Friday fast the third lecture of the High Bet ool Lecture Course was given The attendance was, we regret to say, not what it should have been. On account of the inclement weather many stayed at home However those who were present were amply rewarded for their interest with a lecture that has, in its style, never seen its equa here in Omemee. Professor Dyde, of Queen's University, kept the attention of the audience for an hour and a half, and when the lecture was over everyone regretted that it did not last long-

The annual meeting of the Omemor

Branch of the Bible Society was held in the Methodist Church on Wednesent at the beginning of the meeting. and was represented by Rev H. B. Rowe. The meeting opened with the singing of a hymn and prayer. The Rev. W. M. Kannawin, B. D., was called upon to give his address. His subject was " The Word of God," the Bible which the Society prints and distributes everywhere. In very extnest words the speaker pointed out the great importance of the Bible, as the revelation of God's Person and Will to man, and therefore it becomes necessarv to take a greater interest in the distributing of the Word of God, Eev. E. A. Langfeldt, M. A., was the next speaker. He lamented very much the lack of interest in this great work manifested by the meagre attendance. While people were always ready to attend concerts and teameetings, and had always money enough and to spare for the gratification of secular wishes, they were utterly deaf to the calls made upon them by God Himself to a home that we are glad to say is not prosecute His great work on earth far removed it being included in the among men. The speaker reasoned that, if the heart were right with God and realized the blessings received, man would gladly be willing to show forth his gratitude to God by responding to His calls for co-operation. The apparent indifference of the people of Omemee with regard to the noble work of the bible Society did not manifest any too much spiritual life in the hear:s of the professing Christians. He hoped, however, that all would rectify therir shortcomings by giving a liberal response to the collectors when they would ask for contributions Mr Isaish Ther. ton, the Treasurer, gave the financial report, which showed that \$65.31 had been contributed by Omemee and Emily. The President hoped that this year's amount would exceed that by at least \$25.00, so that \$100,00 could be sent. He also expressed his hope that those who were to be appointed to any office would do their work willingly and gladly. It was his desire that some one else should accept the office of President, which he had filled for many years, for he thought the honour should pass around. Whatever he had done, he prettiest did it gladly, because he loved the Bible and owed all to it, therefore it gave him great pleasure to work for the Bible Society that the Word of God might be distributed to others. The nemination of officers resulted as follows : President, Thos. Kennedy, Esq.; Vice-Presidents, the resident Ministers ; S. cretary, Joseph T. Beatty, Esq.; Treasurer, Isaiah Thornton, Esq. Mr. Kennedy declined the office, but upon request reconsidered and accepted. The motion was carried unanimously. As Dr. Thompson had resigned his of-Mr. J.
