

EYES THAT TIRE

The normal eye should be able to do a normal amount of work. If your eyes readily become tired it is because of some defect in the eye. This is eye strain and if neglected may end in complete loss of sight. We can give you eye comfort.

The Municipal World for January has an extended reference to the New Assessment Act. With the exception of mineral lands, it states, all real property is to be assessed at its actual value in the municipality in which it lies, and in the case of cities and towns in the ward of which it lies. In assessing land having any buildings it is to be assessed separately and so entered in the assessment roll; the value of the buildings is to be the amount by which the value of the land is thereby increased. In making an assessment of land and buildings the assessor should first value the land and afterwards determine the value of the whole property, the difference being the value of the buildings for assessment purposes. This has no reference to the cost of the buildings and can be easily understood when the prices paid for farms with and without buildings are considered.

Special provision is made for the valuation of farm lands or blocks of more than five acres in towns, villages, and cities. In townships, land is to be assessed against the owners and occupiers. No resident owners who have given the necessary notices are to be assessed as a resident. In cities, towns and villages, resident and non-resident owners are to be assessed in the same way. The sections relating to this are new, as are also those referring to married women, whose husbands are to be entered on the roll, and trustees, executors and guardians, who are in the same position as owners. A tenant now includes occupants and persons in possession other than the owner.

The assessment of personal property has been abolished, and every person occupying or using land, for the purpose of any business is hereafter to be assessed for a sum called Business Assessment to be computed by reference to the assessed value of the land so occupied or used for the purpose of his business. The rate of business assessment is a fixed one, varying from 25 to 150 per cent. of the land value. This is the most important feature of the new law.

Pretty January Wedding—The Presbyterian Church, Millbrook, was the scene of a pleasing event on Tuesday morning, when Mr. David Milligan, of this town and Miss Minnie Kelly, of Cavan, were united in the holy bonds of matrimony. In the presence of only the immediate friends of the contracting parties, the Rev. William Johnston, performed the interesting ceremony. The bride looked charming in her beautiful wedding tressae.

The happy couple left on the 12 o'clock train for Toronto, followed by the good wishes of a host of friends.

Cut Off Dog's Tail.

Two Huntsville Men Are Heavily fined for a Brutal Act.

A day or two ago a much prized collie dog, owned by F. Dallas, manager of the Huntsville branch of the Dominion Bank, Huntsville, stayed on McLaughlin's hotel there. It appears that an argument arose between the owner of the hotel and Mr. Jackson Reid as to the advisability of shortening the canine's tail. A hammer and chisel were soon forthcoming and the dog's tail removed and horribly mutilated. The collie was then turned out into the cold, and ran home in great pain, and on gaining admission, it spattered blood over everything it came in contact with before it could be secured. Mr. Dallas had a warrant issued, and McLaughlin and Reid were arraigned before the Police Magistrate, and each fined \$32.50 and costs. Watchman Warder.

Consumption Begins With A Cough.

The cough racks and tears the tender tissues of the throat. Inflammation supervenes and then serious bronchitis or lung trouble is established. The important time is at the beginning. Stay the progress of the cough by using Fray's healing Catarrh-remover which reaches every part of the bronchial tubes, throat and lungs. Catarrh-remover destroys disease germs, stops the cough, heals sore spots, clears the nose and throat of discharge. Catarrh-remover soothes, never irritates. Guaranteed for every form of catarrh. For mailing cure use Catarrh-remover 25c bottles (treatment, \$1.00; trial size 25c).

GOD SAVE THE KING.

The Russians have evidently not given up the attempt to make an impression upon Sandepas, for the latest reports received state that they are keeping up a vigorous bombardment there. While driven out of Sandepas they still claim that the recent movement was a partial success, inasmuch as they have established themselves on the Hun Ho, and occupy a strategic position parallel to the Japanese extreme left.

One of the principal objects of the Russians at the present time is to harass the Japanese lines of communication from Newchwang and Corea, and thus oblige the enemy to divide his forces, preventing him from making a frontal attack. A vigorous guerilla warfare would seem to be the Russian programme. In recent reports to the Emperor, General Kurapatkin has stated that the only way of getting the upper hand of the Japanese, whose positions are very strong, is to turn them. The recent movement may, therefore, have been only a preparation for the Russian offensive, but it having failed, General Kurapatkin may have to revise his plans.

