Book Notices. "Prisoners of the Sea," by Florence M. Kinsley, author of "Titus," "Stephen," "Paul," and other works published by the Copp Clarke Co., Toronto, is on our table. It is a marvelous story, and keeps up the reputation of the author. No doubt it will have a ready sale.

An Improved Knitting Machine. The manufacturing facilities of the Lindsay Woollen Mills are continually on the increase. The latest addition to this already well equipped plant is an improved knitting machine for the manufacture of underwear. This machine can be adjusted to knit any size or weight required, is capable of making ribbed or plain goods, with either fine or coarse yarn, and is also adapted for knitting bicycle hose, sweaters, cardigan jackets, and many other articles in this line. There is a good opening for a large knitting factory in Lindsay and we predict that this is the beginning.

An Enjoyable Evening. The concert given Tuesday week in the Y.M.C.A. rooms, under the auspices of the Ladies' Auxiliary, was very much enjoyed by those present. The rooms were crowded to the doors, and many more would undoubtedly have been present had the concert been more widely announced. The program consisted of music, instrumental and vocal, and readings. The trio com-posed of Prof. Clarke, Mr. Lamont and Mr. Petty, was specially good, and was loudly encored, and the instrumentals of Misses Benson and McDonald were well rendered. All the numbers were exceedingly good, and drew warm applause from

For the benefit of readers of The Century an unuusal combination offer is made for this year. There has been issued "The Century Gallery of one Hundred Portraits,' made up of the finest engravings that have appeared in the magazine, and representing a total expenditure of nearly \$30,000.
