Black, Mixed or Green Tea.  
Sold only in lead packets. By all Grocers.  
Highest Award St. Louis 1904.

## PERSONALLY CONDUCTED TOUR

To California and Lewis and Clarke Exposition, Portland, Oregon.

A personally conducted excursion to the Pacific coast via the Grand Trunk Railway System and connecting lines leaves Quebec July 5, and Montreal and Toronto July 6. The route will be via Chicago, thence through Council Bluffs to Omaha, Denver and Colorado Springs. Stops will be made at each of these places and side trips taken to Manitowish, Cripple Creek, Garden of the Gods, etc. From there the party will continue through the famous scenic route of the Denver and Rio Grande, through the Royal Gorge to Salt Lake City, thence to Los Angeles, San Francisco, Mt. Shasta, Portland, Oregon, Seattle, Spokane, and home through St. Paul and Minneapolis. The trip will occupy about thirty days, ten days being spent on the Pacific coast.

The price for the round trip, including railroad fare, Pullman tourist sleeping cars, all meals in the dining car, hotels, side trips, etc., is \$165.50 from Quebec, or \$160.50 from Montreal, and \$150.00 from Toronto. This first trip is designed as a vacation trip for teachers, although many who are not teachers will improve the opportunity of taking the trip at the remarkably low price afforded.

## RESCUE IN THE ATLANTIC.

### Callant Steward Risks Terrible Death to Save a Woman.

When the New Zealand Shipping Company's steamer Rimutaka, from Wellington (N.Z.), sailed into Plymouth recently, the hero on board was Dan Pearce, one of the stewards.

The action which raised him to this distinction occurred on April 16 when the vessel was off Cape Verde.

A lady passenger, of weak mind, leaped into the sea when the Rimutaka was going at full speed.

"Throw over the lifebuoy," shouted Pearce, as he at once plunged into the foam caused by the ship.

Pearce managed to reach the woman, and secured her to the buoy, but in the meantime the steamer ploughed on, and only her funnels were in view.

Holding the buoy in one hand, and sustaining the passenger by the other, Pearce struggled on, haunted by the fear of sharks, which are known to abound in that part.

For half an hour he battled with the waves. In the meantime the engines of the Rimutaka had been reversed, and amid great excitement, the rescued woman and her brave deliverer were picked up.

There was a salvo of cheers as the two were hauled up to the deck, but Pearce did not hear them—he had fainted away as the result of his stupendous exertions.

Pearce was presented by the passengers with a purse of £57, and his colleagues of the stewards' department intend to present him with a gold watch and chain.

## HAPPY DAYS FOR BABY.

The healthy child is a happy child. All its little troubles vanish when it is digesting its food well and is free from childish ailments. The greater part of these ailments arise from stomach and bowel troubles, feverishness, teething and worms. Baby's Own Tablets act like magic in these cases, and when children are restless at night they always give sound refreshing sleep. Mrs. A. LePage, St. Florence, Que., says: "Baby's Own Tablets had marvelous results in the case of my two months old baby. He was nervous, troubled with colic and badly constipated, but after giving the Tablets he began to improve at once and is now in good health. I also gave the Tablets to my three year old boy who was troubled with worms and they cured him as well. Both children are now the picture of health, and I am always praising the Tablets to my friends." You can get Baby's Own Tablets from any drug store or direct by mail at 25 cents a box by writing the Dr. Williams' Medicine Co., Brockville, Ont.

## WORLD'S GREAT CITIES.

### Chicago Expects to Pass New York in Few Years.

Chicago in 1905 is the fourth city in the world in point of population and wealth. The only towns which lead it are London, New York, and Paris. Canton is sometimes assigned a larger population, but this is estimated, for there has never been any census taken of its population. Berlin has just crossed the 2,000,000 mark in inhabitants, but is safe to assume that Chicago is ahead of the German metropolis. It is likely to keep ahead, notwithstanding the

wonderful growth of that capital unexampled in Europe's annals. Nearly all the world's great cities—Paris, Berlin, St. Petersburg, Vienna, Madrid, and others—are far inland. Even London, the nearest to deep water of all Europe's great capitals, is over sixty miles distant from the sea. New York is the only city of commanding importance in any civilized country which is in sight of the ocean. Chicago feels that some time it will have the same pre-eminence in the United States that Berlin has in Germany or St. Petersburg in Russia. It is growing faster than New York, has several suburbs which it expects to absorb within the next five or ten years, and figures that it will pass New York by 1910. Ten or fifteen years prior to that date New York will have passed London—Leslie's Weekly.

