BOARD OF EDUCATION
THE REGULAR MONTHLY MEETING.

Communications and Reports—The Action of the Teacher in the Case of the Boy Taylor Upheld—Mr. Fred. Frampton the New Caretaker of the Union School.
The regular monthly meeting of the board of education was held in the council chamber on Tuesday evening last. The members present were Mr. J. R. McNicoll, chairman; and Messrs. T. Stewart, J. D. Farley, R. Kennedy, J. Kennedy, P. G. P. Col. Deacon, Dr. Lynch, D. R. Anderson, Dr. Jeffers, T. Walters and J. English.

BUDS AND FLOWERS OF HOME LIFE.
The Little Ones Should be Healthy, Hearty and Happy.

PAIN'S CELERY COMPOUND "MAKES THE CHILDREN WELL."
A FATHER'S LETTER.

The children, God bless them, are the buds and flowers of home life. They should ever be carefully tended in childhood and youth, if we expect them to ripen into perfect men and women.
In the home and at school the children have their times of ill-health and suffering. We often note the pallid and bloodless cheeks, heavy eyes, nervous movements and twitchings of limbs and muscles. They complain of headache, drowsiness, weariness, dyspepsia and indigestion. All such symptoms and ailments mean that the seeds of disease will have a fast and firm hold unless proper measures are taken to restore a perfect condition of health.

Grubbs from the Convention.
Thursday morning session.—Devotional exercises. Reading minutes of previous session. Report from flower mission. The report showed that a great amount of charitable work had been done by the members. 19,312 bouquets had been distributed, as well as literature, fruit, jellies, eggs, clothing, etc. A report of parlor meetings was read by the superintendent of the department. The object of the meetings is to increase the membership. The report said: "Perhaps your union has never succeeded in enlisting the society women of your town, and you feel positive that in your quest for members it would be worse than useless to touch the electric bell of the handsome new house you are about to pass unvisited. She of the rug and hardwood floors and art furnishings would feel disdainful, you think, to be invited to become a member of the temperance union, but I assure you in nine cases out of ten you misjudge her. During the discussion which followed some one asked if games were allowed at these gatherings. In answer to the question a member stated that life is too real and too earnest for W.C.T.U. women to waste any time on games. (Applause.) The decision of officers for the ensuing year was next proceeded with. The voting was by ballot. Mrs. Thorvald of London, was re-elected president by a vote of 100. The vice-pres. is Mrs. Greenleaf of the cor.-sec. Mrs. Wylie, of Richmond Hill; the rec.-sec. Miss Conford, of London; treasurer, Mrs. McArthur, of Cornwall.

"Old Fogey" Flung at the New Woman.
[To the Editor of the Post.]
Sir,—I am a constant reader of your valuable paper. In your issue of the 26th inst. I was pleased to read the experience of "Old Fogey." I am glad he acknowledges he became a changed man by a visit to the church of Lindsay's most popular minister. So far so good, and I venture to think the fish was needed by "Old Fogey"—I pray he will continue the good work and attend regularly. But I object to his fling at the new woman. Allow me to tell "Old Fogey" the day is passed when men can be allowed to sneer at the new woman. The new woman is only now beginning to assert her proper rights in the world of which she is a mother; the gentle, forgiving charity of our sex has too long delayed this assertion. With your kind and powerful assistance, Mr. Editor, on behalf of fair dealing, I would wish to see you men all profess to love, honor and protect, there is no danger for the new woman's position. May his dreams be more intelligent in the future, is the prayer of the
NEW WOMAN.

Wise South African Chiefs.

Mr. Editor.—In your issue of Tuesday last you told us how graciously our noble queen parted lately with the three African chiefs, who were visiting London. Kindly allow me, through your paper, to furnish your readers with a more detailed account of these men and their mission. As you said, they came from Africa; their names are Khama, Bathoen and Sebele; their territory is in South Africa. They are noble Christian men, the fruit of the London Missionary Society, which has been so blessed in that section of the world. But these good men found that liquor, "the white man's strong drink," as they called it, was hurtful to their religion, debasing their people, spoiling their trade, and raising up a class of lawless blackguards, which were a menace to the church, civil government, and the home. After various and ineffectual efforts to stop the liquor traffic or reduced it to temperate use, they resolved to come to England personally, the mother source of religion and civilization, and do their utmost to secure the stopping of this vice and deadly traffic. Nor has their work been in vain. The queen—God bless her—has agreed to them, and they have been with affection and kindness. Mr. Chamberlain, also, the minister with whom they had specially to do, and like a father, a Christian and broad-minded statesman, and granted them all they desired. Their country remains under the protection of the queen, and the "white man's strong drink" is to be brought into their country; no license for its sale are to be issued; no existing licenses are to be renewed. A British resident, and all are to be punished who will give liquor to the black man. In parting with these wise men from the queen, the queen gratulated them on their success in excluding the liquor traffic from their people and country. Here is Christian prohibition which may be praying and working for to become world-wide. May it soon come.—Yours,
JOHN MACMILLAN.
