Prof. Robertson Wants to Work Up Poultry Trade

BETWEEN CANADA AND ENGLAND

He is Now in Eastern Ontario Interviewing the Farmers-The Canadian Quarters for the Bisley Team - Personal and Other Notes From the Capital.

Ottawa, Dec. 21. (Special) -- Professor Robertson during the past few days has been visiting different points in Eastern Ontario to look into the possibilities of building up a poultry | ry Sound yesterday for the capital. trade with England. The Agricultural Commissioner is more than ever convinced of the possibilities of working up a mutually profitable connection between the Canadian producer and the British consumer. Throughout Eastern Ontario Prof. Robertson found the farmers indisposed to go more extensively into the poultry raising business under the present market conditions. Prices this year ran from 8c to 8 1-2c a pound for good turkeys, while the farmers find that less than 10 cents doesn't make it worth while to feed and fatten for the market. The fall in price is evidently due to the fact that the demands of the home and Boston markets do not keep pace with

It is Prof. Robertson's belief, after a careful study of the governing conditions, that with cold storage transportation, and systematic catering to the requirements of the British poultry trade, a steady ment of Canadian turkeys to England might be maintained from October to March, realizing prices in England that would yield the Canadian farmer fully ten cents a pound, and at the same time bringing down mediately following exposure to cold. It the price in England to a figure that would encourage consumption among the artisan classes. The Commissioner estimates that three to four cents a pound would cover the cost of cold storage, freight, commission and retailer's profit. Allowing ten cents & pound to the producer, this advance would still give the British consumer his turkey at very little, if any, over the present price of a roast of beef. The Commissioner was informed by farmers in the vicinity of Smith's Falls that, if assured of an average price of ten cents a pound, they would raise 100 turkeys for the market where they now supply not more than 40 to 50 to each farm. He concludes, therefore, that the exploitation of the English market is well worth the cost of a fair trial.

In response to the invitation of a sub-committee of the council of the Dominion Rifle Association, 11 sets of plans have been sent in for the proposed Canadian headquarters at Bisley. The building is to be constructed of and finished with Canadian woods, and resembling in outward appearance as far as possible a Canadian house, surrounded on the front and ends by a verandah not less than ten feet in width, the whole, whilst not too ornate, to present a pleasing and substantial appearance. The principal object of this building is to make a showing of Canadian woods and their adaptability for inside finish and decoration. Parliament voted \$5000 for the structure, but the association proposes to expend about \$2500 more on it. The council of the association will meet next month to decide which set of plans shall be

HOW MACEO DIED.

Dr. Zertucha, Who Was Charged With Betraying Him, Tells All About It.

Havana, Dec. 19.-Dr. Zertucha, through whose treachery it is claimed Maceo met his death, is in Havana. In an interview to-lay he explained his relations with the rebel leader. He said that a great friendship existed between them, and that Maceo had great confidence in him. Only three of Maceo's staff were allowed to dine with him-Dr. Zertucha, Miro and Francisco Gomez, son of the insurgent commander-in-chief. Dr. Zertucha denied the stories that Maceo had received in the Province of treat for peace. He also denied that he had any connection with the chief of police La Barrera. Maceo was on horseback, with his machete unsheathed, when he was struck by a bullet by a Mauser rifle. As he fell Dr. Zertucha rushed to his assistance, but he dropped to the ground dead. Another bullet struck him in the stomach before he reached the ground. All the members of the staff who were around Maceo at the time were more or less seriously wounded. Col. Nodarez and Major Justiz died later from the effects of their wounds. Lieut. Gomez was also wounded in the arm. His wound was attended to and his arm was placed in a sling. He tried to assist Dr. Zertucha to carry Maceo's body, but was real, P.Q. again struck by a bullet and knocked down. He then wrote the note that was afterwards found on his body, and committed suicide by stabbing himself with his own knife, not Maceo's, as some reports have stated.
Dr. Zertucha declared that after the rebels had carried Maceo's body off the field a statement was drawn up. which was signed by all the leaders who had taken part in the engagement, explaining the manner in which he had met his death.

Bill, Arch and Dink Proctor, Kentucky

Murderers, Disposed of by Judge Lynch and a Mob. Russellville, Ky., Dec. 18.-Dink and Arch Proctor, father and son, were taken from the jall at 2 o'clock this morning and hanged te a cedar tree, just outside the town, and Bill Proctor, another son, was shet and killed in his cell.