## PALE, FEEBLE GIRLS.

### A Great Responsibility Rests on Mothers of Growing Girls.

A great and serious responsibility rests upon every mother whose daughter is passing the threshold of girlhood into womanhood. She is at a crisis, and if she is to be a healthy, happy woman she must do right now. She must not be pale, sunken-eyed, sallow, languid and bloodless at this time. She must have additional strength and rich, pure blood to help her to strong, healthy womanhood. There is only one absolutely certain way to get new rich, health-giving blood, and that is through the use of Dr. Williams' Pink Pills. Every pill helps to make rich, life-giving blood, that brings strength to every organ in the body and the glow of health to pale, sallow cheeks. Thousands of pale, anemic girls in all parts of Canada have been made well and strong through the use of Dr. Williams' Pink Pills. Mrs. Rachel Johnson, Hemford, N.S., says: "As a result of overstudy in school, the health of my daughter, Ellen, became greatly impaired. She grew extremely nervous, was pale and thin, and suffered from most severe headaches. She had no appetite, and notwithstanding all we did for her in the way of medical treatment, her suffering continued, and I began to feel that her condition was hopeless. Indeed I began to fear her mental powers were failing. One of my friends strongly urged me to try Dr. Williams' Pink Pills, and as I was willing to do anything that might help her I sent for a supply. After using the pills for less than a month, we saw that her vigor was returning, and in less than three months her health was fully restored. Considering the fact that she had been ill for two years and that doctor's treatment did her not one particle of good, I think her cure speaks volumes for the wonderful merit of Dr. Williams' Pink Pills. The new blood which Dr. Williams' Pink Pills actually make, is the whole secret of their great power to cure diseases. That is the reason these pills cure anaemia, heart palpitation, headaches and backaches, rheumatism, neuralgia, kidney troubles, and a host of other ailments due to bad blood and weak nerves. But be sure you have the genuine with the full name, 'Dr. Williams' Pink Pills for Pale People,' on the wrapper around each box. If in doubt, write direct to the Dr. Williams' Medicine Co., Brockville, Ont., and the pills will be sent by mail at 50 cents a box or six boxes for \$2.50.

## WRAPPER IS WEIGHED IN.

### British Public Buy Paper and String For Tea and Sugar.

"In one year the British public bought 5,089,618 pounds of paper and string as tea." Thus Baillie Thomson, a Govan magistrate, in denouncing the anomalies which exist under the Weights and Measures Act, at the annual meeting of the Incorporated Society of Inspectors of Weights and Measures held in London recently.

It was an extraordinary position, he said, that while a trader who used unjust weights and scales was liable to prosecution, the act did not empower an inspector to take any cognizance of a deficiency in weight in the actual goods ordered by and delivered to a purchaser.

## CHINA'S WEALTH OF COAL.

According to an estimate issued by the British Royal Commission, China has 282,000 square miles of coal-producing lands, the United States 200,000, Canada, 65,000, Great Britain 12,000, France 3,000, and Germany 1,700. With all its claims of ancient civilization, China has never yet woken up to the productive uses of coal, though it seems to have more of it than exists in any other country.

## PEOPLE MAKE 100 WILLS

A LAWYER CHATS ABOUT HIS STRANGE CLIENTS.

Rational on Every Other Subject But the Making of Wills.

With certain individuals, said a prominent lawyer recently, the making of wills almost amounts to a species of insanity. I could tell you of clients of mine who have made forty, fifty, and even a hundred wills and, though they may have been rational on every other subject, they certainly had a screw loose in regard to the apportioning of their property.

I had a client who recently died, and who, in the course of less than three years, had made no fewer than forty wills. She was a Mrs. McVitie, and when the final will came to be proved those relatives whom she had ignored, of course, sought to prove insanity, but with the exception of being a little peculiar on the subject of will-making she was just as sane as you and I. Her reasons for making and changing her will so often were quite legitimate. Sometimes a relative whom she had "remembered" would annoy her by some indiscretion, and down she would come to have

## A NEW WILL DRAWN UP.

She had that peculiarity possessed by nearly all those afflicted with the "will habit"—namely, the objection to the adding of a codicil. If the slightest change was necessary, then a new will had to be drawn up—nothing less would satisfy her.