The importance of this failure is great, as General Kurapatkin, it is probable, is now hardly able to get reinforcements. The army fronting him is being fully maintained and actually increased. With Poland in revolt, Armenia and Finland on the verge of joining her, and nearly every important province in Russia seething with insurrection, the Imperial Gov't will hardly be in a position to send many troops to Manchuria. She wants them all at home.

Russian authorities long ago admitted that one thousand men a day would be all the present railroad could possibly transport and maintain. The Czar ordered the railroad to be double-tracked, but Prince Hilkoff, the Minister of Railroads, says it will be impossible to do so during this war. The most he can promise is some improvement in switches and sidings which will enable the sending out of twenty-two instead of only eighteen trains a day. This is an increase of less than one fourth. At best it could mean only the sending of twelve hundred instead of a thousand men a day. Not at that rate will General Kurapatkin be enabled to overcome his foes.

A Theory Proved.

A New Idea which means a great deal in the Treatment and Cure of Disease.

Dr. Leonhardt, of Lincoln, Neb., the foremost physician of the Western States, has put forward a new theory as to the cause of disease. He says:—

"There can be no doubt, from the evidence at hand, that the stomach is and has always been the first cause of ninety per cent. of all the illness of mankind. The failure of the stomach to digest the food properly results in fermentation and decomposition, and the poisons arising from the food and rotting mass get into the blood and tissue and nerve and breed diseases of every kind."

Dr. Leonhardt has found a remedy for indigestion, Dyspepsia, Biliousness and Constipation. He has tried it in thousands of cases without a single failure.

He calls it Anti-Pill. It is sold at 50c by all druggists, or The Wilson-Fyle Co., Limited, Niagara Falls, Ont. Sole agents for Canada. 109

KING PRINTER'S REPLY.

The King's Printer, Dr. Dawson, has written a letter denying the charge of undue delay in connection with the printing of the Auditor General's report. He states that it is false to say that the copy was in the King's Printer's hands in time to be ready for the opening of Parliament on Jan. 11th. The real truth is that after that date two thousand two hundred and eleven folios of copy have come in. We are now setting on copy which came in on Jan. 21st. It is, moreover, true that the copy is not at the present moment all in. The copy for about 100 pages of solid type has yet to come down. On Jan. 17th the Auditor General had in his hands 448 pages of unsigned proofs.

Banquet in Honor of Mr. Adams.

The Firemen Have a Sociable Gathering and Present One of Their Members with an Address Neatly Printed on Satin, and also a Beautiful Morris Chair.

On Tuesday evening the Millbrook Fire Company had a most enjoyable time at the East End Restaurant, the occasion being in honor of one of their members, Mr. Delbert Adams, who was about to leave for Lindsay.

At ten o'clock over twenty of the Fire Company sat down to an excellent oyster supper, which had been prepared by Mr. and Mrs. J. M. Knox. The supper was all that could be desired, and spoke well of the ability of this up-to-date Restaurant to cater to few or many, on short notice.

After supper, the chairman, Reeve Given, Chief of the Fire Company, proposed the toast "Our King," which was heartily responded to by all rising and singing the "National Anthem." The second toast proposed was, "Our Guest," and in connection with this toast, the Chief read an address to Mr. Adams, and Captain R. H. Edmunds presented him with a Morris Chair. The following is a copy of the address:—

FAREWELL ADDRESS

TO
D. ADAMS, ESQ., MILLBROOK,
BY THE
FIREMEN OF MILLBROOK.

The members of Millbrook Fire Company, having heard with much regret of your intended departure from our midst, desire to express to you their sincere regret that our pleasant associations together are about to be severed. Your interest and active work as a member of our Company have been appreciated by all, and when we state that your leaving us is a serious loss to us, we feel that we express not only the unanimous opinion of the membership, but of the whole community. Not only have you, yourself, been respected and appreciated for your many good qualities, but your esteemed partner in life has also won the regard of all who have known her, and her absence from our village will be regretted.

As a token of our esteem and good wishes, we ask your acceptance of this Morris chair, to recline upon in your hours of leisure, then we trust and know that your thoughts will sometimes wander back to your life among us. Signed on behalf of the Millbrook Fire Company,

W. S. CIVEN, Chief.
R. H. EDMUNDS, Captain.

The singing of "For He's a Jolly Good Fellow," had an enlivening effect. Mr. Adams, although taken by surprise, replied in feeling terms, thanking them for their handsome present and kind words in the address. He spoke of the pleasant associations he had among the members of the Fire Company, and while regretting the severance of those ties by his removal to Lindsay, his thoughts would often go back to Millbrook, where he had spent many happy days. He did not feel able to adequately express to them his gratitude for their great kindness to him, not only on this occasion, but also during the past five years. He also thanked the Fire Co. for the kindly reference to Mrs. Adams.

