THE CRUISE OF THE WATER-WITCH.

A Story of Thrilling Adventure on Land and Sea.

(Continued from last week.)

While we took every precaution from the beginning of the voyage, nevertheless we depended a good deal on those facts. After awhile the convicts began to steady

watch over the four guards previously alluded to, but nothing occured to make me doubt them. Haskell had been allowed to saunter about as he pleased, and whenever an extra guard was needed he was always on hand.

One morning, as we were holding our man coming up from the south, and two hours later she signalled that she wished The provisions furnished by the government of those taken away, and Captain thinking, sir, that if all goes well and thours later she signalled that she wished The provisions furnished by the government of the government hours later sne signalled that she wished ment were wholesome and no fault could Clark arranged with Haskell, Thomas you see me trying to do what's right and Saunders to fill their places. Saunders to fill their places. lying to when she came up. The gang of | be found with the cooks. we were flying the flag which told them in both instances. No other ship's you will remember, and Thomas the man what cargo we had. She proved to be doctor would have allowed him to open we were returning to the Cape. I wish what cargo we had. She proved to be doctor would have allowed him to open to give Dr. Haxton all possible credit, certainly shall not refuse to do what may the Black Prince, a regular liner, home- his mouth. On the second occasion Dr. and will therefore any that he made an ward bound, and she dropped her boat Haxton, who had been coached by the and will therefore say that he made an and sent her mate aboard. He wanted captain, made reply: to see if we could give passage to the Cape to a man named Thomas, who was of discipline, but don't try it again. The place. He was not a good judge of next protest you present will bring you place. He was not a good judge of human nature, and he lacked that force previous on a raft. He was an English- a round dezen on the bare back." man who had been wrecked on a yoyage That seemed to end the matter. The

Thomas' story, and it was one to deeply Johnson had presented his second protest interest us. Only a few days before our I came on deck at 4 o'clock in the mornsailing a ship called the Albatross had ing. About an hour later, when the taken out a batch of about 200 convicts, | watch had settled down into the routine, half of whom were females. None of Haskell came out of the cabin smoking a them were above common criminals, and pipe, and made excuse that he was for this reason they were not as carefully | troubled with insomnia. He soon let me watched as they should have been. The know that he wanted a word with me in lasting ignominy. This feeling of gratiship carried only four passengers, all men, private. The bark was driving along and of these Thomas was one. He had before a steady breeze and needed little an uncle at the Cape and was going out | watching, and presently we got out of in search of adventure. He felt certain earshot of the wheelsman and then there would have been no trouble with Haskell said : the prisoners but for the uncalled for "The three guards below will be re- other man would, but I flatter myself that measures enforced by the doctor. He lieved at 6 o'clock. At 7 o'clock four of I used more deplomacy than many anover-worked and under-fed them and them muster on deck to receive the first other sailor would in my position. flogged men on the slightest pretext. By gang, leaving three below. The four on I must tell you the conclusion we the time the Albatross had left the Cape deck will be re enforced by two sailors, reached after a bit regarding the convicts. Verde islands two-thirds of the men had who will receive their muskets from When I say "we," I mean Captain Clark been flogged and half the females had Hooper.

been punished in other ways. When the crew of a convict ship be- but having no suspicion of what was to our confidence, and as for the passentrays open sympathy for the prisoners coming. because of the cruel treatment accorded "Every sailor aboard is all right as We felt that we should be perfectly safe them, one can be satisfied that those in far as I know," resumed Haskell. "You until reaching the Cape. We might give authority excee! the limits. Even the have spare muskets aft. When Hooper the convicts ever so good an opportunity guards on the Albatross condemned the musters his guards on deck, you must be to mutiny and they would not take adtyrannical treatment of the doctor. As ready to replace the four with sailors and vantage of it. The meeting with the I told you before, they were offenders see that their muskets are loaded. Give man-of-war had settled that matter. Two rather than criminals, and all had been me two others, and we will take the given short sentences. They were sent places of the guard below. Put the out more as colonists, and each would whole guard under arrest and search receive a ticket of leave after serving for every one. When you come to examine six months or a year. It was not until the muskets you will discover that all are the doctor had repeatedly announced unloaded. After taking care of the guard that he would break the spirit of every there should be an inspection of the cages Important For The Home. one or flog him to death that the spirit of and the prisoners. They have been using mutiny broke out. The ship was running files and saws down below."

to the south of St. Helene when the climax came. One of the women convicts lashes. While he was making preparations the convicts rose as one man and had possession of the ship in five minutes.

the guards were killed in the first attack.

Ask your grocer for

hour later was hanged at the yardarm. | evidences of recent use, were found about The convicts had no further grudges to his clothing. satisfy, and simply asked that they be The guard below was re-enforced and landed on the Hottentot coast. This the the cages examined. Bars had been cut captain agreed to, but during the night in every one of them, and it had been put the ship about, with the intention of planned to make a rush and capture the with the greatest consideration.

longer able to float. Out of the 11 men only three survived to reach the Cape. Not a single man aboard the convict ship knew anything about navigation. They simply knew that the coast was to the east of them, and they held for it through all sorts of weather. A due east course

were enforced. While all were considered to be on an equality and were served with the same food, the men had sense enough to realize that any laxity was a direct menace to all. If the ship was pint of rum was served out, although there were 30 barrels of it on board. On making the coast the Albatross was run into a river and put up it for 10 miles. Then they landed, removed everything from the ship and burned her. The plan was to journey far inland and found a settlement, but discussions begot dissensions, and the crowd finally split up into five or six parties and went their respeclong s earch, recaptured five men and them in irons if they remained on the occasion, when I approached him, he three women, while four other men and back. and gave themselves up. The fate of the son was an exception to the average. By ference to you what my feelings are to-

The Strength of Nature.

According to the ancient mythology, when Heroules wrestled with Antæus, every time he was thrown he jumped up again ever, gaining fresh every contact with the les conquered him at last only by holding him in the air away power from earth. Hercufrom the source of his strength, until he grew weaker and weaker and finally became exhausted. Antæus is a source of health and vigor. The Nature's laws the stronger and healthier we get away from them we are sure

only remedy to really cure him must be a natural laws and bring him right in touch with Nature. Any unnatural stimulus or manent good to a person was does no per-

In these conditions the most perfect, nat-ural strength-builder is Dr. Pierce's Golden Medical Discovery. It acts directly upon the natural nutritive processes, and creates solid, permanent strength and vital force in the same way that Nature creates them. It capacitates the stomach and liver to vitalize the circulation and feed the nervecentres with pure, healthy blood. This is exactly Nature's way of curing nervous exhaustion, debility, insomnia, and neuralgia. During the past 30 years, Dr. Pierce's medicines have become recognized standard remedies throughout the world. His "Pleasant Pellets" are a perfect and permanent cure for constipation.

Sister Eliza L. de Falcon, of Corpus Christi, Jucces Co., Texas, writes: "This is to tell you Nueces Co., Texas, writes: that I have been ill for twenty-one years and was finally cured by your medicines 'Golden Medi-cal Discovery' and 'Favorite Prescription.' I was completely cured after taking the medicine."
