The above mentioned are outsiders and not residents of this place.
 Any person who grows celery can easily produce large and white stalks, but the main point is to have them crisp. Good celery should break into two or three pieces when bent, and should be very brittle. The way to secure the brittleness is to begin blanching the stalks from the start, and also grow them rapidly. If the blanching is done later in the season, as is usually the case, the stalks will be white and attractive, but will not be as brittle as when the blanching is done gradually during the whole season.

He received such a nervous shock that he has been in bed ever since. As may be imagined the affair is causing quite a talk and for a time is overshadowing the school question.

 A story is told of a Hastings young man, that night he had been serious instead of ludicrous. He paid a visit to his best girl and while on the way both suspender buttons of the rear section of his trousers gave way. To prevent embarrassment, a couple of matches were substituted for the treacherous buttons. All went well until, by friction against the back of the chair, the matches became ignited. A conflagration was narrowly averted and the young man is not over his fright yet.
 A man may use a wart on the back of his neck for a collar button, ride on the back coach of a railroad train to save the cost of his money until the conductor comes around; stop his watch nights to save wear and tear; leave his "I" or "P" without a dot or cross to save ink; but when his mother's grave to save corn; and a schily companion to a fellow who will take a newspaper two or three months, and when asked to pay for it, puts it in the office and has it marked "refused."—Bill Nye.

 Some fifteen or twenty towns and country sports were struck with consternation the other day upon receiving summonses from Archie Bradshaw, fishing inspector, to appear and show cause why they should not be fined the limit for certain infractions of the law, i. e., for having shot maskalongo, or having them in possession, or offering for sale. The rumor spread rapidly, and Mr. Bradshaw was more than surprised to receive overtures for a settlement from many against whom he had no evidence, but whose guilty consciences led them to suspect that they were "on the list." Some of the parties had to fork over as high as \$14.—Post. We are informed that probably a good number in our town will soon be summoned for the same offense.
