ELECTORS

&c., &c.

GENTLEMEN, -The recent re-adjustment of the Electoral Districts of Ontario, based upon the census of 1871, has resulted in the formation of a New County for Electoral purposes, comprising the Districts of Muskoka, Parry Sound and a portion of

You will therefore, shortly be called upon to choose a representative for the House of Commons, to serve during the term of the next Parliament. At the earnest solicitation of nearly all

the leading men of the County, to place

myself in nomination, I now beg to an-nounce myself a candidate for the high honour of being your representative, and to enable you to decide how far I may be entitled to your confidence and support, I take the opportunity of briefly stating my opinions on some of the political questions likely to come before the public attention.

If elected, I shall be prepared at all times, to support all good measures, no matter from what source they may emanate; at the same time, I have no hesitation in saying that I highly disapprove of LADIES' AND GENTS' GOLD the policy of the Dominion Government, in the management of many important matters. I might particularize the Manitoba question, the mis-management and extravagance in the construction of the Intercolonial Railway, the Washington Treaty, the refusal to pass an Election Law similar to that in the Province of Ontario, for the punishment of corrupt practices at elections, and for the trial of controverted elections by the Judges, &c. For these reasons my views are decidedly in accord

with Her Majesty's Loyal Opposition at While it is requisite that the Executive should have cortain discretionary powers, LADIES'GEM AND PLAIN GOLD I hold the opinion that these powers should be confined to the smallest limit consistent with the proper administration GENTS' of the Government of the country, hence I stand firmly opposed to placing large sums of money at the disposal of the ministry, without the sanction of Parliament | GOLD, GOLDINE AND BLACK. being first obtained to all particulars and

details connected therewith. I shall give my earnest support to any measure having for its object the promo-

tion of emigration to canada. I shall give my hearty support to all legitimate measures or schemes to aid in the establishment of easy communication between all parts of the Dominion. It is my firm conviction that, with the energy and enterprise of our people properly directed, and encouraged by wise legislation and good laws, the day is not far distant when our Domision will rank among the first countries of the Globe, in the extent and variety of her agricultural and manu-

facturing products. Although local matters, such as those under the control of the Crown Lands Department, and the Department of Public Works and Agriculture, of this Province, do not come within the scope of the House of Commons, I will, notwithstanding, have much pleasure in bringing the wants of the County in the way of Railroads, Colonization Roads, Bridges, Navigation, etc., before the Gov-ernment of Ontario, and I have no hesitation in saving that no man in the county | work. has a more practical knowledge of its requirements, or feels greater anxiety for making the necessary improvements, than myself. I refer to these matters in view of the fact that this county will be at best only partially represented in the Par-liament of Ontario during the present year.

On these and all other questions, having reference to the welfare of the country, shall, previous to the election, have an opportunity of discussing with you, at pub-lic meetings and otherwise, and in conclusion I may be premitted to add that, having all my property in the county, my interests are inseparable from yours, and should you honourme with your confidence, and charge me with the duties of your representative, I shall, to the utmost of my humble abilities, endeavor to deserve the one by a faithful discharge of the other. I am, gentlemen,

Your most obed't servant, A. P. COCKBURN June, 1872.
