

The Fair Captives

OR THE SECRET CABINET

CHAPTER XLVII.

It is hopeless to attempt to withdraw the arm that is close clasping Griselda's waist, the maddest jolly dream of dropping the little hand so confidently clasped in Peyton's broad palm. To all intents and purposes Griselda stands revealed in the warm embrace of the new gardener!

here? You will, of course, understand, spreading his white hands abroad with an assumption of an apologetic air, intensely irritating, "that I am, unhappily, entirely ignorant of your social qualities, which," with a second even more eloquent glance, "must be enormous. So that you will pardon me for saying that as I look at you I am filled with amazement."

DOMINION PARLIAMENT

NAVIGABLE WATER. Mr. Ames was informed by Sir Wilfrid that the Government had no official information as to the number of miles of navigable water suitable for light-draught steamers within the northern part of the proposed new Province of Alberta. If there was any information at all it would be found in the reports of surveyors and if it could be found the Government would present it to the House.

FEELING THEIR OATS.

Canadian Soldiers Kick Up a Row in Halifax. A Halifax despatch says: Soldiers of the Royal Canadian Regiment in garrison here do not take kindly to discipline. Thirteen privates who were imprisoned in the main guard room at Citadel Barracks on Friday kicked up a lively time. They started to break their way out and smashed everything in sight. The guard was called out and attempted to enter the room, but the Canadians had barricaded firmly. Then a squad of twenty-one military police were hurried to the scene, and they battered down the door and overpowered the unruly Canadians, who were removed to a stronger guard room at the Citadel. All had been imprisoned for petty offences, such as absence without leave, beyond bounds, etc.

RUSSIA SEEKS JAPAN'S TERMS

The Bear Wants to Know the Conditions of Peace.

CZAR ASKED JAPAN'S TERMS. A despatch from St. Petersburg says: As a result of the meeting of the Council of Ministers held at Tsarskoe-Selo on Tuesday, instructions were telegraphed on Wednesday afternoon to the Russian Ambassadors at Washington and Paris to the effect that Russia is desirous of learning Japan's peace conditions. third parties are untrustworthy, and more likely to do harm than good.

CATTLE MARKET.

Toronto, June 13.—Operators showed some indifference towards doing business on a large scale, and the general demand from the city and outside points was slack. The following is the range of prices: Export cattle, choice \$5.50 to \$5.75; Do, medium \$5.00 to \$5.25; Do, bulls \$4.75 to \$5.00; Do, light \$4.50 to \$4.75; Do, cows \$4.25 to \$4.50; Butchers', picked \$4.00 to \$4.25; Do, choice \$3.75 to \$4.00; Do, medium \$3.50 to \$3.75; Do, common \$3.25 to \$3.50; Do, cows, choice \$3.00 to \$3.25; Do, bulls \$2.75 to \$3.00; Feeders, short-keeps \$2.50 to \$2.75; Do, medium \$2.25 to \$2.50; Do, light \$2.00 to \$2.25; Do, bulls \$1.75 to \$2.00; Stockers, \$1.50 to \$1.75; Do, bulls \$1.25 to \$1.50; Mich. cows, choice \$1.00 to \$1.25; Do, common \$0.75 to \$1.00; Export ewes \$0.50 to \$0.75; Do, bucks \$0.25 to \$0.50; Spring lambs, each \$0.50 to \$0.75; Cull sheep, each \$0.25 to \$0.50; Calves, each \$0.50 to \$1.00; Hogs, select, 160 to 200 lbs., 6.45; Do, fat and lights \$6.00.

POSTAL MATTER.

Dr. Barr was informed by Mr. Fisher on behalf of the Postmaster-General that an order had been sent to postmasters not to distribute postal matter sent to them in bulk. It was considered that in distributing such matter they were interfering with the revenue of the department, and if it were allowed the postmasters would have to use their discretion, thus rendering them liable to create trouble.

CANADA IS CAREFUL.

Before the Commons Agriculture Department, W. D. Scott, Superintendent of Immigration, and Dr. P. H. Bryce, medical inspector, of the same department, both declared that the medical tests to keep out disease and prevent diseased immigrants landing in Canada are more strictly applied than they are at United States ports. The latter declared that on personal observation, that we are getting a more desirable class of settlers from Europe than find their way to the United States. One-half of the total immigration in this country now comes from Great Britain.

WHEAT A FOOT HIGH.