The jailer was forced to give up the cell the middle between the two lines of keys. The Proctors were up, as they had bleaching bones of slaves who had been been warned the day before of what was left there to die, and they could not miss to come. Bill Proctor swore he would not , their way. leave his cell alive, and, as he was a pow-erful man and hard to handle, one of the mob shot him with a pistol. Immediately afterwards a charge of buck-or was fire shots was fired. About thirty balls entered his body. After Proctor was down, a man entered the cell, and, placing a pistol at the head of the fallon man, polled the trigger, and thus died the most langerous man in Logan County. The mob then took Dick Proctor and bis son Arch out of their cells, and bound their hands, after the lafter had made an unheeded plea for mercy for the father. The mob, which had now increased to 200 men, escorted the prisoners to a three-limbed cedar tree on the Nashville-road, and strung father and son up ride by side.

Their bodies were cut down this morning. The mob came from Adairsville, and they cut all the telegraph wires leading from that point in order to prevent notice bcing given of their coming. Mrs. Proctor, wife of Dink and mother of Arch and Bill, was asleep in an hotel here when the lynching too's prace. She had come to attend the examining trial to-day. and Arch begged the mob pitifully to or allowed to see his mother before he was hanged, but his request was refused. Arch Proctor killed Aaron and Doc Crafton at Adairsville on Oct. 24. Bill and Dink were

charged with conspiring to have the Craft-Bill Proctor was one of the four mt who were charged with hanging Ed Traughbert two years ago. He had killed several men, and had been tried four times for his life, but always escaped on trial, and this fact caused the mob to beat the law. George Jones, an . . sound Entcher, Takes His Life With a Revolver. Owen Sound, Dec. 20.-(Special.)-Yesterday afternoon Mr. George Jones, a butcher of this town, committed suicide at his room in the Grand Central Hotel by shooting himself in the head with a revolver. He had been drinking a good deal during the day and was last noticed about 4 o'clock going to his room, where, about 10 o'clock in the evening, he was discovered by some of the hotel attendants lying across the bed with a large bullet wound in his right temple. The revolver, a British bulldog of large calibre, was lying beside him. It is not known at what hour the rash deed was done, as the noise of the discharge of the weapon strange to say, was not heard by anyone in the hotel, the sound no doubt being considerably deadened by the weapon having been placed close to his head when fired, which was quite apparently the fact, from the burnt appearance of the hair all around the

The Superintendent of London Asylum Replies to the Statements of Me-Callum of Buffale, London, Ont., Dec. 19 .- The story tele-

graphed from Buffalo, detailing Andrew McCallum's statement of his ill-treatment at the London Asylum for Insane, is looked upon here as simply the wanderings of a diseased mind. Dr. Bucke, the superintendent of the asylum, has most the superintendent of the asylum, has most advanced ideas in regard to the treatment of pallents. Twenty years ago he inaugurated a system of treatment, the very liberality of which caused a great deal of comment and doubt as to its practical results among the medical fraternity. He held firmly to his ideas, and to-day the methods adopted by Dr. Backe are being introduced in the asylums for the insane throughout the world, and the London Asylum is looked upon as a model, and pallent lum is looked upon as a model, and pa-tients are put upon their honor and al-lowed entire liberty about the grounds. None are compelled to work. During the winter months entertainments are provided five nights in the week, which include two dances. One inflexible rule is that a keeper must never strike a patient. Violation of this regulation means instant dis-missal to the offender. Dr. Bucke was an intimate friend of the poet, Walt Whitman, whom he greatly resembles in per-sonal appearance. He is a recognized au-thority on brain diseases, and never loses an opportunity of demonstrating the value of liberal and kind treatment in dealing with the unfortunate insane.

\$100 REWARD Warning...

It has come to our knowledge that certain persons, for the purpose of helping off their unsaleable stock of clothing, have taken our guarantee cards from the pockets of garments of our make and have put them in the pockets & of other goods of inferior make, thus leading the purchaser to believe he was getting Shorey's clothing and thereby damaging our reputation. We therefore wish to give notice to our customers and the public, that \$ we will prosecute, to the full rigour of the law, any one whom we can prove ; to have done this, and we will pay a reward of \$100.00 to the person \$ who will give us sufficient evidence to convict any dealer of this offence. H. SHOREY & CO., Montreal.

N.B.—We are spending a great deal of money to make the merits of our clothing known to the public and we insist upon dealers giving people what they ask for.
