That was a happy crowd that assembled at the railway crossing on Sturgeon Street on Saturday morning last. The Y. P. S. On arriving at this crossing from which the special train was ad vertised to leave, one was met by members of a committee recognized by the red badges that they wore, and who admirably discharged the duty for which they were appointed, they saw that all passengers were made comfortable, furnished all necessary information, and made themselves generally useful.

Everything was cordial and harmonious and everybody looked happy. There was a smile on every side, and the dash of the paddle wheel, kept time to the merry laughter on the boat.
