# McPhersons General Store and Bakery.

The building of Mr. T. A. McPherson is a massive 3 story structure, built in the most approved and architecturally solid style, which, however, does not detract from the beauty of its exterior, especially that part forming the nishings and Ready-Made Clothing. store front.

The building proper is 80 feet in length by over 40 feet in width, with continuous additions from street to street consisting of a bake house 20 x 40 feet, commodious sheds and stabling.

On east side of a spacious passage way in the store are large counters and show cases almost hidden and filled with a variety of saleable goods, a part lighting and heating. of which, only, can be enumerated

Back of the counters, &c., are wide aisles separating the above named counters and showcases from chests of drawers, surmounted by repeated shelving, containing a choice assortment of various goods suitable for display.
