AN PROTECTIVE ASSOCIATION.
A Straight Statement of Its Objects, Aims and Principles.

Some time ago a statement appeared in the public press to the effect that the principles of the secret association that is understood to be in course of organization in this Province, and popularly known as the P. P. A. The matter has since become one of considerable controversy, and the versions of the Society's mission have been various and conflicting. A certain form of oath has been printed and sent broadcast purporting to be the oath used in the Association in question. To set at rest these conflicting rumors and allegations, the following is issued as being a true statement of the mission of this society, for public enlightenment.

THE OMEMEE MIRROR.
OMEMEE, FRIDAY, APRIL 27, 1894.

EDITORIAL NOTES.
Mr. Van Horne, of the C. P. R., insists that wheat will be \$2 a bushel within eighteen months. We have the utmost faith in Mr. Van Horne as a railway manager, but are somewhat inclined to the opinion that wheat won't go above \$1.99 within the time mentioned.

Under the new criminal code any person who engineers a raffle or buys a ticket in any game of chance renders himself liable to a fine of \$2,000 and imprisonment for two years. The played out watches and clocks usually put up as prizes will have to be taken to the junk shops hereafter.

Those matrimonially inclined should take note that a bill introduced by Mr. Mowat provides that persons not being widows or widowers shall not marry under the age of 21 years without the written consent of parents or guardian, and no license is to be issued to persons under 18 without such written consent.

The Ontario Government has spent three and a half million dollars in building asylums for the insane and idiotic, and half a million is appropriated every year for maintaining the same. In addition to this, \$548,000 has been expended in erecting deaf and blind institutes and the annual cost of maintaining them is nearly \$80,000.

A Winnipeg despatch says that Honore Jaxon, who is acting as one of Coxey's lieutenants, is none other than Jackson, who was one of Riel's "head-men" in the rebellion of 1885. He narrowly escaped the fate of his chief on that occasion. He is a lunatic and recently escaped from Selkirk (Man.) asylum. He masquerades as an Indian in Coxey's army.

One member of the detachment of Marine Artillery which passed through Montreal recently on its way to Esquimaut, B. C., was a survivor of the Victoria man-of-war disaster. The detachment included the champion nine-sunder shifting ordinance team of the British forces, who had done the dismount run sixty-five yards and remounted in the quick time of 33 seconds.

In England electric motors are now placed within wheeled vehicles and are worked with success. They look like an ordinary two horse van without shafts. The doing away with horses saves wear and tear on the streets, does away with the removal of garbage, doubles the capacity of the thoroughfares and prevents blockades since horses take up as much room as the vehicles. The investment is about one-half of the present outfit of wagons and horses. Moreover the daily cost is less and when the new motive power is applied to carriages, busses, etc., it will undoubtedly further reduce the cheap fares of London. It is evident that in a very few years horses, except for pleasure driving, etc., will in the large cities of Great Britain, be almost entirely discarded. The lesson to farmers from these facts is that they should raise good horses, as year by year poor animals are becoming of less value. Raise the best, and the best only.

MILLBROOK.
From an Occasional Correspondent.
The lamp-post meeting was postponed last week, owing to Johnny, the President, arriving late with a purple eye.
The lacrosse club was organized on Friday of last week. There were about thirty-five members present. The following officers were elected:—
Hon. President, John Allen.
President, Alf. Raper.
Vice-President, Harry Richards.
Sec.-Treas., L. F. Clarry.
Captain, J. A. Vance.
Committee—J. Natrass, W. Coombe and W. D. Leach.
The secretary will be pleased to arrange for a match with any club which is anxious for a game.
In the burning of the Queen's stables, we are sorry to state that Mr. Joseph Curran was a loser to the extent of about \$250, principally in clothes. No insurance.
I'll hack no more in this here town: For the blooming place is haunted; You gets your best trunk burnt up brown And your clothes is missin', when wanted.
About the time when most clocks were striking the hour of midnight (at least those sold by J. Steele) people in the vicinity of the Dominion Hotel might have heard sounds of the desperate struggle and cries of "Give it to him, Tiffany!" "Shut him off, Johnny!" "Ten to one on Tiffany!" Upon investigation it was found that Mr. Tiffany was damaged to the extent of a broken wish bone, and Johnny had left for home with a purple eye.

April Proverbs.
A cold April the barn will fill.
Snow in April is manure.
April snow breeds grass.
April cold and wet fills barn and barrel.
A cold and moist April fills the cellar and fattens the cow.
A dry April not the farmer's will; rain in April is what he wills.
When April blows his horn, 'Tis good for hay and corn.
April borrows three days from March, and they are ill.
Whatever March does not want, April brings along.
When April makes much noise we will have plenty of rye and hay.
Thunder storms in April is the end of hoar frost.
After a wet April follows a dry June.
When on the 24th rye has grown so high as to hide a crow a good harvest may be expected.
April and May are the keys of the year.

