Botanical Plants
 Hold the Secret of Life and Death.

Recent experiments conducted by most eminent scientists, prove that light is a great remedial agent; it is essentially Nature's agent. It may be either sunlight or electric light, but it has a decided effect in helping nature to banish disease and restore health. Other scientific men have proved that oxygen electrifies the heart and can prolong life.

The people on this earth are susceptible to some laws which govern plant life. A plant cannot be successfully grown in the dark. A man is seldom healthy and strong who lives in the dark or in sunless rooms. After all, Nature's ways are found to be the best. Nature's remedies are always best for eradicating disease, and by this we mean a medicine made of roots and herbs. They are assimilated in the stomach and taken up by the blood and are, therefore, the most potent means which can be employed for the regaining of lost health. Dr. R. V. Pierce, consulting physician to the Invalids' Hotel and Surgical Institute, at Buffalo, N. Y., in many years of extensive practice, found that he could pin his faith to an alternative extract of certain plants and roots for the cure of all blood diseases. This he called Dr. Pierce's Golden Medical Discovery. Containing no alcohol nor narcotics, entirely vegetable, this "Discovery" makes rich red blood and is a powerful tissue-builder, giving the tired business man or woman renewed strength and health. Rapidly growing school-girls and boys often show impoverished blood by the pimples or boils which appear on face or neck. To eradicate the poisons from the blood, and feed the heart, lungs and stomach on pure blood, nothing is so good as Dr. Pierce's Golden Medical Discovery.

Don't allow the dealer to insult your intelligence by offering his own blood remedy to you instead of this well-known preparation of Dr. Pierce's. Ten chances to one he will substitute a cheap compound having a large percentage of alcohol in it. Dr. Pierce's Pellets are the best for the bowels. Use them with the "Discovery."

Rev. E. A. Langfeldt Honored.

Mr. Langfeldt appreciates the gift very highly. The Conversation Club has been in existence for three years; it has twelve members who in that time have become well acquainted with the German language and can now speak it fluently.

How Many Ballots will be Polled?
The Mail and Empire Offers 87 Cash Prizes Worth \$500

It pays just now to be a close student of public events, with some knowledge of the theory of probabilities. There is money in it. This fact has become widely apparent of late, as is shown by the hundreds of persons in every part of Canada who have sent their predictions of the total vote to be polled at the Ontario Elections on January 25th to The Mail and Empire Office, Toronto, with the hope of obtaining the first prize of \$100 in cash for the closest guess, or one of the 86 other cash prizes. These predictions vary widely, and the perplexing features of the present contest make almost all of them equally probable. As a matter of fact the scientific politician stands in very little advantage over the casual estimator.

The details of this competition will be found in the current issues of The Toronto Daily and Weekly Mail and Empire. Predictions will be received up to midnight of January 24th.
