Weak from Infancy RICHLY-DRESSED WOMEN.

THE UNFORTUNATE CONDITION OF MISS ERNESTINE CLOUTIER.

As She Grew Older Her Troubles Bacams More Pronounced - Bootors Sald Her Case Was Ono of Caneral Debility, and Held Out Small Hepd of Recovery-She is Now Well and Strong-A Lesson for Parants.

From the Telegraph, Quebec.

No discovery in medicine in modern times has done so much to bring back the rich glow of health and the natural activity of healthy young womanhood to weak and ailing girls as has Dr. Williams' Pink Pills. Girls delicate from childhood have used these pills with remarkably beneficial effects, and the cherished caughter of many a household has been transformed from a pale and sickly girl into a happy and robust

condition by their use. Among the many who have regained health and strength through the use of Dr. Williams' Pink Pills is Miss Ernestine Cloutier, the fifteen year old daughter of Mr. G. A. Cloutier, residing at No. 8 Lallemand street, Quebec city. Mr. Cloutier in an interview with a representative of the Telegraph gave the following account of his daughter's illness and recovery: "Almost from infancy my daughter had not enjoyed good health, her constitution being of a frail character. We did not pay much attention to her weakness as we thought that she would outgrow it. Unfortunately this was not the case, and as she grew older she became so weak that I got alarmed at her condition. For days at a time she was unable to take out of doors on she could not stand without supporting herself against something and at times she would fall in a faint. I called in a doctor, but his medicine did not help her and she was growing weaker than ever. Another physician was then consulted who pronounced her case one of general debility, and gave me very little hope for her recovery. Some months ago while reading one of the daily papers I came across the case of a voung woman cured by the use of Dr. Williams' Pink Pills, so I determined to give them a trial. After she had used about three boxes the color began to come back to cheeks and she began to stronger. Greatly encouraged by this, she continued to use the pills for several months and now she is as well as any girl of her age. 7appetite is good and she has gained thirty-five pounds in weight. Pink Pills have built up

MOTHER AND QUEEN.

The queen always made at a point to keep the religious instruction of her children as much as possible in her own hands. Once when the Archdeacon of London was catechizing the young princes, he said. "Your governess deserves great cre-

dit for instructing you so thorough-At which the youngsters piped up:

"It's mamma who teaches us our catechism !"

It is not perhaps, generally known that the queen occasionally taught a Bible class for the children of those in attendance at Windsor Palace.

> ELECTRICITY IN HORTI-CULTURE.

The uses of electricity are daily enlarging. It seems some Russian scientists have been making interesting experiments in the effect of electricity in horticulture, or, as they term it, "electroculture." It has been proved that electrified seed germinates more rapidly than others, ity. The only book that sells on sight, and also by burying in the soil one Sales next to the Bible. SUBSCRIPTIONS IN INDIA.

There is no country in the wide world like India for collecting huge subscriptions in a short space of time. The Mansion House is considered hard to beat in this respect, but to no London fund have such huge individual sums been presented as were given by the Indian princes for the purpose of erecting a memorfal hall to the late Queen in Calcutta. The Maharajah of Kashmir gave £100,000; the Maharajah of Scindia, £66,666; the Maharajah of Jaipur, £33,333; and many others gave smaller amounts. The seven largest donations total £216,529. Truly a manificent record for a first list,
