MOTHER VICTIM REJOICES.

IT is not an uncommon thing by any means for a sufferer from Sciatic Rheumatism to become completely helpless from the disease, in fact more helpless than a child. And what havoc such pain creates in the entire system!

The effects of a long siege of rheumatism is apt to be very severe on the constitution, so that the patient should be prompt in obtaining relief the moment the opportunity presents itself. The restoration to health of a rheumatic sufferer is like unto the freedom from a prison cell of an innocent man.

Dr. Hall's Rheumatic Cure is put up in 50 cent bottles, containing ten days' treatment. For sale by all druggists and dealers in medicine. The Dr. Hall Medicine Co., Kingston, Ont.

Bills will be out to-morrow announcing the grand Concert to be held in the Bradburn Hall on Easter Monday evening.

DRY GOODS, PETERBORO.
Mr. and Mrs. Jones were visitors to Peterboro Thursday.

Dr. Newlands, experienced and successful Dentist, of Lindsay, will be at the Commercial House of Post Office Omamee, on Tuesday, April 2. He will have on hand pain extractors. Call in the forenoon if possible and secure an appointment. Everything up to date in dentistry.

During the Holy Week, which begins Sunday next, daily services will be held in Christ Church at 7.30, except Monday April 1 and Saturday April 6. On Easterday there will be held morning and evening service in Christ Church at 10.30 and 6.30 respectively.

All good Omamee people when on a visit to Peterboro should not fail to call on Henry & Co's up-to-date liquor and grocery store opposite Opera House, where they can get everything in wine, liquors, ales and Porters and groceries.—3m.

We give some more forecasts from Rev. Irl R. Hicks' Almanac for the month of April "From Monday the 1st to Saturday the 6, will constitute a regular storm-period, in which all the tenting storms should be calmly but closely watched. Dangerous storms are not absolutely certain, but exceedingly probable. About the 3, and 4, high temperatures will prevail, the barometer will fall, and many rain, hail and thunderstorms will sweep over the country. A sudden and very great change from hot to cold will follow the storms, causing heavy frosts, especially in the southern parts. On the 8th and 9th there will be a general reaction from high barometer, and clear cool weather, to rising temperature, falling barometer and many local showers, with wind, hail and thunder. With the 12th day a change to quite warm weather will take place with southerly winds. Sunday the 14th to Tuesday the 16, will be days on which storms of hail, rain, wind and thunder will occur crisis." The forecasts of this Astronomer have been so accurate that it is worth the while to read and mark them.

Positively no more Credit will be given for Laundry. Please don't ask for Credit. We are not Millionaires. Omamee Branch of the Victoria Laundry.

No doubt Horace Greeley, with his "Go west, young man," has been responsible for many protracted bachelorhoods and much resultant dyspepsia among the young men who in years gone by followed the setting sun and "went west," but letters of such a pathetic nature as the following, taken from an Ontario exchange, are getting just a shade out of date. The plea is said to come from a bachelor at Edmonton, Alta. Here it is: "Having read your paper for some time I have come to the conclusion that it is a good medium to reach the public by an from read you persons I infer that there are some women thereabouts. I feel that this is my opportunity and that man proposes and God disposes. Sum of ten years since I left my boyhood home to find a fortune in this country and I have found a fortune I now realize that I have missed the ministering kar of a woman and her simity. I have a fortune and a ranch just outside Edmonton, no mazing on it, I raised this year 8,000 bushels of wheat of 277 bushels and a bushel sight more an wood fuel better if I had a wife to do the cooking. I am feelin' a holl slow of hog what I can sell soon if I got married. If you can find me a woman I will make it interestin fer you. I am gettin a little bald an I want her to take me as I am. I kant writ much butt am a blaste sight smarter than they think. print this fer me if you think it will do any good, but I don't want any young girls to apply; just the meedums." Surely such a worthy cause calls for volunteers.

Rev. E. A. Langford, M. A., was in Peterboro Tuesday.

Mr. J. T. Richards, who has been on the Mirror staff the past few months, left for Millbrook Saturday.

Mr. James Stewart, of Franklin, was in town yesterday, a guest at the home of Mr. and Mrs. Wm. Cunningham.

The vicinity of the bridge will soon be a scene of much activity. Mr. Nichols is getting ready to start his mill, and thereby only to a great extent the business atmosphere of our town. There is apparently enough material on the ground to keep the proprietor of the mill and his men busy for the whole summer and fall. The appearance of the saw-mill has changed very much to its improvement, and people need not fear any run-aways, since the building has been properly fitted up by being boarded in.

Thomas Brady, Kent St. Lindsay, keeps in stock a large and fresh stock of groceries at prices as low as the West. Give us a call when in town.—3m.

Lord Wolsley's Mistake.
On one occasion Lord Wolsley's zeal for the welfare of his men got the better of his discretion. Dinner was being served to the soldiers, and orderlies hurried backward and forward with steaming pails of soup. Lord Wolsley stepped one of them. The man was "at attention" in a moment. "Leave me the lid," No. 1000 said then done.

"Let me taste it."
"But, your yer—"
"Let me taste it, I say."
And "taste it!" he did.

"Disgraceful! Tastes like nothing in the world but dish water."
"There, by honour," gasped the man, "and so it is."

Generalism to Factorymen
From The Montreal Bunter and Cheese Association.