When she died her "last will and testament" proved to be the shortest of the entire forty, for in it she left her fortune, amounting to about \$80,000, to her physician unconditionally.

There was another client of mine, a society woman this time, who also had the will habit, and for whom I drew up no fewer than fifty-seven wills. This lady, who is quite a young woman (for she is still alive), was, I believe, a little "touched" at the time, for all these wills were made during a period of less than two years. After drawing up her fifty-seventh will my client disappeared, and, though every hotel and boarding-house in the city where she resided was searched, no trace of her will be found.

Her final will was dated the day before her disappearance, and in it she left all her jewellery and the bulk of her fortune—and she was immensely wealthy—to her French maid. For a month search was made for her, and finally she was located in the house of her old nurse, where, she said, she had gone

## FOR REST AND QUIETNESS.

A few days after her return to her husband's house she came here and made another will, and she kept that one for two years ago, and she has never made any more to my knowledge. She had the will habit for a short period, but has now got over it.

The greatest woman for making wills that I ever heard of was a client of a friend of mine who resides abroad. She was an unmarried lady of uncertain age, a keen business woman, and while she kept a fortune amounting to close on \$500,000. She had many relatives, in whose friendship, however, she put little faith. My friend drew up for her within a period of five years 107 wills, the majority of which were quite lengthy affairs, running to several columns. All these wills she kept in her own house, never destroying a single one, and at her death the final will which my friend, together with the rest, had drawn up could not be discovered. The one dated a week previous to the last one was found, and as in it

## THE BULK OF HER FORTUNE

was left to relatives the latter were, of course, particularly anxious for it to be proved.

It was believed that she had destroyed the latest will, and the relatives were beginning to congratulate themselves, when the one of more recent date turned up. In the testatrix bequeathed all her property to various charities, and the result was litigation, which, however, resulted in nothing. The relatives had to grin and bear it, while many deserving charities benefited considerably at their expense.

I generally find that it is my lady clients who have the will habit, for men, as a rule, never alter their wills for good or bad reason. As a matter of fact, they have strong objections to making a will at all, and generally put off the ordeal until it is absolutely necessary. Men, too, are superstitious regarding the making of their wills, and many of them believe that to do so means that death will soon follow.

## FEED YOUR MONEY.

### Feed Your Brain, and It Will Feed You Money and Fame.

"Ever since boyhood I have been especially fond of meats, and I am convinced I ate too rapidly, and failed to masticate my food properly. The result was that I found myself, a few years ago, afflicted with ailments of the stomach, and kidneys, which interfered seriously with my business.

"At last I took the advice of friends and began to eat Grape-Nuts instead of the heavy meats, etc., that had constituted my former diet. I found that I was at once benefited by the change, that I was soon relieved from the heart-burn and the indigestion that used to follow my meals, that the pains in my back from my kidney affection had ceased, showing that those organs had been healed, and that my nerves, which used to be unsteady, and my brain, which was slow and lethargic from a heavy diet of meats and greasy foods, had not in a moment, but gradually, and none the less surely, been restored to normal efficiency. Now every nerve is steady and my brain and thinking faculties are quicker and more acute than for years past.

"After my old style breakfasts I used to suffer during the forenoon from a feeling of weakness which hindered me seriously in my work, but since I have begun to use Grape-Nuts food I can work to the dinner table with all ease and comfort." Name given by Postum Co., Battle Creek, Mich.

There's a reason. Read the little book, "The Road to Wellville," in each pkg.

## HE'S ONLY ONE OUT OF SCORES

BUT DODD'S KIDNEY PILLS MADE HIM A NEW MAN.

Richard Quirk Doctored for a Dozen Years and Thought His Case Incurable—Dodd's Kidney Pills Cured Him.

Fortune Harbor, Nfld., June 5.—(Special)—Scores of people in this neighborhood are living proofs that Dodd's Kidney Pills cure all kidney ailments from Backache to Bright's Disease. Among the most remarkable cures is that of Mr. Richard Quirk, and he gives the story of it to the public as follows:

"I suffered for over twenty years from Lumbago and Kidney Disease, and at intervals was totally unable to work. After ten or twelve years of doctors' treatment, I had made up my mind that my complaint was incurable. Reading of cures by Dodd's Kidney Pills tempted me to try them. I did so with little faith, but to my great surprise I had not taken more than half a box before I felt relief, and after the use of seven or eight boxes, I was fully cured and a new man.

