Geo. M. Wilson, W. R. Tudhope, W. A. G. Bingham, Walter Francis, James Tudhope, John Wilson, T. F. Ellis & Co., F. J. Gribbin, J. D. O'Brien, J. Farquharson, Wm. Ferris, C. R. Switzer, M. Moffatt & Wilson, Wm. H. Carpenter, C. B. Thompson, A. M. Empey, J. B. Perry & Co., J. World, A. Kennedy.

ORILLIA, 20th MARCH, 1873. EXTRAORDINARY AFFAIR. The Globe of Friday last contained an article alluding to a G. P. Dodge, M. P. for North York, with the most barefaced forgery, for election purposes. It was stated that he had published a letter containing the most fulsome allusions to himself, purporting to be written to the Rev. Canon Ramsay, of Newmarket, and to this appended the name of the Rev. S. A. Clarke, D.D., of Elizabeth, N. J. With this he issued a note, apparently written by the Rev. Canon Ramsay, as if sent enclosing the one from Rev. S. A. Clarke, but which it is said was also a forgery. On Monday, Mr. Dodge, from his place in the House of Commons, affirmed that the article was written against him in consequence of his supporting the Government, and declared the charges contained therein to be false in toto; that he had then in his possession the original letter from the Rev. Dr. Clarke, and that if Canon Ramsay did not sign that letter purporting to be from that gentleman, his son, Dr. Ramsay took the responsibility of obtaining his father's consent to the publication; that during the contest he had not repudiated it, and on Mr. Dodge's return becoming known, had sent him the following despatch, "Happy day of my life, Dodge for ever."

That two days after the election, Canon Ramsay and the Doctor had demanded \$2,500 for the services of the latter in the canvass; and had threatened some exposure if their demand was refused. They afterwards entered a suit for \$2,000, but it had been since abandoned. After the opening of the House he had been informed that Mr. George Brown had letters and affidavits which would seriously affect his reputation, and it was implied, these would be withheld if he voted with the Opposition; but as he had voted against them, they had been published. In reply to Mr. Edgier, member for Monck, Mr. Dodge stated that he was the party referred to as having attempted intimidation by allusion to the documents in possession of the Editor of the Globe.

Mr. Edgier's explanation was to the effect that, hearing Mr. Dodge make a violent attack upon the Globe, he had called that gentleman aside and told him the proprietors of the Globe had not treated him so badly, since they had not published documents relating to him which had been sent them. Thereupon Mr. Dodge requested that the proprietors of the Globe be informed that those documents had been sent for the purpose of blackmailing him. Mr. Edgier did so write, but disclaimed any intention of intimidating the member for North York. Mr. Dodge accepted the whole through the conversation that left the impression of intimidation upon his mind. He was glad that Mr. Edgier, who was a personal friend, would not stoop to do such a thing.

Previous to the publication of the report of the Parliamentary proceedings, Canon Ramsay wrote the Editor of the Globe that the statements contained in the letter purporting to be written by him, to the effect that he was a personal friend of the Rev. Dr. Clarke, and knew his high position in the Church, were utterly unfounded. He added that he was not aware of the existence of those letters, until a person had written asking for a few printed copies of them; and that he did not see the "Extra" containing them until some weeks after its publication.

This is a brief resume of what has transpired regarding a question which has created no little excitement in this locality, from the fact that all the parties concerned are well known here. We do not purpose making any comments upon this extraordinary affair at this time, but will leave our readers to draw their own conclusions, or wait further developments, which cannot now be long delayed.

THE ANNIVERSARY OF ST. PATRICK was celebrated in the usual manner by the various Irish National and Temperance Societies throughout the Province. They were favoured with a beautiful day, and everything connected with the celebration passed off quietly.

