HOW FIRES MAY START.

Things That Will Cause Spontaneous Combustion.

Damp lampblack will ignite from the sun's rays. The same can be said of cotton waste moist with hard or other animal oil. Lampblack and a little oil or water will. under certain conditions, ignite spontanesously. Nitric acid and charcoal create spontaneous combustion. New printer's ink on paper when in contact with a steam pipe will ignite quickly. Boiled linseed oil and turpentine in equal parts on cotton waste will ignite in a few in time create enough heat to ignite spontaneously, says Cassier's Magazine. Bituminous coal should not be stored where it will come in free from moisture and under good countless wrongs have been quickly craft. Of that number only 344 ventilation. That liable to absorb redressed. moisture should be burned first. If One of the incidents of the recent should never be placed over iron shavings. This mass of disintegrated iron is enough to incite heat and combustion. Iron and steel filings and turnings when mixed with oil will ignite spontaneously after

BRITISH NAVY'S COAL BILL. The British navy's coal bill is \$10,000,000 a year. Experiments are now being made with coal which has been immersed in water. Results show it has higher evapor- you?" tive qualities and longer endurance "Nothing, sir. My name is Single. than coal fresh from the pit's and I'm married. Good-day, sir." mouth. The experiments owe their origin to an accident, and experts believe it may involve a revolution in coaling stations abroad. It is pointed out that if coal can be preserved at foreign stations under water it will not only last longer, but also will enable the withdrawal of thousands of men as military guards, a few patrolling torpedo boats replacing them.

AN AMBER HARVEST.

It is said to be an ill wind that blows nonody good. The tremendous gales which raged recently did the inhabitants of some of the villages on the southern Baltic coast a very good turn, large quantities of amber being washed ashore by the waves. At Rothenen, for instance, amber worth 24,000 marks (\$6,000) was picked up, while at other places there were satisfactory harvests of this valuable substance.
