Epitapha

The following epitaphs are taken from a very interesting collection by Mr. Fairley, F.S.S, and published by Mr. Samuel Tinsley, London:—

Of epitaphs on infants and young children Mr. Fairley gives, here and there, many examples, one or two of which strike us as exceedingly beautiful. This, from Kensol Green, exquisitely expresses a

truly poetic thought:-

"The cup of life just to his lips he pressed.
Found the taste bitter and resigned the Averse then turning from the face of day, He softly sighed his little soul away." More simple, and rather quaint, but still beautiful in its conception, is the following, from Venice:-

"To the memory of John Maghi Who, through the unskillfulness of the

On the 21st day of December 1532, Was translated from the womb to the tomb. Of comic epitaphs of this class there are plenty. The following is said by our author to come from a Weich churchyard;-

As ever blessed their parents dear; But they were seiz'd with ague fits, And here they lie as dead as nits.' The resolution to compel a rhyme in the next one we select is almost as droll as its

"Two lovely babes lie buried here,

"This little hero that lies here Was conquered by the distribeer." This, "on an infant eight months old," is emphatically philosophic:

"Since I have been so quickly done for,

I wonder what I was begun for." A great many epitaphs have been made the vehicles for satire by surviving husbands on their departed wives, and vice persa .-Of course in the vast majority of cases, inscriptions by bereaved husbands or O fear the Lord, ye his saints; for there wives, whether truthfully represented or not of their real sentiments, are vehemently landatory; but when an epitaph is not of this kind, it is generally conspicuously vehement after the opposite fashion. Mr. Fairley supplies numerous examples, many of which, we imagine, are apocryphal. This, our author says, comes from the Greyfriars Churchyard: he may be right, though we do not remember to have seen

"Here snug in grave my wife deth lie, Now she's at rest, and so am I." Closely resembling the above is one which is said to be of French origin;-"Here lies my wife,

A fact that must tell

For her repose And for mine as well."

The next comes from an Australian graveyard, and is truly antipodean in its frank-" Here lies my wife Polly, a terrible hrew; If I said I was sorry, I should lie too." Better in one sense-inasmuch as its humour is more polished, while quite as intense-and worse in another, masmuch as it makes unworthy use of a text of Scrip-ture, is the following from Sussex church-

"Here lies the body of Sarah, wife of John Who died 24th March 1823, aged 42 yrs. 'The Lord giveth, and the Lord taketh

Blessed be the name of the Lord."

Of a similar kind is the next we shall quote, which, Mr. Fairley says, is copied from a country churchyard:-· Here lies the body of James Robinson and Ruth his wife, ... It would be absurd for our author to give many samples of what may be called "marital epitaphs" of the opposite com-plexion, seeing that they abound in every churchyard and cemetery. But there is one which is rather singular, and which, it appears, is to be in many English church-

yards. To, us it speaks rather of a want

of invention than of any great depth of
