settlement. Each day we hear of some new achievement to his credit, Now he is stirring up the Colonial Governors around the globe to systematic study of foreign imports which might be British, now he is deciding to help Canada to establish a 20-knot steamer line to England, now he is fixing up the Stokes affair with the King of the Belgians, or consolidating, by a stroke of his pen, the scattered states of the Malay peninsula. He and his wife have been visiting the Queen twice in one week, which is an unprecedented show of royal favor, but it quite matches the popularity that he is evidently earning everywhere else. It is such a novelty here to have an administrator who actually administers that it is not easy to set bounds to the reputation that he may not win if his luck continues and he does not bustle into some hornet's nest which

the agricultural interests.

New York, Dec. 8.-Mr. Isaac N. Ford cables from London to The Tribune: The only public man who commands attention is Mr. Chamberlain on colonial questions. His circular to the Governors of the Colonies asking how and why British exports are ur.dersold and displaced, and what products can be advantageously disposed of in the English Imperial markets, has been discussed with much sclemnity as the beginning of an imperial federation. It is hardly so important a movement as is represented. Less ambitious colonial officials have been impressed with the expediency of securing as large a share as possible of mutual trade between the United Kingdom and the colonies. The present secretary will make up a fine blue

A more practical measure is the new British scheme for subsidizing a 20knot mail service with Canada. Sir Charles Tupper, who is one of Mr. Chamberlain's advisers on colonial questions, goes to Canada at once to arrange this subsidy business. The free ship advocates in America should make a note of it and also of Sir John Tenniel's cartoon in Punch, which depicts a British shipbuilder in the act of locking up his yard and a workman standing idle around the corner. while indignant Britannia asks whether her fleet is to be built in Germany. Reports that the Belfast and Clyde builders were having engines made
