HALE AND HEARTY AT 70.

WHAT "FATHER" TOULL THINKS OF A POPULAR REMEDY.

Suffered for Tweety Years From Heart Troubtes-His Doctor Said He Might Drop Dead at Any Moment-Tells How He Overenme the Trouble. From the Ingersoll Chronicle.

That a sound mind in a sound body is one of the best and greatest gifts of a kind Providence no one will deny. Mankind in all ages have sought to obtain the elixir of life, have hunted for some means of prolonging health, vigor and vitalityhave in fact hoped that they might find "Some blithe wine

Or bright elixir peerless they could drink And so become immortal."

But while man can hardly hope to attain that coveted prize this side of the eternal world, yet it is evident to all who give the subject any consideration that modern science, skill and education in the treatment of the ills that flesh is heir to. have worked wonders in restoring the human body to its original "form divine," and in relieving many sufferers from untold misery, bringing them back to health and happiness, and giving them a feeling that life is indeed worth living. A case in point, in our own town, having reached the ears of a reporter of the Chronicle, the scribe determined to satisfy his curiosity by calling on the party who had

"Busily at Work," gate for himself. He called at the boot and shoe shop of Mr. John Toull, King street west, and on entering the building the reporter found "Father Toull," as he is familiarly known in town, busily at work on a pair of shoes for one of his many customers, at the same time humming over to himself the tune of cherished hymn, for by the way, in his younger days Mr. Toull was considered a good local preacher among the Methodists of this section and frequently filled the pulpits of some of our local churches in the pastor's absence, and he still loves to sing, preach or expostulate on some scripture theme or favorite hymn. The reporter was cordially received, and on making known his business, the old man's countenance brightened and his eyes sparkled with delight. It was interesting MUNICIPAL MATTERS are beginning to to note the fervency with which he volunteered, as he said for the sake of humanity, to tell what he could of his case, and we will let it be told in his own words. He said :- "For twenty years I was subject to heart trouble and could get no relief, although I had tried almost everything that kind friends recommended to me. My family physician would some times give me some medicine that would help me for a short time, but without permanent benefit. He told me I might drop dead at any moment, and I tell you I expected to do so on many occasions. I had heard of Dr. William's Pink Pills when they first came out, but I had used so many remedies that I just about lost faith in everything of that kind, and had become resigned to my fate. However, I came in contact with so many that had used Pink Pills, and who assured me that they had been benefited by there use, that at last I decided to give them a trial Mr. Gillespie Holds a Meeting at Severa also, and several years ago I commenced taking them. I continues their use until I had taken sight boxes, and I am now happy to say that I have never had a

ALL NECOTIATIONS HAVE FAILED. opinion as to the truth of the statements,

> Qovernment Circles at Ottawa Evidently Had an Idea Such a Decision Might be Reached-The Federal Remedial Bill Prepared-What the Premier Says?

Winnipeg, Dec. 9.-It is now certain that the Greenway Government have determined to reiterate their previous decision not to grant Sparate schools as a remedy to the grievance of the Roman Catholics of Manitoba. Some kind of a compromise was under way, but it has fallen through. A gentleman from Ontario, representin at least some of the Ministers at Ottawa, was here for days, and had several interviews with Mr. Greenway. The Premier of Manitoba was willing to make a number of concessions in the school law of the province, but he would not give Separate schools pure and simple. He had no objection to Catholics electing the trustees in Catholic school sections, or Catholics being appointed teachers, and he was quite willing to have the law adjusted so as to have the clergy of all denominations could have the closing hours for religious instruction. But Mr. Greenway would not concede the Separate schools. The gentleman who was the intermediary was inclined to accept such a settlement, but the powers at Ottawa and the representatives of the church insisted on the Separate schools, and so the negotiations ended. Mr. Greenway has authorized a statement that practically admits the

above, and says no Separate schools will be conceded. The Globe's Account. Winnipeg, Dec. 8 .- (Globe special.)-Hon. Mr. Greenway said to-day to your correspondent that he was being overwhelmed with enquirles as to the probability of the Manitoba Government settling the school question by some compromise measure. The Premier remarked that the Government have had propositions under consideration at various times since the receipt of the order in council of the Dominion Government of the 27th of July last, inviting action on the part of the Legislature of Manitoba to remove the alleged grievances of the Roman Catholic minority in relation to education. It has become clear that no concession by the Legislature will be regarded as a solution of the difficulty or as removing the alleged grievances unless such concession admits the principle of and re-establishing of state-aided Separate schools. Upon the question of the re-establishment of Separate schools the Government will

make no compromise. The Government's Remedial Bill. Ottawa, Ont., Dec. 9.-The official announcement from Winnipeg that the Manitoba Government does not purpose introducing any legislation into the Local House for the purpose of removing educational grievances of the Catholics of that province fully accords with the preconceived opinions of all those in Ottawa who have closeby following the course of events, or have had an inkling of the negotiations which have been in progress for some time past. Parliament has been called, and called with the specific object of passing Remedial legislation. The bill which will be presented to parliament is drafted, and when its provisions are submitted to the judgment of the House and country, it is thought they will be found of such a character that every fair-minded man in the country, who tcknowledges the right of the Catholics of Manitoba, under the constitution, to Separate schools can accept them. While restoring Catholic denominational scshools, there will be every possible safeguards so as to secure efficiency. Certificated teachers must be employed, and the province will be empowered to say what text books shall be used, with the exception of that on history. With the religious teaching, of course, the province will have nothing to do. The payment of the provincial grant

will be made contingent upon results of annual examinations, Str Mackenzie Speaks. Montreal, Dec. 9.-Sir Mackenzie Bowell being shown a despatch from Winnipeg to-day, giving an alleged interview with one of Premier Greenway's colleagues, said that such information had not yet been received by the Administration, and that the first intimation that he had received concerning its transmission at an early date was the information contained in the despatch. He denied the statement contained therein that the Catholics of Manitoba wanted apparently nothing short of Separate schools under the control of the church, and characterized as equally false the statement that the minority had so far made no proposal to the Manitoba Legislature to accept more moderate measures. With regard to an appeal on the part of Manitoba to the highest tribunal to quash the remedial measure, if passed by the Federal Government, Sir Mackenzie stated that as the highest tribunal of the empire had already decided that the Government had the power to pass the remedial measure, it would scarcely take steps to nullify the same. Relative to the suggestion contained in the despatch that the appointment of a commission would be the best means to adopt under the circumstances, of ascertaining whether the minority in Manitoba were favorable to a compromise or not, the Premier stated that, in his opinion, the appointment of the commission was unnecessary, the minority in Manitoba having already indicated a means by which the question might have an amicable settlement.