THE ATHERLEY ROAD. If it is true that we cannot get too much of a good thing, it is equally reasonable to think there cannot be too little of a bad. This, however, is not the principle which appears to have governed the surveyors in laying out the road from Athlerley to Orillia. This, the champion piece of bad road of the whole Province, is now to be made worse, and nature would doubtless assist in the matter. No other inconvenience has been added, in its crossing the railway two or three times; which if the road be put in such condition that horses could run away on it, would also become a source of considerable danger. We suggest that a new road be made as direct as possible, and the present road closed up, which would save a considerable distance, and obviate the necessity for crossing the Midland track, and the new road could probably be opened with as little outlay as the present one could be made really passable. The Midland Railway Company would doubtless assist in the undertaking, as it would be beneficial to them in the removal of crossings.

OUR SCHOOL.

The School Trustees had a meeting on Tuesday evening, at which the question of increased accommodation was discussed, but nothing definitely decided upon. It was arranged to hold a joint meeting of the High and Public School Boards this week, to take united action. Meantime the accommodation is so inadequate that some expedient must be adopted to meet the immediate exigency. Some propose to purchase a tract of land, and erect a building, by having the members of the primary classes attend in the forenoon, and the more advanced pupils in the afternoon. We are doubting as to the wisdom of this course at the present time, believing that it would be better to rent a suitable room for the primary department until a new building can be got ready for the reception of the proposition for raising the Public School building a story. The site opposite the Drill Shed is eligible, and could be bought now, and a High School building would be erected thereon without adding materially to the taxation, by issuing debentures and spreading the payment over a series of years. Such a School would be a great advantage to the town, as an inducement to men of capital, intelligence and enterprise to settle here, which they cannot do now without sacrificing the education of their children, or sending them away from home for that purpose. We do not make these remarks disparagingly of the existing school, which is, yet however willing and efficient. All the teachers of the Public School cannot trench upon the rising generation. The education of the present pupils, and their legitimate pupils. The Schools occupy different spheres, and both are necessary to give us a fair facilities for the education of the rising generation. It is not to be forgotten that a High School, once established, would be self-sustaining, or nearly so, without the imposition of fees.

Mr. Edgier's explanation was to the effect that, hearing Mr. Dodge make a violent attack upon the Globe, he had called that gentleman aside and told him the proprietors of the Globe had not treated him so badly, since they had not published documents relating to him which had been sent them. Thereupon Mr. Dodge requested that the proprietors of the Globe be informed that those documents had been sent for the purpose of blackmailing him. Mr. Edgier did so write, but disclaimed any intention of intimidating the member for North York. Mr. Dodge accepted the whole through the conversation that left the impression of intimidation upon his mind. He was glad that Mr. Edgier, who was a personal friend, would not stoop to do such a thing.

Previous to the publication of the report of the Parliamentary proceedings, Canon Ramsay wrote the Editor of the Globe that the statements contained in the letter purporting to be written by him, to the effect that he was a personal friend of the Rev. Dr. Clarke, and knew his high position in the Church, were utterly unfounded. He added that he was not aware of the existence of those letters, until a person had written asking for a few printed copies of them; and that he did not see the "Extra" containing them until some weeks after its publication.

This is a brief resume of what has transpired regarding a question which has created no little excitement in this locality, from the fact that all the parties concerned are well known here. We do not purpose making any comments upon this extraordinary affair at this time, but will leave our readers to draw their own conclusions, or wait further developments, which cannot now be long delayed.

THE ANNIVERSARY OF ST. PATRICK was celebrated in the usual manner by the various Irish National and Temperance Societies throughout the Province. They were favoured with a beautiful day, and everything connected with the celebration passed off quietly.

THE ATHERLEY ROAD. If it is true that we cannot get too much of a good thing, it is equally reasonable to think there cannot be too little of a bad. This, however, is not the principle which appears to have governed the surveyors in laying out the road from Athlerley to Orillia. This, the champion piece of bad road of the whole Province, is now to be made worse, and nature would doubtless assist in the matter. No other inconvenience has been added, in its crossing the railway two or three times; which if the road be put in such condition that horses could run away on it, would also become a source of considerable danger. We suggest that a new road be made as direct as possible, and the present road closed up, which would save a considerable distance, and obviate the necessity for crossing the Midland track, and the new road could probably be opened with as little outlay as the present one could be made really passable. The Midland Railway Company would doubtless assist in the undertaking, as it would be beneficial to them in the removal of crossings.