AN PROTECTIVE ASSOCIATION.
An Interesting Lecture.
On last Monday evening, Rev. Ishoo, of Persia, who has been a student at Knox College, Toronto, for the past three years, gave a lecture in the Presbyterian Church. There was a large representation of the different churches present, and were well entertained for nearly two hours by the foreigner. Mr. Ishoo has made wonderful progress in mastering the English language, being able to express himself quite intelligently and delighted the large audience in narrating the manners and customs of his ancient country, which is under Mahomedan rule. He said the population of his native land was over ten millions, and only a very small fraction of the people had been brought under Christian influence through the efforts of missionaries sent from this country. The Catholics were the first to send missionaries, later the Church of England and last the Presbyterians. His impression of civilization when he reached the continent and America was very amusing and his peculiar way of expressing it was thoroughly enjoyed. He returns home next July, a distance of 9000 miles. The silver collection at the close was quite satisfactory.

Licenses For 1894-95.
A meeting of the East Riding of the County of Victoria License Commissioners was held at the office of the License Inspector, Lindsay, at 11 o'clock a. m. yesterday. There were present Ed. Lytle, chairman, and Messrs. John A. Ellis and W. C. Moore. Inspector Short acted as secretary. The following licenses were granted:
FENELON FALLS—J. Twomey, Henry Brooks and John Aldus.
BOBCAYGEON—Mrs. Sena A. Goulais, and G. Hunter.
OMEMEE—I. W. Wilson, and Wm. Cardwell.
CAMBAY—D. McIntyre and Mrs. Lucinda Tamblin.
GLENARM—John Campbell.
CAMERON—Mrs. E. Simpson, beer and wine.
STURGEON POINT—W. H. Simpson, six months.
KINMOUNT—Gilbert Scott, Jos. Bowie and Charles Dunbar.
COBOCKON—Mrs. S. A. Pattie, and D. C. McRae.
VICTORIA ROAD—W. J. Chirpaw, UPHILL—Thos. Wylie.

THE TRENT VALLEY CANAL.
We are in receipt of the following circular letter issued by Mayor Kendry, and which has been sent to interested parties living along the proposed line of construction. The letter fully explains its contents:
Mayor's Office,
Peterborough, April 16th, 1894.
DEAR SIR—There has been a revival of interest in the Trent Valley Canal Scheme, and the Town Council and Board of Trade of Peterborough believe that the present is a propitious time in which to make a strong effort to have the Dominion Government make an appropriation for the construction of the remainder, or another section, of the Canal and place it under contract. With this in view, these bodies have convened a meeting of the Canal Scheme along the whole line, to be held at the Town Council Chamber, Peterborough, on Wednesday, May 2nd, 1894, at 2 o'clock in the afternoon. It is hoped that every municipality interested will be well represented.
Yours truly,
JAMES KENDRY, Mayor.

Fowler's Corners.
Special to the Mirror.
Dr. Waldon and G. W. Mulligan of Omeme, gave us a call this week.
Geo. McPherson, traveller for H. A. Nelson & Sons, Toronto, was in our village this week.
The lecture in the Lakeview Presbyterian Church on Tuesday night was well attended and a very large collection was taken up on behalf of the speaker. The subject was upon the manners and customs of Persia and was very interesting.
Another fish story? We were a little surprised last week at the appearance of one of Peterborough's policemen coming into the village. But we are a quiet orderly lot of citizens, we had nothing to fear. After the police had departed, we found out that he was after an old offender of the fish law. Upon his arrival at the home of the fisherman, the bird had flown and is in flight. All we know for we have not heard of his capture yet.

The beautiful ABERDEEN CART, the handsomest, best, most durable, and the easiest riding two-passenger Cart made on this continent. To say that it has no horse motion might be exaggerating, because all two wheel carts have more or less horse motion, but I can say that it has less than any cart made, a fact that can be proven by any man that has ever driven in one. The body is hung on platform springs of the best quality, entirely independent of the shafts. This cart does not do this year's make justice, as they are furnished with a closed back and silver dash rail. Buy no cart until you see the Aberdeen Cart.
A. E. BYERS, Agent, Omeme.

To the Public:
My offer of reduction in prices up to January 1st, 1894, having been taken advantage of to the material satisfaction of both buyers and seller, I now tender thanks to my patrons for their liberal support, and beg to assure them that in the future as in the past it will give me pleasure to meet their requirements both in quality and style of goods and at prices that will compare to advantage with the trade generally. In addition to my present stock, I have to arrive soon, some very desirable polished Oak and Elm Bedroom Suites, to which I would call the attention of intending purchasers. Also now on hand the World Famed Dominion Spring Bed Bottoms, which only require to be known to meet with the cordial approval of all advanced housekeepers.