"Our Fire Company" was next proposed, and the names of Captain Edmunds and Coun. Doak were coupled therewith. Capt. Edmunds made his "maiden" speech, which was brief, but interesting. He sincerely regretted that the Company was about to lose so able a member. He did not pose as a speaker, and would leave the speaking for Mr. Doak, as he had more to say and more time to say it, which proved very true, as Coun. Doak is certainly a good speaker, and his review of the Fire Company since it was first organized here, was quite entertaining. He spoke of the good work that the Company had accomplished in saving life and property from the fiery elements. He also referred to a former Chief of the Brigade, the late Alexander Ferguson, who had done noble work in this connection, and whose memory we all revere. Coun. Doak also expressed regret that Mr. Adams and his estimable family were leaving Millbrook.

After the thanks of the Company had been tendered to Mr. and Mrs. Knox, the enjoyable event was closed by singing "Auld Lang Syne."

Miss Loudon and nephew Master Walter Loudon, of Ottawa, are guests of Mr. and Mrs. W. G. Gillott.

Mr. Harvey Thexton paid his Omemece friends a visit last week.

Widow's Pathetic Letter.

One of Hundreds of Letters Received at Muskoka Free Hospital for Consumptives—Pleads for the Life of an Only Son.

The following is one of hundreds of letters received at the office of the National Sanitarium Association:—

COOKSHIRE, QUE., June 2nd, 1904.

DEAR SIR,—I hope you will pardon my writing to you. I am Charles Brown's poor mother, that is heart-broken about my only son, and longing for your kind letter to arrive to say you can find a place for him soon in the Muskoka Free Hospital for Consumptives. He is the only son I have and I am depending on him for support, and he has a wife and one baby depending on him also for their support.

He is the Charles Brown that Judge Britton's daughter spoke to you about. Dear Sir, for God's sake hasten the time for him to get there, as the longer it runs on him the harder it will be for him to get well and back to his former health and strength again.

MARG' BROWN.

COOKSHIRE, QUE., June 6th, 1904.

DEAR SIR,—I received your kind and most welcome letter to-day. Very glad I was to hear the good news that my dear son can go to the Hospital any time this week. Thank God for the good news. He will leave Montreal Monday, the 13th, or Tuesday, 14th, at the latest.

It has given him new life to hear the glad news that you have sent me, his mother.

MARG' BROWN.

It is to meet just such cases as this that the Free Hospital for Consumptives has been built. Less than three years ago, nearly 400 patients have been cared for, and not a single patient has ever been refused admission because of his or her poverty.

Sir Wm. R. Meredith, Kt., Chief Justice, 4 Lampart Avenue, Toronto, or W. J. GAGE, Esq., 54 Front Street, will receive and acknowledge any subscriptions our readers will send.

A Winning Fight Against Consumption

LARGE DECREASE IN DEATH-RATE SINCE THE OPENING MUSKOKA HOMES FOR CONSUMPTIVES.

1904.—CONSUMPTION FAST BEING STAMPED OUT!

Government Reports Show Decrease of 50 per cent. in 3 years.

Deaths in Ontario Due to Consumption During the Past Three Years from 1901 to 1903, notwithstanding an increasing Population.

IN TEN YEARS, WHY SHOULD THERE BE 200 DEATHS? MEDICAL MEN AND HELP BE GIVEN!

Following diagram, giving figures from the Report of the Secretary of the Provincial Board of Health, tells a wonderful story of decreasing death-rate from consumption since the beginning of our crusade. Note that in the first four years there had been a gradual increase in the death-rate:

Year	Deaths	Year	Deaths
1901	3154	1903	1957
1902	3291	1904	116
1903	3465	1905	147
1904	3424	1906	189
1905	2694	1907	136
1906	2072	1908	321

—\$100,000 has been expended by the National Sanitarium Association in 8 years to maintain and extend its work in Muskoka.

—1,500 Patients have been cared for in these Homes.

—Since the Muskoka Free Hospital for Consumptives was opened in 1902, not a single patient has ever been refused admission because of his or her poverty.

—Much more could be done if only the means were forthcoming. Will you help?