"Yes, Dodd's Kidney Pills cured my Lumbago and Kidney Disease, and the best of it is I have stayed cured."

## Young Rhymes—"I tell you marriage takes all the poetry out of a fellow."

Friend—"Then it can't be a failure."

Very many persons die annually from cholera and kindred summer complaints, who might have been saved if proper remedies had been used. If attacked do not delay in getting a bottle of Dr. J. D. Kellogg's Dysentery Cordial, the medicine that never fails to effect a cure. It will have the effect of acting promptly, and thoroughly subdues the pain and disease.

Flo and Algy had parted after a row, but he met her at a Ciderella and asked if he might have a dance. "Thank you," she said, haughtily; "but I am particular whom I dance with." "Ah!" he replied, calmly, "you see I am not!"

## 20 Years of Vile Catarrh.—Chas. O. Brown.

"I have been a sufferer from Throat and Nasal Catarrh for over 20 years, during which time my head has been stopped up and my condition truly miserable. Within 15 minutes after taking a bottle of Dr. J. D. Kellogg's Catarrh Powder I obtained relief. Three bottles have almost, if not entirely, cured me." 50c.—73

Doctor—"Why don't you settle my account?" You said when I was attending you that you could never repay me for all I was doing." Patient—"And I meant it."

## Is there anything more annoying than having your corn stepped upon?

Is there anything more delightful than getting rid of it? Callaway's Corn Curer will do it. Try it and be convinced.

## FROM BONNIE "SCOTLAND"

### NOTES OF INTEREST FROM HER BANKS AND BRAES.

What is Going on in the Highlands and Lowlands of Auld Scotia.

Mr. James Shepherd, of Rossend Castle, Burntisland, has intimated that he will give £10,000 toward the funds of Dr. Gray's hospital at Elgin. Mr. Shepherd, is a native of Elgin.

The death of John Alexander, "Blind Johnnie," removes a familiar figure from Stranraer. The deceased was blind all his life, and was the best known of all the town's worthies.

There is a report that Mr. Carnegie is desirous to procure the Nasmyth portrait of Robert Burns for the Pittsburg Art Gallery that bears his name.

A local trading company has been formed at Golspie for the conveyance of passengers, goods and mails within the three northern counties. The capital amounts to £6,000.

Messrs. A. & J. Inglis, of Point-lighthouse, on the Clyde, have received the order to build the new yacht for the King. She will be of 2,000 tons, and will be fitted with turbo engines.

At a meeting of Dundee Town Council on the 6th ult. a motion that fairs should be run on Sundays for the coming three months, in order to test public opinion on the subject, was lost by the casting vote of the Lord Provost.

The Rev. Mr. Robertson,burgh, who missed his train at Nevis during a thunderstorm, reported making a speech. His arms were dislocated.

The Highland Railway Company are reported to have reported to their system of operation two schemes to Dundee through Grangemouth.

While excavating for a new parish church at St. Andrew's, skeletons were unearthed, ground in the vicinity of the church at one time was used as a graveyard.

The death took place at his Edinburgh residence in Magdala Terrace, of Mr. Fletcher Norton Menzies, for many years identified with the National Agricultural Society of Scotland and all its work. Born on the 8th of March, 1819, he has completed his 86th year.

At the annual meeting of Dundee Chamber of Commerce, Mr. J. B. Don, the president, estimated the probable shortage in Dundee jute supply at 290,000 bales. The unrest and possibility of revolution in Russia, to his mind, opened up a prospect of considerable danger to the fax trade.

The spring graduation ceremonial in connection with the University of Edinburgh took place on the 7th inst. in the McEwan Hall. Four gentlemen received the honorary degree of Doctor of Divinity, and eight the honorary degree of Doctor of Laws. The latter included Lord Kincairn, Sir Arthur Conan Doyle, and Colonel Sir Frank E. Young-husband.

Little Innocent—"Which figure in the quadrille do you like best, Mr. Spooner?" Enamored Youth—"Yours Miss Lambert."

The satisfaction of having the washing done early in the day, and well done, belongs to every user of Sunlight Soap.