THE HENS HAVING conspired together to flood the market, eggs are coming down in price.

OUR SCHOOL.

The School Trustees had a meeting on Tuesday evening, at which the question of increased accommodation was discussed, but nothing definitely decided upon. It was arranged to hold a joint meeting of the High and Public School Boards this week, to take united action. Meantime the accommodation is so inadequate that some expedient must be adopted to meet the immediate exigency. Some propose to purchase a tract of land, and erect a building, by having the members of the primary classes attend in the forenoon, and the more advanced pupils in the afternoon. We are doubting as to the wisdom of this course at the present time, believing that it would be better to rent a suitable room for the primary department until a new building can be got ready for the reception of the proposition for raising the Public School building a story. The site opposite the Drill Shed is eligible, and could be bought now, and a High School building would be erected thereon without adding materially to the taxation, by issuing debentures and spreading the payment over a series of years. Such a School would be a great advantage to the town, as an inducement to men of capital, intelligence and enterprise to settle here, which they cannot do now without sacrificing the education of their children, or sending them away from home for that purpose. We do not make these remarks disparagingly of the existing school, which is, yet however willing and efficient. All the teachers of the Public School cannot trench upon the rising generation. The education of the present pupils, and their legitimate pupils. The Schools occupy different spheres, and both are necessary to give us a fair facilities for the education of the rising generation. It is not to be forgotten that a High School, once established, would be self-sustaining, or nearly so, without the imposition of fees.

ORILLIA, 20th MARCH, 1873. "Astrucers, not Struc."

EXTRAORDINARY AFFAIR. The Globe of Friday last contained an article alluding to a G. P. Dodge, M. P. for North York, with the most barefaced forgery, for election purposes. It was stated that he had published a letter containing the most fulsome allusions to himself, purporting to be written to the Rev. Canon Ramsay, of Newmarket, and to this appended the name of the Rev. S. A. Clarke, D.D., of Elizabeth, N. J. With this he issued a note, apparently written by the Rev. Canon Ramsay, as if sent enclosing the one from Rev. S. A. Clarke, but which it is said was also a forgery. On Monday, Mr. Dodge, from his place in the House of Commons, affirmed that the article was written against him in consequence of his supporting the Government, and declared the charges contained therein to be false in toto; that he had then in his possession the original letter from the Rev. Dr. Clarke, and that if Canon Ramsay did not sign that letter purporting to be from that gentleman, his son, Dr. Ramsay took the responsibility of obtaining his father's consent to the publication; that during the contest he had not repudiated it, and on Mr. Dodge's return becoming known, had sent him the following despatch, "Happy day of my life, Dodge for ever."

That two days after the election, Canon Ramsay and the Doctor had demanded \$2,500 for the services of the latter in the canvass; and had threatened some exposure if their demand was refused. They afterwards entered a suit for \$2,000, but it had been since abandoned. After the opening of the House he had been informed that Mr. George Brown had letters and affidavits which would seriously affect his reputation, and it was implied, these would be withheld if he voted with the Opposition; but as he had voted against them, they had been published. In reply to Mr. Edgier, member for Monck, Mr. Dodge stated that he was the party referred to as having attempted intimidation by allusion to the documents in possession of the Editor of the Globe.

Mr. Edgier's explanation was to the effect that, hearing Mr. Dodge make a violent attack upon the Globe, he had called that gentleman aside and told him the proprietors of the Globe had not treated him so badly, since they had not published documents relating to him which had been sent them. Thereupon Mr. Dodge requested that the proprietors of the Globe be informed that those documents had been sent for the purpose of blackmailing him. Mr. Edgier did so write, but disclaimed any intention of intimidating the member for North York. Mr. Dodge accepted the whole through the conversation that left the impression of intimidation upon his mind. He was glad that Mr. Edgier, who was a personal friend, would not stoop to do such a thing.

Previous to the publication of the report of the Parliamentary proceedings, Canon Ramsay wrote the Editor of the Globe that the statements contained in the letter purporting to be written by him, to the effect that he was a personal friend of the Rev. Dr. Clarke,