CHEESE OF CHEESE.
The Montreal Bunter and Cheese Association desires to call the special attention of Factorymen to the unimproved condition of most of the cheese coming to Montreal. It has become the practice of Factorymen to send their cheese to Montreal before they are sufficiently cured, and if we are to hold the good reputation we have gained, this bad practice must be stopped, and cheese must be held in the factories at least two weeks for fast curing, and longer for slow curing cheese, or in all cases until the cheese are curd. Factories should be so provided that the temperature of the curing room can be maintained at or near 50 degrees Fahrenheit, or raise cheese are injured, by heat in summer and cold in autumn.

APPEARANCE OF CHEESE.
A large number of the cheese arriving in Montreal have at least one rough end, and some have two rough ends, giving the cheese a very bad appearance and affecting their value. All cheese might easily have a good appearance if the maker would take his cheese out of the hoops early in the morning of the day following the date of manufacture, trim off any unevenness, put his cheese back to press with the ends reversed, and leave them there until the afternoon, using press rings to keep the cheese from pressing up between the hoop and the follower.

CHEESE BOXES.
The cheese boxes generally in use are disgracefully poor, and Factorymen should insist upon being supplied with a better box in future. In the box that is at present being supplied, the sides are too thin, which causes them to break, and the head and bottom is frequently made of too many pieces, which causes them to fall out, and in sufficient maling of these is a common complaint. We ask the Factorymen to insist upon getting boxes with sides from one-fifth to one-quarter of an inch in thickness, with not more than two pieces in the top or bottom, and with the top and bottom pieces properly nailed. These pieces should be made of well dried material, so that they will not shrink away from the cans and weaken the box.

WHEY.
Another objectionable practice seems to be growing in many districts of the country, and that is the practice of carrying whey back from the factory to the farms in milk cans, which gives to the cans a bad smell, and this is too often communicated to the milk, and does a great deal to cause bad flavor in the cheese. Where the farmer desires to make use of his share of the whey, it is strongly recommended that he carry with him in his wagon a barrel or other cans than his milk cans to convey the whey to the farm. Under no circumstances should whey be conveyed in milk cans.

BUTTER.
Canada must go more largely into the manufacture of fancy butter, since it is evident that we are now making as many cheeses as can be consumed in one season at profitable prices. There is abundant room for expansion in butter making, provided only the best quality is made. All hope of doing an export trade of any importance in dairy butter must be abandoned. Nothing but the best cheese butter will sell freely and profitably. There is proof enough that fancy butter can be made in Canada, but much progress must yet be made over our average quality will stand as high as that of Denmark or Australia. We are especially behind these countries in regard to packages. Only the best obtainable should be bought, uniform in style and size, and where boxes are used, no more and no less butter should be packed than will test 56 lbs. when delivered in Montreal.

MONTREAL, FEBRUARY 14th, 1901.

Wedding Bells.

A most charming event was that which took place at "The Willows," the residence of Rev. Alex. McNaughton, near Port Hope, Wednesday March 20th, when his niece, Miss Margaret McNaughton-Camelon and Mr. David Frederick Weir, of Emily, were wed.

The drawing room in which the ceremony was performed was very artistically decorated, the wedding party entering through an avenue reserved by means of silk ribbons held by two pretty maids-of-honor, Miss Lillian Orr, of Peterborough, and Miss Louisa Dixon, of Port Hope. Rev. W. Sinclair of the First Presbyterian church, Port Hope, assisted by Rev. Mr. McNaughton, performed the ceremony.

The bride was given away by her brother, Dr. T. B. Camelon, of Detroit, and was assisted by her sister, Miss Jean Camelon, as bridesmaid. Mr. Thomas S. Phoenix, of Omamee, was best man. There were present about fifty friends and relatives of the contracting parties, among them being a number from Peterborough, where the ostensible young couple are well known.

The bride's gown was a very becoming and handsome creation of white silk organdie; she carried a shower bouquet of white roses. Her sister wore a pretty attire of white organdie over pink, and carried pink roses.

An excellent wedding breakfast was served after the ceremony.

That the bride was very popular was evidenced by the many magnificent presents of which she was the recipient.

Mr. and Mrs. Weir left last night for their home in Emily. The Mirror joins with a host of friends in wishing Mr. and Mrs. Weir a long life of happiness and prosperity.

The Misses Murray and Austin, of Toronto, head milliners for Messrs. T. Ivory & Sons, are busy preparing for their grand Millinery Openings on April 4, 5, and 6. See ady. in another column.

Girls Should Learn.
How to arrange the parlor and Library, and stick to it.

To dress for comfort and health, as well as appearance.

How to sew on buttons' darn stockings and mend gloves.

To make the sleeping room the neatest room in the house.

How to cultivate flowers and make and keep the kitchen garden.

To regard morals and habits, and not money, in selecting their associates.

To observe the old rule: "A place for everything and everything in its place."

The important truth, that the more they live within their income the more they will save, and the farther they will get away from the poorhouse.

ANNOUNCEMENT.—Having purchased the firm business formerly carried on under the firm name of EDMOND & WALES, I will continue it under the same name. It will be my care to maintain the high reputation so long held by the business for reliable goods and for accuracy in the preparation of medicines and prescriptions. The stock will be maintained at a high standard of excellence. Inviting a continuance of patronage, very respectfully, DICKSON DAVIDSON.—3m.