## A ROYAL BOOKLET.

The Grand Trunk Railway System are distributing a very handsome booklet descriptive of the Royal Muskoka Hotel, that is situated in Lake Rosseau, in the Muskoka Lakes, "Highlands of Ontario." The publication is one giving a full description of the attractions that may be found at this popular resort, handsomely illustrated with colored prints of lake and island scenery, the hotel itself, and many of the special features that may be found there. It is printed on fine enamelled paper, bound in a cover giving the appearance of Morocco leather, with a picture of the hotel and surroundings on the same, and the crest of the hotel embossed in high relief. A glance through this booklet makes one long for the pleasure of Summer and outdoor life, and copies may be secured gratuitously by applying to any Grand Trunk ticket office.

## ENTERPRISE AUSTRALIA.

### Experimental Work on Its Own Farm.

A splendid example of Government enterprise is in operation in Western Australia. For some time past the Government have been endeavoring to encourage emigration to Western Australia, and have based this encouragement upon a system of experimental work and research in the colony itself which is justified by the results. The resources of the country have been tested in every way, and the Agent-General does not hesitate to advocate the possibilities of the creation of an important agricultural production in Mother Country.

To demonstrate this, an exhibition of the products of Western Australia was held last week in the old Agricultural Hall in London. Experiments of various kinds of barley, rye, and wheat, and of various kinds of fruit, were shown.

While excavating for a new parish church at St. Andrew's, skeletons were unearthed, ground in the vicinity of the church at one time was used as a graveyard.

The death took place at his Edinburgh residence in Magdala Terrace, of Mr. Fletcher Norton Menzies, for many years identified with the National Agricultural Society of Scotland and all its work. Born on the 8th of March, 1819, he has completed his 86th year.

At the annual meeting of Dundee Chamber of Commerce, Mr. J. B. Don, the president, estimated the probable shortage in Dundee jute supply at 290,000 bales. The unrest and possibility of revolution in Russia, to his mind, opened up a prospect of considerable danger to the fax trade.

The spring graduation ceremonial in connection with the University of Edinburgh took place on the 7th inst. in the McEwan Hall. Four gentlemen received the honorary degree of Doctor of Divinity, and eight the honorary degree of Doctor of Laws. The latter included Lord Kincairn, Sir Arthur Conan Doyle, and Colonel Sir Frank E. ## THE DRUG HABIT.

Medical men know only too well from experience the terrible evil to the community arising from the habit of taking narcotic drugs. Of recent years there is good reason to conclude that this pernicious fashion has increased to an alarming, nay, indeed, to an appalling, extent—Medical Press.

Use Lever's Dry Soap (a powder) to wash woollens and flannels—you'll like it.

"If you steal—I don't care what it is—you'll repent it some day." "Bah! Didn't you ever steal a kiss?" "Yes, and I married the girl!"

60 Specialists on the Case.—In the ordinary run of practice a greater number than this have treated cases of chronic dyspepsia and have failed to cure—but Dr. Von Stan's Pileapple Tablets (60 in a box at 35 cents cost) have made the cure, giving relief in one day. These little "specialists" have proven their real merit.—72

"Her complexion is very clear," said the casual acquaintance. "Yes, indeed," her dearest friend agreed; "anybody can see through it."

Worms cause feverishness, moaning and restlessness during sleep. Mother Graves' Worm Expeller is pleasant, sure and effectual. If your druggist has none in stock, get him to procure it for you.

Mother—"Ethel, you naughty child, what have you been doing to make Charley cry so?" Ethel—"I've been sharing my cod-liver oil with him, dear mamma. You said it was so nice."

Rheumatism will succumb to St. American Rheumatic Cure because it goes right to the seat of the trouble and removes the cause. Many so-called cures but deaden pain temporarily only, to have it return again with double violence. Not so with this great remedy. It eradicates from the system the last vestige of the disease and its cure is permanent.—74

The Woman—"George, this is the anniversary of the day on which I promised to be yours. Have you forgotten?" George—"No, my dear, I've forgotten."

Pain is a Punishment.—Pain is a protest of nature against neglect of the bodily health, against carelessness regarding the physical condition. It stands in at the first opportunity and it is difficult to eject it. Electric Oil will drive it out in order. Pain cannot be tolerated, but immediate relief is afforded.

GERMAN ASPIRATIONS.

The Germans have, of course, a perfect right to enlarge their feet, and we have none to prevent them doing so. What we have a right to do, and what we shall do unless we are "drowned in security," is to watch the naval developments of Germany with the utmost vigilance, and to note carefully the growth of her aspirations for world-power and sea-power—aspirations which cannot be fully realized without involving the destruction of the British Empire.—London Spectator.
