AGONIZING SUSPENCE

The Terrible Situation of a St Vincent Lady. St. Vincent, Ont., Jan 31 .- No other

man in Canada has gone through a period of such extreme anxiety, alternating with despair, as Mr. Joseph McCullough, a highly-respected retired farmer of this place, experienced during the past summer. Last spring his family physician pronounced Mrs. McCullough to be suffering from an incurable case of Neurasthenia, or nerve exhaustion. She was extremely nervous, hysterical and despondent. She had severe rheumatic pains, palpitation, had sharp pains in her lett side and over the kidneys; her feet were perpetually cold, her face ghastly pale, urine highcolored, scalding, and leaving a brick dust deposit; sour stomach, splitting headaches, and pain after eating oppressed her. She had no appetite, could not eat, system. and lost flesh startlingly. It seemed to her friends that she was "going into decline." The physician said her only hope of relief lay in the Wier-Mitchell treatment. This being so costly was out of the question, and her husband believed there was no hope. He read a newspaper article highly recommending Dr. Arnold's English Toxin Pills, about this time, and decided to try them. Soon a change for the better came, and day by day the patient improved, till now she is as well, strong and vigorous, as she ever was. Her recovery is due entirely to Dr. Arnold's English Toxin Pills-the only remedy that cures disease by killing the germs that cause it. Every other medi cine she used failed.

Dr. Arnold's English Toxin Pills are sold by all druggists at 75c. a box; sample fox 25c., or sent post-paid on receipt of price by The Ar-nold Chemical Co. Limited, Canada Life Building, 42 King street west, Toronto.

WOMAN'S PLUCK WINS.

A Lady Who Cured Her Husband of the Liquor Habit Writes a

Pathetic Letter-She writes: "I had for a long time been thinking of trying the Samaria Prescription treatment on my husband for his drinking habits, but I was afraid he would discover that I was giving him medicine, and the thought unnerved me. I hesitated for nearly a week, but one day

when he came home very much intoxicated and his week's salary nearly all spent, I threw off all fear and determined to make an effort to save our home from the ruin I saw coming, at all hazards. I sent for your Samaria Prescription and put it in his coffee as directed next morning, and watched and prayed for the result. At noon I gave him more, and also at supper. He never suspected a thing, and I then boldly kept right on giving it regularly, as I had discovered something that set every nerve in my body tingling with hope and happiness, and could see a bright future spread out before me—a peaceful, happy home, a share in the good things of life, an attentive, loving usband, comforts, and everything else dear to a woman's heart, for my husband had told me that whiskey was vile stuff and he was taking a dislike to it. It was only too true, for before I had given him the full course he had stopped drinking altogether, but I kept giving the medicine till it was gone, and then sent for another lot to have on hand if he should relapse, as he had done from his promises before. He never has, and I am writing you this letter to tell you how thankful I am I honestly

believe it will cure the worst cases." A pamphlet in plain, sealed envelope sent free, giving testimonials and full information, with directions how to take or administer Samaria Prescription.