Canadian Pacific Railway Crop Report. A despatch from Winnipeg says: Thursday's crop report of the Canadian Pacific Railway notes rapid growth during the week, some points stating that the grain has risen three inches in about as many days. A liberal supply of moisture and favorable weather continue to contribute to the vigorous maturing of the crop. In only scattered instances are untoward conditions reported. Yorkton branch shows the most advancement, the wheat being reported as eight, ten and twelve inches high at Birnie, Russell and Yorkton.

REMAINS OF ABIGAIL BECKER

Removed From Walsingham Centre to Simcoe. A despatch from St. Thomas says: The remains of Abigail Becker, the heroine of Long Point, were removed from the cemetery at Walsingham Centre on Thursday and placed in Oakwood Cemetery at Simcoe, the bereaved having donated one of the finest lots for this purpose. It is now proposed to raise a subscription throughout Norfolk to place a suitable monument in the cemetery to this brave Canadian woman.

ADOPTED CHILDREN

Homes Brightened by Their Presence—A Foster Mother's Letter. Some of the world's brightest and cleverest men and women have been adopted children taken in infancy by childless people and reared with all the care and tenderness that love and regard for child life can suggest. Mr. J. J. Kelso, who is the general superintendent of work for homeless children in Ontario, states that almost every mail brings in enthusiastic letters from foster parents who have found new joy in life since they adopted a little one. The following is a sample letter recently received: "I dare not trust myself to commence to write of little N. who would at once conclude I was a foolish person. We think there never was or ever can be a more beautiful little creature. She is a joy and delight all the days and weeks and makes sunshine and brightness wherever she goes, and often and often we wonder if it is possible she is really and truly ours. In form and figure she is a model, with a face and hair artists rave over. Her hair hangs in long brown curls to the waist, her soft brown eyes are very expressive, her velvet white hands and arms are most beautiful, and the whole contour of her face and figure is of good birth and aristocratic bearing. She is perfectly healthy—weighs 38 lbs. in three years old this month. I could fill a book with her bright sayings and baby prattles, showing great intelligence. We intend having her portrait painted. We know the photographer here would not do her justice and have been waiting to take her to the City for her photo. My little son is at a private school for boys and we often say God sent this sweet girl to help us bear the parting with him. It will be a pleasure for me from time to time to acquaint you with H's growth and development and I can never, never begin to thank you for your kindness and interest in us."

BIG RAILWAY DEAL.

C. P. R. Acquires a Railway On Vancouver Island. A despatch from Victoria, B. C., says: The Esquimalt and Nanaimo Railway and a land grant of a million and a half acres on Vancouver Island were finally transferred by agreement to the C. P. R. on Wednesday afternoon. Mr. Dunsuir retains the coal rights. The consideration is not known. The old board of directors resigned, and a new board of C. P. R. officials was elected, with Wm. Whyte president, and J. S. Dennis vice-president. The C. P. R. takes immediate control, without a change on the staff of officials for the present. It is understood the new directors contemplate an active policy in the development of the land grant, and will place in the field to explore and prospect the land, timber and minerals. People are pleased at the prospect of development.

BRITISH TRADE

Large Increase for May in Imports and Exports. A despatch from London says: The Board of Trade returns for the United Kingdom during the month of May, as compared with the same month last year, show that imports increased £2,052,869, and exports increased £2,140,351.

SHUT OUT OF BURMAH.

Standard Oil Co. Will Not Be Allowed a Foothold. A despatch to the London Daily Mail from Simla says that the Government of Burma, with the view of protecting the British Burmah Oil Company, has refused the Standard Oil Co. a license to establish a petroleum store on the Rangoon River.

MAY WAS RECORD BREAKER.

Tonnage Through "Soo" Crosses Was the Largest.

A despatch from Detroit says: Reports from the Soo indicate that the tonnage through the canals during May is the largest for a single month in their history, the total freight movement being 5,775,787 tons, of which 4,686,827 tons passed over the American side and 1,088,960 tons on the Canadian side. On May 2nd a total of 295,334 tons were moved, the record for a day.

MUST NEGOTIATE DIRECT.

A despatch from London says: Viscount Hara, the Japanese Minister, in an interview on Friday, declared that Japan's attitude is unchanged. She is willing to negotiate for peace as soon as Russia makes an official request. When the negotiations are begun, and not earlier, the terms can be outlined and discussed. No Japanese representative abroad, so far as Viscount Hara is aware, is empowered to outline Japan's terms either directly or indirectly. He added that it would be natural for Russia to ask France to negotiate, that it was her wish to negotiate, but she might ask President Roosevelt, but the intermediary in either case could do no more than express Russia's desire to negotiate direct with Japan. All rumors implying a discussion of terms through

LIFE FOR HER CEILD.

