In scores of the local papers of this Province there may be seen advertisements offering inducements to women to work on knitting machines, at their own homes, for which they can earn from \$7.00 to \$10.00 a week.

Every woman who applies for the work is required to purchase a knitting machine from the advertiser, at an outlay of \$15 to \$25, payment for which must be made in cash. After the buyer receives the machine she begins the Director of Experimental Farms | early. making samples as directed by Ottawa, and n ay be sent in any time the advertiser, who agrees to buy before the 1st of March, after which the all she can manufacture. These machines are probably made in Toronto at a cost of not more than \$5 to Ottawa, December 22, 1902, \$7, so from every sale the swindler reaps a good profit.

The victim in Campbellford of this foul game, having failed in receiving a reply, supposed the firm had gone out of business, and tried a new plan of using her maiden name, when a reply was ammediately forthcoming, the swindler being ever ready for new customers.
