FARMERS IN SESSION.

A MEETING OF THE WEST VIC-TORIA INSTITUTE HELD LAST FRIDAY.

tory Evening Session. (Continued from page eight.) The Evening Section.

There was a very fair attendance at the evening session, which opened about a quarter to eight. The audience included a number of ladies. THE VALUE OF FARMERS' INSTITUTES.

The proceedings were opened by Mr. Thos. A. Duff, who delivered a very interesting address on the above subject. Some people had the impression that the speakers engaged for these meetings reseived a magnificant remuneration-well they were that it would pay them better to remain at home and look after their business. The speaker then called attention to the many advantages en'oyed by farmers who many advantages paid \$2.50 per day, and he could tell them had joined the institute, and said that in the national anthem brought the prothe matter of free literature alone they | ocedings to a close. received 30 times the value of the member-

Mr. Daff said he understood an effort was being made to have the provincial fat stock show held here next year, and if proper steps were taken he thought the Ontario poultry show could also be secured. The association receives a grant of \$900 a year, on condition that it be held at different points, and for that purpose \$100 were allowed for travelling expenses, hence the town would have nothing to pay. The speaker then alluded to the prizes won by Canadians at the World's fair, and at stock and poultry shows in New York, and said no better way could be selected to bring the Dominion into prominence. He had repeatedly heard Americans say "Doesn's it beat all to have these people some here and win so many prizes." In 1883, 1884 and 1885, he had personally enjoyed the pleasure of winning the £20 premium offered at the Crystal Palace Poultry Show,

Mr. Duff-"Cause and effect." Mr. D. J. McIntyre bore witness to the increasing value of farmers' institutes and also to the superior ability of the speakers sent to address the meetings; he felt there would be alarger attendance next year as a result of the excellent addresses at the

present meeting. Mr. Payne, of West Ops, thought it would be found true that in sections where the farmers are English and Scotch the meetings are best attended; the Irish farmers do not take much interest in such gatherings. Referring to butter-making, Mr. Payne said he knew of a family living in a small log house who, despite lack of the same of the the usual conveniences, made an article that commanded 17c per lb. the year

The growth of farmers' institutes had been altogether phenomenal, showing that farmers are growing anxious to become conversant with the best methods. Mr. Elliott then turned to dairying, in saying should be the central industry should cluster. Farmers in poor townships where cheese factories had been established had in a few years forged abead of others in richer localities. Ready-Made Clothing at
- Panic Prices. -

We're determined to relieve the pressure caused by our gigantic stock. At no time in the last ten years has there been such excitement in the wholesale Clothing trade as in the past six weeks. Owing to the exceedingly mild weather trade has been disappointing, consequently immense stocks are on hand. When the demand is light prices are low. This season trade was so light that prices were simply paralysed. We offer from time to time the very finest clothing at prices usually asked for the lowest grade. Unable to resist such tempting offers we bought almost \$20,000 worth of Clothing. Now that we have it we find ourselves with a "white elephant" on our hands. The Clothing was bought at our own prices, but as there is little demand for heavy goods these mild days our position is about the same as the farmer and his apple crop. Sighing and thinking of what might have been will do no good. Quick action is necessary. For the balance of this season we close our eyes to real worth and inaugurate a selling soiree that is destined to stand unequalled in our merchantile history.