Mrs. Buzze Killed at Cherry River, Quebec. A despatch from Sherbrooke, Que., says: News has reached here of a terrible accident that occurred at Cherry River on Monday. Mrs. Lucius Buzze sent two of her children to play, and a few minutes later the younger, a mere tot, in the middle of the roadway in peril of being run over by a team and carriage that were being driven at a high speed. The woman ran out, and in an effort to reach the child was struck on the head by the carriage tongue with such force that she expired on the road way almost immediately. The child was uninjured.

UNIVERSAL STRIKE.

According to the Moscow correspondent of the London Standard, Russia is threatened by a general strike of doctors, lawyers, teachers, engineers, pharmacists, railway men, clerks, and many others, to emphasize the universal demand for internal reforms. The movement has been organized by a so-called union of unions, embracing all classes and professions, from peasants upward. The delegates at a meeting at their headquarters in Moscow have drawn up a manifesto that is similar, but more emphatic in tone than that of the Zemtsovoists, but, believing it is hopeless to wait longer for the voice of the people to reach the throne, they resolved to act. They accordingly propose a universal strike, to refuse to testify in cases involving political charges and to organize a demonstration, in which they will accept aid from the revolutionists. A despatch from St. Petersburg states that severe rioting is reported at Minsk. Nearly a hundred persons have been shot. It is reported that there was a renewed massacre of Armenians at Erivan on June 7.

ROJESTVENSKY'S REPORT.

A despatch from St. Petersburg says: An official report of the battle in Tushima Straits has been received from Admiral Rojestvensky. In it he states that he was unconscious owing to his wounds, when he was removed from his flagship, the Kniaz Suvarov.

KUROKI'S MOVE.

Moscow, June 7.—It is reported that Gen. Kuroki, who commands the right wing of Marshal Oyama's army, is making a wide turning movement.

RUSSIANS REPULSED.

A despatch from Tokio says: A despatch from the headquarters of the Japanese army in the field, made public on Wednesday afternoon, says: "The enemy's inferior strength, not mentioned in the official report, two miles north of Wuyuan, early in the morning of Monday, but were repulsed." "The enemy's day force, which had advanced to Shalotse, nine miles east of Chantai, dislodged the enemy heading for that vicinity, and occupied a neighboring eminence. A portion of our cavalry drove the enemy northward toward Chichantzu, 15 miles north of Kwangping, and Manchun, seven miles east of Chihai, and our troops occupied their vicinities."

BATTLESHIP RIPPLED.

A despatch from Tokio says: A correspondent has been permitted to inspect the Russian battleship Orel, now lying at Maizuru. The Orel received a terrible battering. Her hull shows forty gaping holes, pierced by large shells, and many of her superstructure, her upper works and upper decks were riddled by shells, and fragments and splinters. The Orel is sound structurally, although it will be necessary to practically reconstruct her from the waterline up. The condition of the ship shows that the crew were subjected to a terrible ordeal before they surrendered.

ONTARIO ORPHANAGES.

The preventive work carried on by the Children's Aid Societies, under the direction of Mr. J. J. Kelso, is nowhere more clearly shown than in the statistics for the orphanages of the Province. Notwithstanding the natural growth of the country and the tendency of charitable institutions to expand there has been a falling off both in the number of children cared for in these institutions and in the expense, as the following figures will show:—In 1894 the number of children cared for in the orphanages was 4,406, while in 1904 the number was 4,116, a reduction of 290. In 1894 the total Government grant to the orphanages of the Province was \$14,771.80, while in 1904 the grant was only \$14,689.05, or \$82.75 less than ten years ago. It is no longer necessary to keep children in orphanages because of lack of good foster homes, as there are hundreds of homes available if the managers of these institutions desired to take advantage of them.

MAY WEAR THE HOOD.

J. W. Lowther Chosen Speaker of the British Commons. A despatch from London says: James William Lowther, Conservative Deputy Speaker and chairman of the Committee on Ways and Means, was unanimously elected speaker of the House of Commons on Thursday afternoon, in succession to William Court Gully, who recently resigned. This is the first time since 1833 that a Conservative has been able to win the office of speaker. In the chair after the election, Mr. Lowther announced that he would continue to follow the tradition of his predecessors, and would not attempt to introduce any new measures.
