We desire to call attention to the superior quality of the Woollen goods we are manufacturing. Our customers are those who use the goods they purchase, consequently quality takes precedence of cost with them, and having no commissions or middle men's profits to add to the cost of manufacturing, we take no anxious thought as to whether this or that may be made a little cheaper, but we try to have the material and workmanship just as thoroughly good as possible.

In YARN we have 35 different kinds, which we guarantee as good as home made. A fine grade of Yarn for Ladies' and Children's wear.

Our comments have been universally favorable to the idea; for we believe it to be not only in the interest of shop employees, but also consider which Rev. Newton Hill was its pastor, that its results will be favorable to the during the past three years. Space will employers as such, and to the general advantage of the business community. Not all the success of a 1-rosperous business is due to skill in buying and effecness is due to skill in buying and effective display of goods, although these the annual financial statement of the

by jewelers, druggists, hardware mer-chants, grocers and provision dealers. But the most interesting information concerning the movement comes from Montreal. At a meeting of a special committee of the city council to consider the advisability of passing a by-law enforcing the early closing of stores, both the advocates and opponents of the scheme received a hearing. Four hun-dred and forty-four merchants signed a petition for the early closing of stores on Tuesdays, Wednesdays, Thursdays and Fridays at 7 o'clock p. m. in the winter, and 8 o'clock p. m. in the sumearly closing on Mondays, Tuesdays, Wednesdays and Thursdays. Of landlords and storekeepers who were opposed to the closing of stores at a fixed hour, there were 285, while 361 declared that it would be impossible to enforce such a by-lav. Another petition gave the names of the aldermanic candidates at the last election who pledged thements of early closing urged that it meant an advantage given to the large stores ness was done after 7 o'clock in the evening. Others contended that the present system was in the interests of at night time. It was also claimed by the counsel of those opposing the scheme that consideration should be paid to the fact that many merchants had recently expended a great deal of money in fitting up their business places with lighting apparatus, while others had taken long leases of particular stores be-Somo of these objections are no

For some people the most favorable shopping time is after 7 o'clock in the evening. This is, however, probably as much the result of habit as of anything else. Where it is really disadvantageous to caygeon. shop before that hour, consumers should be prepared to suffer some little inconvenience, at all times bearing in mind the golden rule. On the other hand, merchants, or the early closing assoc ations, should regard the needs of consumers, and in each case where the system is adopted cards should be sent to the customers of the store giving notice of the change and asking their cooperation in the scheme. That some merchants will suffer more than others we can well believe. This is unfortunate, but the disadvantage will for a large part be found to be but a tem; orary one, and we may repeat, some sacrifice may well be made to accomplish so great good. An unfortunate feature of an early closing by-law is its compulsory nature.

#### COMMUNICATION.

To Editors Mirror:-

DEAR SIRS, - We would like to ask through your valuable paper, an explan-ation from our celebrated village council, what they mean by the persecuting spirit they have shown towards the establishing of a new furniture emporium in our midst. We understand our officions village constable, acting under instructions, called upon the manager of said emporium, and demanded the sum of fifty dollars for the privilege of allowing him to exist in our midst. In Apples, per b default of payment, he was to close and lock his place of business. The citizen of our village and vicinity consider this ney, the proprietor, has rented the shop for a year, and has as much right to do business as any merchant in it.

Another case, of great wisdom, displayed by our council is in the recent arbitrary by-law passed, forbidding our blacksmiths starting fires on our streets to set tires, thereby compelling parties to go to Mt. Pleasant or Reaboro to Manyers, containing one hundred acres have such work done, much to their inconvenience and to the injury of our business men. We notice that the authorities in all other towns invite trade to their places instead of trying to drive it MORE ANON-

Perhaps one of the most enjoyable af- First-Class in all its Appointments. fairs of the kind ever held in Omemee, was the garden party held on the lawn of Wm. Adams' last Friday night. Such was the universal expression of the many pleasure seekers from the country as well as our citizens who attended. The success attending this event was greatly due to the following ladies, who spared no pains or labor in making it a success, viz. the Misses Ad ams, Timms, mer. Twenty-two storekeepers at Hoch-elaga declared themselves in favor of nade, ice cream, coffee and cake was large without specifying days ment for such was perfect. The music rendered was excellent and the evening's entertainment throughout was well received, and the grounds looked charming, as they were illuminated with chiness and other lights. Messrs. J. H. Carnegie, M. P. P., J. D. Naylor, and T. Stephenson were present and gave short addresses. The member elect made himself a great favorite, particularly with the ladies and band boys, kindly giving a handsome donation for the benefit of the band. The whole proceeds of the evening amounted to about \$23.00, which will be judiciously spent for the band.
